Cadmium Determination after Precipitation from Zine-Cadmium Solution. T. L. Thompson

Calcium Carbonate, Determination of, Decomposition Temperature of. M. L. Nichols and B. E. White

Calcium Carbonate in Water, Saturation Balance Indicator for. A. G. Salmon, W. J. F. Hersey, and C. E. Leach

Calcium Molybdate, Phosphorus Determination in. Louis Silverman

Carbon Compounds, Spectrophotometric Determination of Nitrates by Micromethod. H. H. Barber

Carbonates, Hessian

Carbonates in Soybeans, Studies of M. M. MacMasters, Sybil Woodruff, and Helen Klaas

Carbon Black Surface-Area Determination, P. H. Emmett and Thomas De Witt

Carbon Dioxide, Separation from Sulphur Dioxide in Air by Micro-Apparatus. L. Miller

Carbon Surface-Area Determination, H. H. Barrett, Carbon Surface-Area Determination in, G. B. Heising and Aaron Lerner

Carbonate Determination by Rapid Procedure. A. C. Kupfer and L. M. Jones

- Sulphite Mixtures, Semimicrodetermination of Carbon Dioxide and Sulphur Dioxide in Air. J. A. Churchill

Carbohydrates in Yeast, in Water, Bromocresol Green-Methyl Red as Indicator for. S. S. Cooper

- Cryptoxanthin Determination in Yellow Corn. G. S. Fraps and A. K. Kosher

Carbohydrate, Determination of, Developments in Methods for. W. J. Peterson

- Extraction from Plant Material. L. A. Moore and Ray Ely

Catalysts, Silica Gel, Platinum on, in Gas Analysis. K. A. Koble and R. A. MacDonald

Calcium Carbonate in Waters, Determination of, from Cotton. Role of Velocity Gradient in Determining Cuprammonium Fluidity. C. S. Broyhill

- Derivatives, Determination of Total Combined Acetyl in Cellulose Organic Esters. L. B. Genung and R. C. Maltby

- Viscoelastic Determination of. E. Berl

Cellulose Acetate Rayon. See Rayon

Cellulose and Aluminium Determination in, with S-Hydroxyquinolino. Leo Kemple

Cement Surface-Area Determination. F. H. Emmett and Thomas De Witt

Centrifuged Accessu. G. R. Johnson and Harvey Miller

- Accessories for Corrosive Materials. G. F. Smith

- Ultra-, as Instrument for Chemical Analysis. R. H. Miller

- General and Instructions for Use. E. A. Baker and F. W. Rixon

- Chocolate Viscosity, Development of Standard Method, Joseph E. Staney

Chromat as-Adsorption Inhibitor in Bimetallic Systems. Mare Darrin

- Detection and Titration in Blood Iodine Microdeterminations. O. H. Gaeber and Margaret Baty

- Soluble Determination in Presence of. W. B. Meldrum, W. E. Cadbury, Jr., and W. L. Lucase

- Chromatographic Analysis, Microbromate of. M. O. C. Grove

- Chromatocinchin. Cinchomycin. See preceding item

- Citral Determination by Photoclectric Colorimeter, John Bailey and C. K. Beebe

- Citric Acid in Clothing Products. W. B. Meldrum and C. K. Beebe

- Chloride Determination by Photoclectric Colorimeter. John Bailey and C. K. Beebe

- Cobalt Determination with Nickel Simultaneously in Presence of Iron. C. C. Fulton and C. K. Beebe

- Chromium, Determination of in Single Substances. J. T. J. Linnge and Herbert Kelling

- Chromium, Determination of Trioxoatithonite. G. H. Castleide and P. M. Nichols

- Cobalt and Chromium in Sulphur, Determined in. L. W. Silverman

- Color Comparator of Simple Type. R. H. Wilhelm

- Color Reactions, Drop-Test Interferences Occurring in Microanalytical Reactions. L. C. Sera and A. O. Reid

- Colorimeter, Photoclectric, Applications of, Rasmuth Determination of A.C. Reed and D. O. Reid

- Colorimetric Instrumental Methods of Analysis. R. H. Miller

Colors, Adhesive Fracturing, and Precision-Spaced Wire Packing for Range -100° to 300°F. C. W. Podbielniak

- Fracturing, Plating Low-Holdup Laboratory Crows. T. J. Bailey

- Head, for Distillation. Paul Arthur and C. L. Nickolls

- Head, for Fractionation in Laboratory. Tseng-Huang Suen

- Perforated Plate, for Analytical Batch Distillations. C. F. Oeder

- Compactor for Powders in Air-Permeation Experiments. E. L. Goeden

- Condenser for Digestion Operations. Raymond Saymonowits

- Condenser for Laboratory. M. T. Bush

- Conductimetric Measurements, Instrumental Method for. R. H. Miller

- Copper Measured by Micromethod. J. J. Birkeman

- Copper, Cooking Water Bath for Laboratory Type of. H. W. Coles and W. E. Tottenham

Copper Coprecipitation with Zinc by Lead Sulphate. Spectrophotographic Determination. H. C. Mcelwain, T. H. Curtiss, and H. A. Miller

- Cupric Ion, Iodate Ion Determination in Presence of. F. L. Kapur and M. V. Verma

- Determination in Aluminum Alloys. H. A. Sloviter

- Determination in Steels by Spectrophotometric Trace Analysis. E. H. Melvin and R. T. O'Connor

- and Separation with Benzotriazole by Quantitative Method. J. A. Curtis

- German Silver by Modified Pregl Apparatus. A. J. Llacar, J. Roz and A. Benedetti-Pecher

- in Plant Materials, Using Dropping Mercury Electrode. J. C. Reed and R. W. Cummings

- Corn, Carotene and Cryptoxanthin Determination in Yellow Type of. G. S. Fraps and A. R. Kemmerer

- Corn Grain, Aminic Acid Estimation in. D. M. Doty

- Copper Analysis. See also Rinses

- Corrosion Inhibitors, Chromates as, in Bimetallic Systems. Mare Darrin

- Corrosive Materials, Centrifuge Accessories for Use with. 82

- Copper Cellosolve, Role of Velocity Gradient in Determining Cuprammonium Fluidity of. C. M. Conrad

- Copper, Chromic, and Manganic and Determination of Small Amounts of. A. D. Adams, C. F. Sander

- Copper Dicyclohexylidene Diamine, Separation of by Microdistillation. J. H. Brant and D. C. Siers

- Copper, Determination of with Ammonia by Colorimetric Method. J. P. Mehlig

- Cryostat. See Temperature Apparatus

- Cryostat and Condenser, Determined in and Used in Determination of Corrosion Inhibitors as. J. O. Hawkes and F. H. Smith

- Cryostats. See Temperature Apparatus

- Cupric Ion. See Copper

- Cyclazol, Estimation of. W. K. Oppenheimer

- Dipyridyl Estimation of Volatile Liquids. S. W. Benson

D Dairy Products, Sodium Alginate Detection in. C. W. Schroeder and P. A. Racicot
