

SUBJECT INDEX

INDUSTRIAL AND ENGINEERING CHEMISTRY

ANALYTICAL EDITION

VOLUME 2—1930

ABRASION Test, Development of— for Use with Nitrocellulose Lacquers. Lacquer Studies—I. William Koch.....	407
Acetyl and Nitrogen Content of Cellulose Nitroacetate, Determination of. W. M. Billing and J. S. Tinsley.....	380
ACID:	
Determination of Small Amounts of—in Ether. L. P. Hall.....	244
Null-Point Method of Potentiometric Titration for Determining— or Alkali in Paper. B. L. Clarke and L. A. Wooten.....	385
Numbers of Dark-Colored Resins. H. H. Coburn.....	181
Organic, Determination of—in Mixtures. I—Determination of Fatty Acids in Mixtures by Partition between Isopropyl Ether and Water. C. H. Werkman.....	302
Volatile Wood, Estimation of—Corrosive to Lead Cable Sheath. R. M. Burns and B. L. Clarke.....	86
Acriflavine, Colorimetric Determination of— and Neutral—. E. L. Howes.....	114
AIR:	
High-Sensitivity Absolute-Humidity Recorder. C. Z. Rosecrans..	129
Industrial Analysis and Recording of Carbon Dioxide and Oxygen in. W. F. Hamilton.....	233
Modified Peterson-Palmquist Apparatus for Determination of Carbon Dioxide in. E. P. Jones.....	195
Preparation of—of Known Humidity and Its Application to Calibration of Absolute-Humidity Recorder. A. C. Walker and E. J. Ernst, Jr.....	134
Alcohol, Determination of— by Pycnometer. A. F. Fuerst.....	30
Alcohol Developments in Finland.	425
Aldose. See Sugars.	
Alkali, Method for Estimating Aldose Sugars by Titration with Iodine and. C. S. Slater and S. F. Acree.....	274
Modified Method. G. M. Kline and S. F. Acree.....	413
Alkali, Null-Point Method of Potentiometric Titration for Determining Acid or—in Paper. B. L. Clarke and L. A. Wooten.....	385
ALLOYS:	
Application of Microscopic Analysis to Mixtures of Metals and. W. F. Whitmore and Frank Schneider.....	173
Determination of Cobalt in Driers, Japans, and. Oscar Heim.....	38
High-Melting, Determination of Carbon in—Using High-Frequency Induction Furnace. G. F. Smith and G. L. Hockenyos.....	36
Lead-Antimony, Determination of Antimony in—of Low Antimony Content. L. I. Shaw, C. F. Whittemore, and T. H. Westby.....	402
Lead, Rapid Method for Determining Calcium in—of Low Calcium Content. L. I. Shaw, C. F. Whittemore, and T. H. Westby.....	401
Magnesium-Aluminum, Short Method for Complete Analysis of. S. S. Singer.....	288
Zinc-Base Die-Casting, Determination of Aluminum and Magnesium in. C. M. Craighead.....	188
Alumina in New Form as Laboratory Desiccant. J. B. Barnitt, R. B. Derr, and E. W. Scripture, Jr.....	355
ALUMINUM:	
Boiling Milk in—Does Not Destroy Vitamin C.....	224
Determination of—and Magnesium in Zinc-Base Die-Casting Alloys. C. M. Craighead.....	188
Determination of Beryllium in. H. V. Churchill, R. W. Bridges, and M. F. Lee.....	405
Hot Plate and Dutch Oven. H. V. Churchill and R. W. Bridges.....	335
Identification of—and Magnesium in Printing Inks. L. M. Larsen. Magnesium—Alloys. See Alloys.....	416
American Oil Chemists' Society, Study of Official Method of Bleaching Test of. Chieh Ma and J. B. Withrow.....	374
Ammonia, Aqua, Special Hydrometer for. D. F. Farrar.....	293
ANALYSIS:	
Quantitative—by Monochromatic Transmission. Monroe Barnard and Paul McMichael.....	363
Quantitative, Effect of Degree of Pulverization and Weight of Samples on. With Particular Reference to Plant Tissues. R. C. Malhotra.....	398
Volumetric, Providing for Changes of Temperature in. M. G. Mellon.....	260
ANALYTICAL CHEMISTRY, SYMPOSIUM ON:	
Applications of Photo-Electric Cell to Chemical Analysis and Control. H. M. Partridge.....	207
Conductometric Titrations. I. M. Kolthoff.....	225
Electrode Potentials in Analytical Chemistry. Stephen Popoff.....	230
Microscopical Methods in Analytical Chemistry. C. W. Mason.....	203
Modern Trends in Analytical Chemistry. H. H. Willard.....	201
Potentiometric Titrations. N. H. Furman.....	213
Antimony, Determination of. Evaluation of Stibnite—II. W. M. McNabb and E. C. Wagner.....	251
Antimony, Determination of—in Lead—Alloys of Low—Content. L. I. Shaw, C. F. Whittemore, and T. H. Westby.....	402
Apples, Sampling of— for Arsenical Spray Residue Determinations. J. R. Neller.....	382
Arsenic, Accuracy of Gutzeit Method for Determination of Minute Quantities of. J. W. Barnes and C. W. Murray.....	29
Asbestos, Preparation of— for Use as Filter Aid. Color in Sugar Industry—III. J. F. Brewster and F. P. Phelps.....	373
BARIUM Oxide as Desiccant. H. S. Booth and L. H. McIntyre.....	12
Barium Sulfate, Estimation of Sulfates as. Microscopic Examination of Precipitates as Aid to Precise Analysis. Stephen Popoff and E. W. Neuman.....	45
Barium Sulfate, Use of— for Clarifying Soil Suspensions, with Particular Reference to Colorimetric pH Determinations. L. D. Bayer and C. J. Rehling.....	338
BARO-BURET:	
New Accurate Gas Buret. H. S. Booth.....	182
II—Application to Gas Evolution Methods of Analysis. H. S. Booth and N. C. Jones.....	237
Bath, Constant-Temperature, Large-Capacity— Containing Removable Glass Front. T. H. Tremearne.....	426
Beryllium, Determination of—in Aluminum. H. V. Churchill, R. W. Bridges, and M. F. Lee.....	405
Biological Material, Application of Burgess-Parr Sulfur Photometer to Rapid Determination of Sulfur in Foods and. E. W. Toepfer and P. W. Boutwell.....	118
Bituminous Materials, Substitute for Amalgamation in Testing— for Melting Point, Ductility, and Float Test. Hans Eisner.....	176
Bleaching Test, Official Method of American Oil Chemists' Society. Chieh Ma and J. B. Withrow.....	374
Boric Acid, Use of Carob-Seed Gum for Detection and Estimation of— and Borates. Ralph Hart.....	329
Boron, Determination of—in Natural Waters and Plant Materials. Modification of Chapin Method. L. V. Wilcox.....	358
Buret, Baro. See Baro-Buret.	
Buret, Weight, Improved. H. B. Friedman and V. K. LaMer.....	54
CABLE Sheath, Lead, Estimation of Volatile Wood Acids Corrosive to. R. M. Burns and B. L. Clarke.....	86
Calcium, Determination of—and Magnesium in Dolomitic Limestones by Means of Saccharate Solutions. Alkalimetric Method. A. C. Shead and B. J. Heinrich.....	388
Calcium, Rapid Method for Determining—in Lead Alloys of Low—Content. L. I. Shaw, F. W. Whittemore, and T. H. Westby.....	401
Calorimeter Bombs, Comparison of Fused Silica, Gold, and Platinum Linings for. O. K. Bates.....	162
CARBON:	
Blacks, Moisture Content of. W. B. Plummer.....	57
Determination of—in High-Melting Alloys Using High-Frequency Induction Furnace. G. F. Smith and G. L. Hockenyos.....	36
Hydrogen, and Nitrogen Determinations Using Metal Tube. S. Avery and D. Hayman.....	336
CARBON DIOXIDE:	
Determination of—in Carbonates. W. W. Scott and P. W. Jewel..	76
C. A. Jacobson and J. W. Haught.....	334
Generator for Combustion Analysis in Estimation of Nitrogen. E. J. Poth.....	250
Industrial Analysis and Recording of—and Oxygen in Air. W. F. Hamilton.....	233
Modified Peterson-Palmquist Apparatus for Determination of—in Air. E. P. Jones.....	195
Carbonates, Determination of Carbon Dioxide in. W. W. Scott and P. W. Jewel.....	76
C. A. Jacobson and J. W. Haught.....	334
Carbon Disulfide Extraction, Determination of Sulfur in Insecticides and Fungicides by. Richard Edge.....	371
Carius Combustions, Subsequent Additions of Acid in. D. D. Hartley.....	328
Carob-Seed Gum. See Gum.	
Cell, Bartell-Osterhof, Improved. C. C. DeWitt.....	424
Cell, Electrolytic, for Use with Mercury Cathode. A. D. Melaven... 180	
Cellulose Nitroacetate, Determination of Nitrogen and Acetyl Content of. W. M. Billing and J. S. Tinsley.....	380
CEMENT:	
For Silica-Glass Joints. C. G. Maier.....	337
Portland, Revised Procedure for Determination of Uncombined Lime in. William Lerch and R. H. Bogue.....	296
Thick Rubber, Application of Falling Cylinder to Measurement of Viscosity of. W. F. Busse and W. B. Doggett.....	314
Centralite, Determination of—in Double-Base Smokeless Powders. H. Levenson.....	246
Chain, Platinum-Wire, Construction of— for Fouk—Hydrometer. W. W. Koch and G. F. Smith.....	41
Chemicals, Analytical Reagent, Recommended Specifications for. A. C. S. Committee on Analytical Reagents, W. D. Collins, Chairman.....	351
Chestnut Trees Retain Tannin Long after Death.	62
Chlorides, Determination of—in Salt Brines. S. L. Neave.....	28
Cholesterol as Measure of Egg Yolk in Milk Products. L. M. Lampert.....	159
Chromium, Determination of—and Vanadium after Oxidation with Potassium Bromate. I. M. Kolthoff and E. B. Sandell.....	140
Chromium, Perchloric Acid as Oxidizing Agent in Determination of. J. J. Lichtin.....	126
Coal Ash, Observations of Micro-Pyrometer and Gas-Furnace Methods for Determination of Fusion Point of. M. C. K. Jones, Harold Farmer, J. E. Brewer, and H. C. Porter.....	325
Coal, Effect of Illium Crucibles on Determination of Volatile Matter in. F. A. Adlestone.....	422
Cobalt, Determination of—in Driers, Japans, and Alloys. Oscar Heim.....	38
Cobalt, Separation of— and Nickel by Means of Hypochlorite. F. H. Rhodes and H. J. Hosking.....	164
Colloids, Protective, Use of—in Colorimetric Determination of Certain Metals as Lakes of Dyes. W. E. Thrun.....	8

Color Comparison, Qualitative, Rapid Method for—of Opaque Solids. J. J. Shank and J. S. Martin.....	343	Glass-Silica Joints, Cement for. C. G. Maier.....	337
Colorimeter, Multiple Standard—for pH Determinations. S. L. Leiboff.....	194	Glossmeter, Pfund, Applied to Paints and Lacquers. G. S. Haslam and L. D. Grady, Jr.....	346
Color in Sugar Industry. III—Preparation of Asbestos for Use as Filter Aid. J. F. Brewster and F. P. Phelps.....	373	Glue, Standard Methods (Revised) for Determining Viscosity and Jelly Strength of Glue. National Association of Glue Manufacturers.....	348
Condenser, Improved Laboratory—and Use in Construction of Apparatus. E. S. West.....	199	Gum, Carob-Seed. Use in Detection and Estimation of Boric Acid and Borates. Ralph Hart.....	329
CONDUCTOMETRIC DETERMINATIONS:		Gums and Resins, Photographic Estimation of Foreign Materials in. E. A. Georgi.....	331
Ash and Electrical Conductivity of Sirups and Molasses Derived from Sugar Cane. F. W. Zerban and Louis Sattler.....	32	Gutzzeit Method. See Arsenic.	
Of Ash in Refinery Sirups. F. W. Zerban and Louis Sattler.....	322	HALOGEN, Separation of Alkyl and Aryl. Modification of Stepanow Method with Particular Reference to Analysis of Certain Insecticides. Quick Landis and H. J. Wickmann.....	394
Of Moisture Content of Wood. A. J. Stamm.....	240	Heating Units, Safety Device to Protect. F. H. Fish.....	197
Symposium on Analytical Chemistry. I. M. Kolthoff.....	225	Hot Stage, Microscope, New. I. Amdur and E. V. Hjort.....	259
Copper, Use of Tantalum as Cathode for Electrodeposition of. B. Mears and P. R. Pine.....	298	HUMIDITY, HIGH-SENSITIVITY ABSOLUTE—RECORDER:	
Corrosion, Estimation of Volatile Wood Acids Corrosive to Lead Cable Sheath. R. M. Burns and B. L. Clarke.....	86	C. Z. Rosecrans.....	129
Cresols, Quantitative Separation of Phenol from—and Higher Phenols. J. N. Miller and O. M. Urbain.....	123	Moisture Content of Compressed Nitrogen. A. C. Walker and E. J. Ernst, Jr.....	139
Crucibles, Ilium, Effect of—on Volatile Determination in Coal. J. A. Addestone.....	422	Preparation of Air of Known Humidity and Its Application to Calibration of. A. C. Walker and E. J. Ernst, Jr.....	134
Cupric Oxide as Standard in Iodimetry. T. F. Buehrer and C. M. Mason. (Correspondence).....	138	HYDROCARBONS:	
DENSITY, Device for Rapid Estimation of—of Small Amounts of Solids. E. R. Caley.....	177	Olefin and Aromatic, Determination of. W. F. Faragher, J. C. Morrell, and I. M. Levine. (Correction, 199).....	18
DESICCANT:		Unsaturated, Problems in Estimation of—in Gases. II—Some Limitations in Separations by Sulfuric Acid. H. S. Davis and Dorothy Quiggle.....	39
Barium Oxide as. H. S. Booth and L. H. McIntyre.....	12	Volatile, Improved Method for Determining—in Soap. C. T. N. Marsh.....	166
Laboratory, Alumina in New Form as. J. B. Barnitt, R. B. Derr, and E. W. Scripture, Jr.....	355	Hydrogen, Carbon, and Nitrogen Determinations Using a Metal Tube. S. Avery and D. Hayman.....	336
Magnesium Perchlorate, Anhydrous, as. Sam Lenher and G. B. Taylor.....	58	HYDROGEN-ION MEASUREMENTS:	
Dextrose, Determination of—in Presence of Levulose. D. T. Englis and W. J. Byer.....	121	Colorimetric, Problem of Dilution in. II—Use of Isohydric Indicators and Superpure Water for Accurate Measurement of—and Salt Errors. S. F. Acree and E. H. Fawcett.....	78
Dextrose, Effect of—and Sucrose on Determination of Levulose by Nijns' Method. F. W. Zerban and Louis Sattler.....	307	Colorimetric, Use of Barium Sulfate for Clarifying Soil Suspensions with Particular Reference to. L. D. Bayer and C. J. Rehling.....	338
Dialkylidiphenylureas (Centralite), Determination of—in Double-Base Smokeless Powders. H. Levenson.....	246	Multiple Standard Colorimeter for. S. L. Leiboff.....	194
Diastase, Malt, Determination of Liquefying Power of. S. Józsa and H. C. Gore.....	26	Hydrogen Peroxide, Quantitative Determination of Small Amounts of—and of Ozone. Nelson Allen.....	55
Diastase, Malt. Determination of Relative Diastatic Powers of Malt. F. C. Silbernagel.....	31	Hydrogen Sulfide, Sensitivity of Various Tests for Traces of. E. C. Truesdale.....	299
DISTILLATION:		Hydrometer, Foull Chain, Construction of Platinum-Wire Chain for. W. W. Koch and G. F. Smith.....	41
Construction and Use of Raschig's Laboratory Fractionating Column. H. M. Evans, R. E. Cornish, S. Lepkovsky, R. C. Archibald, and G. Feskov.....	339	Hydrometer, Special, for Aqua Ammonia. D. F. Farrar.....	293
Convenient Reflux Regulator for Laboratory Stills. J. H. Bruun.....	187	Hypochlorite, Separation of Nickel and Cobalt by Means of. R. H. Rhodes and H. J. Hosking.....	164
General Laboratory Still. Gilbert Pitman.....	418	IGNITION Temperature, Apparatus for Determination of—of Powdered Substances. P. W. Edwards and R. W. Harrison.....	344
Improved Laboratory Condenser and Use in Construction of Apparatus. E. S. West.....	199	Ilium Crucibles. See Crucibles.	
True Boiling Crude Analysis. G. A. Beiswenger and W. C. Child.....	284	Indicators, Modified Methyl Red and Sodium Alizarin Sulfonate. A. H. Johnson and J. R. Green.....	2
Drier, Rapid Bulk-Sample. T. H. Hopper.....	198	Indicator Tests, Spot, Filtration Pipet for. E. R. Caley.....	77
Driers, Japans, and Alloys, Determination of Cobalt in. Oscar Heim.....	38	Inks, Printing, Identification of Aluminum and Magnesium in. L. M. Larsen.....	416
Drying Agents. See Desiccants.		INSECTICIDES:	
Dyes, Use of Protective Colloids in Colorimetric Determination of Certain Metals as Lakes of. W. E. Thrun.....	8	Determination of Sulfur in Fungicides and—by Carbon Disulfide Extraction. Richard Edge.....	371
EGG Yolk, Cholesterol as Measure of—in Milk Products. L. M. Lampert.....	159	Measuring Toxicity of. A. L. Strand.....	4
Electrode Potentials in Analytical Chemistry. Symposium on Analytical Chemistry. Stephen Popoff.....	230	Modification of Stepanow Method with Particular Reference to Analysis of. Separation of Alkyl and Aryl Halogen. Quick Landis and H. J. Wickmann.....	394
Electrode, Quinhydrone, Determination of Acidity of Oils and Fats by—in Non-Aqueous Solutions. Harry Seltz and Louis Silverman.....	1	New (Rotenone).....	128
Emulsions, Oil-Water-Soap, Direct Determination of Oil in. L. N. Markwood.....	265	Iodimetry, Cupric Oxide as Standard in. T. F. Buehrer and C. M. Mason.....	138
Enamels. See Paints.		Iodine, Method for Estimating Aldose Sugars by Titration with—and Alkali. C. S. Slater and S. F. Acree.....	274
Ether, Determination of Small Amounts of Acid in. L. P. Hall.....	244	Modified Method. G. M. Kline and S. F. Acree.....	413
Ether, Isopropyl, Determination of Fatty Acids in Mixtures by Partition between—and Water. Determination of Organic Acids in Mixtures—I. C. H. Werkman.....	302	Iron, Colorimetric Determination of Silica in Presence of Phosphates and. L. A. Thayer.....	276
FABRICS, Estimation of Degree of Penetration of Rubber into. E. O. Dieterich.....	102	Iron, Galvanized, X-Ray Examination of Commercial—by Modified Reflection Method. C. W. Stillwell and G. L. Clark.....	266
FAT:		JAPANS. See Varnishes.	
Micropenetrometer. Application to Testing of. E. Freyer.....	423	LACQUERS:	
Total, Rapid Determination of. C. P. Harris.....	410	Pfund Glossmeter Applied to Paints and. G. S. Haslam and L. W. Grady, Jr.....	346
See also Oil.		Studies. I—Development of Abrasion Test for Use with Nitrocellulose—. William Koch.....	407
Fertilizers, Nitrogenous, Italian Production of.....	44	Thinners, New Application of Abbé Refractometer in Analysis of. J. D. Jenkins.....	127
Flax as Paper-Making Material.....	419	Lamp, Blast, for Natural Gas. H. H. Strain.....	128
Fluorine, Spectroscopic Detection of. Jacob Papiush, L. E. Hoag, and W. E. Sneec.....	263	LEAD:	
Foods, Apparatus for Destructive Oxidation of Organic Material in Determination of Metals in. J. W. Barnes.....	107	Alloys. See Alloys.	
Foods, Application of Burgess-Parr Sulfur Photometer to Rapid Determination of Sulfur in—and Biological Material. E. W. Toepfer and P. W. Boutwell.....	118	Cable Sheath. See Cable Sheath, Lead.	
Fractionating Column, Raschig's Laboratory, Construction and Use. H. M. Evans, R. E. Cornish, S. Lepkovsky, R. C. Archibald, and G. Feskov.....	339	Rapid Volumetric Method for Determination of. R. C. Wiley.....	124
Fumigants, Insect, Measuring Toxicity of. A. L. Strand.....	4	Salts, Titration of. R. C. Wiley, P. M. Ambrose, and A. D. Bowers.....	415
Fungicides. See Insecticides.		Titration of—by Means of Thermionic Titrometer. R. W. Gelbach and K. G. Compton.....	397
Furnace, High-Frequency Induction, Determination of Carbon in High-Melting Alloys Using. G. F. Smith and G. L. Hockenyos.....	36	Levulose, Determination of Dextrose in Presence of. D. T. Englis and W. J. Byer.....	121
Fusel Oil and Methanol, Denmark Changes Duties on.....	345	Levulose, Effect of Dextrose and Sucrose on Determination of—by Nijns' Method. F. W. Zerban and Louis Sattler.....	307
Fusion, Sodium Peroxide as—Medium with Some New Factors Relating to Its Use. S. W. Parr.....	10	Light Transmission, Monochromatic, Quantitative Analysis by. Monroe Barnard and Paul McMichael.....	363
GAS:		Light, Ultra-Violet, Fluorescence of Olive Oil under. A. L. Glantz.....	256
Evolution Methods of Analysis. Baro-Buret—II. H. S. Booth and N. C. Jones.....	237	Limestones, Dolomitic, Determination of Calcium and Magnesium in—by Means of Saccharate Solutions. Alkalimetric Method. A. C. Shead and B. J. Heinrich.....	388
Natural, Blast Lamp for. H. H. Strain.....	128	Lime, Uncombined, Revised Procedure for Determination of—in Portland Cement. William Lerch and R. H. Bogue.....	296
Natural, California to Utilize Surplus.....	200	Liquid Flow, Constant, Improved Apparatus for Obtaining. W. S. Gilfoil.....	232
Problems in Estimation of Unsaturated Hydrocarbons in. II—Some Limitations in Separations by Sulfuric Acid. H. S. Davis and Dorothy Quiggle.....	39	Liquids, Opaque, Rapid Determination of Relative Viscosities of. M. M. Loeserman.....	25
Gasoline, Determination of Sulfur in. Graham Edgar and George Calingaert.....	104	Lithium, Determination of. M. H. Brown and J. H. Reedy.....	304
Gelatin, Determination of Labile Sulfur in—and Protein. S. E. Sheppard and J. H. Hudson.....	73		

MAGNESIUM:

Aluminum—Alloys. *See* Alloys.
 Determination of Aluminum and—in Zinc-Base Die-Casting Alloys. C. M. Craighead. 188
 Determination of Calcium and—in Dolomitic Limestones by Means of Saccharate Solutions. Alkalimetric Method. A. C. Shead and B. J. Heinrich. 388
 Identification of Aluminum and—in Printing Inks. L. M. Larsen. 416
 Titrimetric Determination of. J. S. Pierce and M. B. Geiger. 193
 Magnesium Perchlorate, Anhydrous, as Drying Agent. Sam Lenher and G. B. Taylor. 58
 Malt, Determination of Relative Diastatic Powers of. F. C. Silber-nagel. 31
 Malt Diastase, Determination of Liquefying Power of. S. Józsa and H. C. Gore. 26
 Medals, U. S., for Service in Science. 206

MELTING POINT:

Apparatus, Modified Thiele. Ernest Conte. 200
 Phosphoric Acid for Determination of. F. D. Snell. 287
 Substitute for Amalgamation in Testing Bituminous Materials for—, Ductility, and Float Test. Hans Eisner. 176
 Tubes, Device for Fastening—to Thermometers. H. L. Lochte. 200
 Mercury Cathode, Electrolytic Cell for Use with. A. D. Melaven. 180

METALS:

Application of Microscopic Analysis to Mixtures of—and Alloys. W. F. Whitmore and Frank Schneider. 173
 In Foods, Apparatus for Destructive Oxidation of Organic Material in Determination of. J. W. Barnes. 107
 Use of Protective Colloids in Colorimetric Determination of Certain—as Lakes of Dyes. W. E. Thrun. 8
 Methanol and Fusel Oil, Denmark Changes Duties on. 345
 Methyl Red Indicators. *See* Indicators.
 Microscope Hot Stage, New. I. Amdur and E. V. Hjort. 259
 Microscope, Polarizing, in Organic Chemistry. H. C. Benedict. 91

MICROSCOPICAL ANALYSIS:

Application of—to Mixtures of Metals and Alloys. W. F. Whitmore and Frank Schneider. 173
 Chemical Micrurgy, Method for Studying Characteristics of Microscopic Quantities of Material. R. N. Titus and H. LeB. Gray. 368
 Determination of Particle Size of Pigments and Powders. E. J. Dunn, Jr. 59
 Improved Technic for Qualitative—of Silver Group. A. Benedetti-Pichler. 309
 Microscopical Examination of Precipitates as Aid to Precise Analysis. I—Estimation of Sulfates as Barium Sulfate. Stephen Popoff and E. W. Neuman. 45
 Microscopical Methods in Analytical Chemistry. Symposium on Analytical Chemistry. C. W. Mason. 203
 Milk, Boiling—in Aluminum Does Not Destroy Vitamin C. 224
 Milk Products, Cholesterol as Measure of Egg Yolk in. L. M. Lampert. 159
 Mixtures, Constant-Boiling, Physical Methods of Separating. A. A. Sunier and Charles Rosenblum. 109

MOISTURE:

Content of Carbon Blacks. W. B. Plummer. 57
 Content of Compressed Nitrogen. A. C. Walker and E. J. Ernst, Jr. 139
 Content of Wood, Electrical Conductivity Method for Determining. A. J. Stamm. 240
 Proof Determination of Waxed Papers. C. A. Thomas and H. J. Reboulet. 390
See also Humidity.
 Mothproofing Compounds, Methods of Testing. William Moore. 365
 Motion Picture Studios, Wallboard to Soundproof. 75

NAPHTHAS, Determination of Vapor Pressures of. J. C. Stauffer, J. K. Roberts, and W. G. Whitman. 88

Nickel, Separation of—and Cobalt by Means of Hypochlorite. F. H. Rhodes and H. J. Hosking. 164

Nitrocellulose Lacquers. *See* Lacquers.

NITROGEN:

Carbon, and Hydrogen Determinations Using a Metal Tube. S. Avery and D. Hayman. 336
 Carbon Dioxide Generator for Combustion Analysis in Estimation of. E. J. Poth. 250
 Compressed, Moisture Content of. A. C. Walker and E. J. Ernst, Jr. 139
 Determination of—and Acetyl Content of Cellulose Nitroacetate. W. M. Billing and J. S. Tinsley. 380
 Estimation of Total—of Plant Extracts in Presence of Nitrates. G. W. Pucher, C. S. Leavenworth, and H. B. Vickery. 191
 Fertilizers, Italian Production of. 44
 Nitrogen Oxides (except Nitrous Oxide), Determination of—in Low Concentration. J. Piccard, E. G. Peterson, and C. D. Bitting. 294
 Nitrogen Peroxide, Rapid Determination of—in—Air Mixtures. C. W. Whittaker, F. O. Lundstrom, and A. R. Merz. 15

OIL:

Bleaching Test, Official Method of American Oil Chemists' Society. Chieh Ma and J. B. Withrow. 374
 Crude. *See* Petroleum.
 Determination of Acidity of—and Fats by Quinhydrone Electrode in Non-Aqueous Solutions. Harry Seltz and Louis Silverman. 1
 Direct Determination of—in—Water-Soap Emulsions. L. N. Markwood. 265
 Fatty, Sulfur Monochloride Reaction of. E. H. Harvey and H. A. Schuette. 42
 Fusel, Denmark Changes Duties on—and Methanol. 345
 Olive, Fluorescence of—under Ultra-Violet Light. A. L. Glantz. 256
 Photochemical Method for Measuring Susceptibility of Fats and—to Oxidation. G. R. Greenbank and G. E. Holm. 9
 Pine, Quantitative Hydrogenation of Principal Unsaturated Components of Turpentine, —, and Rosin. W. E. Shaefer. 115
 Organic Chemistry, Polarizing Microscope in. H. C. Benedict. 91
 Oven, Dutch, and Hot Plate, Aluminum. H. V. Churchill and R. W. Bridges. 335
 Oxidizing Agent, Perchloric Acid as—in Determination of Chromium. J. J. Lichten. 126
 Oxygen, Industrial Analysis and Recording of Carbon Dioxide and—in Air. W. F. Hamilton. 233
 Ozone, Quantitative Determination of Small Amounts of Hydrogen Peroxide and. Nelson Allen. 55

PAINT:

Evaluation of Contrast-Obliterating and Brightening Power of White Pigments. G. S. Haslam. 69
 Measurement of Leveling Properties of—and Enamels. G. S. Haslam and L. D. Grady, Jr. 66
 Modification of Spinning-Film Hiding-Power Method. G. S. Haslam. 319
 Pfund Glossmeter Applied to—and Lacquers. G. S. Haslam and L. D. Grady, Jr. 346
 Pigments, Microscopic Measurements for Determination of Particle Size of—and Powders. E. J. Dunn, Jr. 59
 Wet, Experimental Determination of Brightness—Film Thickness Curves of. D. L. Gamble and A. H. Pfund. 63

PAPER:

Flax as—Making Material. 419
 Null-Point Method of Potentiometric Titration for Determining Acid or Alkali in. B. L. Clarke and L. A. Wooten. 385
 Plotting, Vapor-Pressure. D. S. Davis. 306
 Waxed, Moisture-Proof Determination of. C. A. Thomas and H. J. Reboulet. 390
 Particle Size of Pigments and Powders, Microscopic Measurements for Determination of. E. J. Dunn, Jr. 59
 Penetrometer, Micro-. Application of—to Testing of Fats. E. Freyer Perchlorate, Determination of. H. H. Willard and J. J. Thompson. 272
 Perchloric Acid as Oxidizing Agent in Determination of Chromium. J. J. Lichten. 126
 Percolation, Apparatus for—at Uniform Rate and Automatic Collecting Device. P. L. Hibbard. 404
 Permanganate Solution, Standard, Standardization of Thiosulfate against. T. F. Buehrer and C. M. Mason. (Correspondence). 138
 Petroleum. Crude Oil, True Boiling—Analysis. G. A. Beiswenger and W. C. Child. 284
 Petroleum Distillates, Modification of Lamp Method for Determining Total Sulfur in. A. E. Wood and William Mattox. 24
 Phenol, Quantitative Separation of—from Cresols and Higher Phenols. J. N. Miller and O. M. Urbain. 123
 Phosphate, New—Resources in Russia. 313
 Phosphates, Colorimetric Determination of Silica in Presence of—and Iron. L. A. Thayer. 276
 Phosphoric Acid for Determination of Melting Points. F. D. Snell. 287
 Photo-Electric Cell, Applications of—to Chemical Analysis and Control. Symposium on Analytical Chemistry. H. M. Partridge. 207
 Photographic Estimation of Foreign Materials in Gums and Resins. E. A. Georgi. 331
 Photometer, Burgess-Parr Sulfur, Application of—to Rapid Determination of Sulfur in Foods and Biological Material. E. W. Toepfer and P. W. Boutwell. 118
 Pipet, Filtration, for Spot Indicator Tests. E. R. Caley. 77
 Pipets, Rinsing. G. M. Kline. 427

PLANT:

Extracts, Determination of Total Nitrogen of—in Presence of Nitrates. G. W. Pucher, C. S. Leavenworth, and H. B. Vickery. 191
 Materials, Determination of Boron in Natural Waters and. L. V. Wilcox. 358
 Materials, System of Proximate Chemical Analysis of. S. A. Waksman and K. R. Stevens. 167
 Tissues, Effect of Degree of Pulverization and Weight of Samples on Quantitative Analyses, with Particular Reference to. R. C. Malhotra. 398
 Plastomer, Goodrich, Simplified. E. Karrer, J. M. Davies, and E. O. Dieterich. 96
 Plate, Hot, and Dutch Oven, Aluminum. H. V. Churchill and R. W. Bridges. 335
 Platinum Wire. *See* Chain.
 Polariscopic Measurements, Source of Error in. H. K. Miller and J. C. Andrews. 283
 Potassium Bromate, Determination of Chromium and Vanadium after Oxidation with. I. M. Kolthoff and E. B. Sandell. 140
 Potentiometric Titration for Determining Acid or Alkali in Paper, Null-Point Method of. B. L. Clarke and L. A. Wooten. 385
 Potentiometric Titrations. Symposium on Analytical Chemistry. N. H. Furman. 213

POWDERS:

Apparatus for Determination of Ignition Temperature of. P. W. Edwards and R. W. Harrison. 344
 Microscopic Measurements for Determination of Particle Size of Pigments and. E. J. Dunn, Jr. 59
 Smokeless, Double-Base, Determination of Centralite in. H. Levenson. 246
 Precipitates, Microscopic Examination of—as Aid to Precise Analysis. I—Estimation of Sulfates as Barium Sulfate. Stephen Popoff and E. W. Neuman. 45
 Proteins, Determination of Labile Sulfur in Gelatin and. S. E. Sheppard and J. H. Hudson. 73
 Pycnometer, Determination of Alcohol by. A. F. Fuerst. 30
 Pyrolyse Test, Quantitative Application of. Early Stages of Oxidation in Rubber. J. W. Temple, S. M. Cadwell, and M. W. Mead, Jr. 377

QUINHYDRONE Electrode. *See* Electrode.

RARE Earths, Observations on—XXXIV. Spectrographic Estimation of Impurities in. P. W. Selwood. 93
 Rayon Plants, Russia Plans. 357
 Reflux Regulator for Laboratory Stills. J. H. Bruun. 187
 Refractometer, Abbé, New Application of—in Analysis of Lacquer Thinners. J. D. Jenkins. 127
 Relay, Electromagnetic, for Use in Regulatory Circuits. L. G. Wesson. 179
 Resins and Gums, Photographic Estimation of Foreign Materials in. E. A. Georgi. 331
 Resins, Dark-Colored, Acid Numbers of. H. H. Coburn. 181
 Rosin, Quantitative Hydrogenation of Principal Unsaturated Components of Turpentine, Pine Oil, and. W. E. Shaefer. 115
 Rotenone, New Insecticide. 128

RUBBER:

Autographic Stress-Strain Curves of—at Low Elongations. A. A. Somerville, J. M. Ball, and L. A. Edland. 289
 Automotive Parts, Testing of—Assembled under Compression. F. D. Abbott. 145
 I—Deflection under Compression. 145
 II—Compression-Set and Some Special Tests. 153

Cements, Thick, Application of Falling Cylinder to Measurement of Viscosity of. W. F. Busse and W. B. Doggett.....	314	In Gasoline, Determination of. Graham Edgar and George Calingaert.....	104
Consumption in United States in 1929.....	103	Labile, Determination of—in Gelatin and Proteins. S. E. Sheppard and J. H. Hudson.....	73
Early Stages of Oxidation in. Quantitative Application of Pyrrole Test. J. W. Temple, S. M. Cadwell, and M. W. Mead, Jr.....	377	Subsequent Additions of Acid in Carius Combustions. D. D. Hartley.....	328
Estimation of Degree of Penetration of—into Fabrics. E. O. Dieterich.....	102	Total, Modification of Lamp Method for Determination of—in Petroleum Distillates. A. E. Wood and William Mattox.....	24
Flexing Test for Tire Carcass Stocks. W. A. Gibbons.....	99	Sulfuric Acid, Limitations in Separations by. Problems in Estimation of Unsaturated Hydrocarbons in—II. H. S. Davis and Dorothy Quiggle.....	39
Laboratory Evaluation of Flex-Cracking Resistance. L. V. Cooper.....	391	Sulfur Monochloride Reaction of Fatty Oils. E. H. Harvey and H. A. Schuette.....	42
Method of Making Microsections of. R. P. Allen.....	311	Switches, Magnetic, in Regulatory Circuits. C. G. Maier.....	258
Method of Preparing Microsections of. T. F. Steele.....	420	TANNIN , Chestnut Trees Retain—Long after Death.....	62
Plastometer, Goodrich, Simplified. E. Karrer, J. M. Davies, and E. O. Dieterich.....	96	Tantalum, Use of—as Cathode for Electrodeposition of Copper. B. Mears and P. R. Pine.....	298
Sunchecking of.....	85	Tartrates, Volumetric Determination of. P. H. Richert.....	273
SACCHARATE Solutions, Determination of Calcium and Magnesium in Dolomitic Limestones by Means of. Alkalimetric Method. A. C. Shead and B. J. Heinrich.....	388	Temperature, Providing for Changes of—in Volumetric Analysis. M. G. Mellon.....	260
Salt Brines, Determination of Chlorides in. S. L. Neave.....	28	Thermometers, Device for Fastening Melting-Point Tubes to. H. L. Lochte.....	200
Shaker, Laboratory. H. E. Bent.....	106	Thermoregulators, Improvements in. H. J. Wing.....	196
Shellac, Determination of Insolubles in. A. G. Stillwell.....	420	Thermoregulators, Relay for Use in Regulatory Circuits. L. G. Wesson.....	179
Shellac, Determination of Wax in. A. G. Stillwell.....	387	Thiosulfate, Standardization of—against Standard Permanganate Solution. T. F. Buehrer and C. M. Mason. (Correspondence).....	138
Silica, Colorimetric Determination of—in Presence of Phosphates and Iron. L. A. Thayer.....	276	Tin, Reductor Apparatus for Detecting. J. H. Reedy.....	117
Silica-Glass Joints, Cement for. C. G. Maier.....	337	Titration Table, Convenient Arrangement for. J. W. Stillman and T. L. Bartleson.....	108
Silver Group, Improved Technic for Qualitative Microanalysis of. A. Benedetti-Pichler.....	309	Titrometer, Thermionic, Titration of Lead by Means of. R. W. Gelbach and K. G. Compton.....	397
Soap, Direct Determination of Oil in Oil-Water—Emulsions. L. N. Markwood.....	265	Turbidity, Measurement of. C. D. Ingersoll and R. E. Davis.....	248
Soap, Improved Method for Determining Volatile Hydrocarbons in. C. T. N. Marsh.....	166	Turpentine, Pine Oil, and Rosin, Quantitative Hydrogenation of Principal Unsaturated Components of. W. E. Shafer.....	115
Sodium Alizarin Sulfonate Indicators. <i>See</i> Indicators.....		VANADIUM , Determination of—and Chromium after Oxidation with Potassium Bromate. I. M. Kolthoff and E. B. Sandell.....	140
Sodium Peroxide as Fusion Medium with Some New Factors Relating to Its Use. S. W. Parr.....	10	Vapor Pressure of Naphthas, Determination of. J. C. Stauffer, J. K. Roberts, and W. G. Whitman.....	88
Soil, Apparatus for Percolation at Uniform Rate and Automatic Collecting Device. P. L. Hibbard.....	404	Vapor-Pressure Plotting Paper. D. S. Davis.....	306
Soil Suspensions, Use of Barium Sulfate for Clarifying—with Particular Reference to Colorimetric pH Determinations. L. D. Bayer and C. J. Rehling.....	338	Varnishes, Japans, Driers, and Alloys, Determination of Cobalt in. Oscar Heim.....	38
Solids, Device for Rapid Estimation of Density of Small Amounts of. E. R. Caley.....	177	Viscometer, Saybolt Universal, Convenient Accessories for Use with. Carl Winning.....	417
Solids, Opaque, Rapid Method of Qualitative Color Comparison for. J. J. Shank and J. S. Martin.....	343	Viscometer, Vacuum-Tube Falling-Ball, Improved Form of. L. P. Moore and A. C. Cuthbertson.....	419
Solutions, Non-Aqueous, Determination of Acidity of Oils and Fats by Quinhydrone Electrode in. Harry Seltz and Louis Silverman.....	1	VISCOSITY : Application of Falling Cylinder to Measurement of—of Thick Rubber Cements. W. F. Busse and W. B. Doggett.....	314
Solutions, Standard, Corrections for—of Inconvenient Strengths. Selma Gottlieb.....	186	Jelly Strength and—of Glue, Standard Methods (Revised) for Determining. National Association of Glue Manufacturers.....	348
Spectroscope, Detection of Fluorine by. Jacob Papish, L. E. Hoag, and W. E. Snee.....	263	Relative, Rapid Determination of—of Opaque Liquids. M. M. Loeserman.....	25
Spot Indicator Tests, Filtration Pipet for. E. R. Caley.....	77	Vitamin C, Boiling Milk in Aluminum Does Not Destroy.....	224
Steel Analysis, Separate Titration of Chromate and Vanadate in Same Solution and Application of Method to. I. M. Kolthoff and E. B. Sandell.....	140	WALLBOARD to Soundproof Motion Picture Studios.....	75
Stibnite, Evaluation of. II—Determination of Antimony. W. M. McNabb and E. C. Wagner.....	251	Water, Natural, Determination of Boron in—and Plant Materials. Modification of Chapin Method. L. V. Wilcox.....	358
Still. <i>See</i> Distillation.....		<i>See also</i> Moisture.....	
Sucrose, Effect of Dextrose and—by Determination of Levulose by Nijns' Method. F. W. Zerban and Louis Sattler.....	307	Wax, Determination of—in Shellac. A. G. Stillwell.....	387
SUGARS : Aldose, Method for Estimating—by Titration with Iodine and Alkali. C. S. Slater and S. F. Acree.....	274	Weighing Tube, Duplex. W. E. Eskew and F. C. Vilbrandt.....	181
Modified Method. G. M. Kline and S. F. Acree.....	413	WOOD : Acids, Volatile, Estimation of—Corrosive to Lead Cable Sheath. R. M. Burns and B. L. Clarke.....	86
Cane, Ash and Electrical Conductivity of Sirups and Molasses Derived from. F. W. Zerban and Louis Sattler.....	32	Electrical Conductivity Method for Determination of Moisture Content of. A. J. Stamm.....	240
Color in—Industry. III—Preparation of Asbestos for Use as Filter Aid. J. F. Brewster and F. P. Phelps.....	373	Preservatives, Suggested Titrimetric Method for. Henry Schmitz and Others.....	361
Unified Conductometric Method for Determination of Ash in Refinery Sirups. F. W. Zerban and Louis Sattler.....	322	X-RAYS . Examination of Commercial Galvanized Iron by Modified Reflection Method. C. W. Stillwell and G. L. Clark.....	266
<i>See also</i> kind of sugar.....		ZINC , Confirmatory Test for. J. S. Pierce and E. D. Nave.....	190
Sulfates, Estimation of—as Barium Sulfate. Microscopic Examination of Precipitates as Aid to Precise Analysis—I. Stephen Popoff and E. W. Neuman.....	45	Zinc, Determination of Aluminum and Magnesium in—Base Die-Casting Alloys. C. M. Craighead.....	188
SULFUR : Determination of—in Insecticides and Fungicides by Carbon Disulfide Extraction. Richard Edge.....	371		
In Foods and Biological Material, Application of Burgess-Parr—Photometer to Rapid Determination of. E. W. Toepfer and P. W. Boutwell.....	118
