

SUBJECT INDEX

INDUSTRIAL AND ENGINEERING CHEMISTRY

ANALYTICAL EDITION

VOLUME 11—1939

ABRASIVES in Dentifrices Tested. M. L. Smith.....	155	Lead Microdetermination by Dithizone in. Karl Bambah.....	400
ABSORPTION		Magnesium Determination in, by Oxidation. J. P. Nielsen.....	649
Spectrophotometry. Internal Control Method. J. S. Owens.....	643	Metallic Traces Determined in. T. M. Hess, J. S. Owens, and L. G. Reinhardt.....	646
Train, Vibrator for. J. F. Vincent and M. M. Spruiell.....	247	Phenol and Related Compounds Estimated in Tissues. Wilhelm Deichmann and E. W. Scott.....	423
Tube, Mercury-Sealed, for Microdetermination of Carbon and Hydrogen. R. J. Robinson and D. J. Doan.....	406	Riboflavin Assay in, by Micromethod. E. E. Snell and F. M. Strong.....	346
Acidimetry, Thallous Carbonate as Standard in. Einar Jensen and Bailli Nilssen.....	508	Selenium Determination in Tissues and Feces. R. A. Gortner, Jr., and H. B. Lewis.....	198
Agitator, Flask for Efficient Stirring. A. A. Morton.....	170	(See also kind of biological material)	
Agitator, Solenoid Stirring Device for Use in Confined Spaces. H. H. Rowley and R. B. Anderson.....	397	Bird Excrements, Uric Acid Determination in. R. L. Shirley and A. H. VanLandingham.....	381
Air, Methyl Bromide Determination in. V. A. Stenger, S. A. Shrader, and A. W. Beshgetoor.....	121	Bismuth Determination by Quinaldine Salt of Iodobismuthous Acid. J. R. Hayes and G. C. Chandlee.....	531
ALCOHOLS		Bismuth Microdetermination in Biological Material. D. M. Hubbard.....	343
Amyl, Determined in Distilled Spirits. S. T. Schicktz and A. D. Etienne.....	390	Bitumen Adhesiveness to Silica Sand. Comparison of Mixing Method and Wash Test. H. F. Winterkorn and G. W. Eckert.....	546
Ebulliometer Table for Alcoholic Liquids Containing Solid Matter. R. F. Love.....	548	Blood, Amines Determined in, with Sodium 1,2-Naphthoquinone-4-Sulfonate. E. G. Schmidt.....	99
Furfuryl, in Solution with Furfural, Determination of Furfural in. A. P. Dunlop and Floyd Trimble.....	602	Blood pH at 38° C. Determined with Glass Electrode. M. K. Horwitz.....	30
Fusel Oil Analysis by Azeotropic Distillation. S. T. Schicktz and A. D. Etienne, and W. I. Steele.....	420	Bomb for High-Pressure Hydrogenation, Glass Liner for. E. B. Hershberg and Nathan Weiner.....	93
Aldehydes Identified by Estimation of Hydrazine Nitrogen According to Jamieson Method. G. B. L. Smith and T. G. Wheat.....	200	Boron Determination in Soils and Plants. K. C. Berger and E. Truog.....	540
Alfalfa, Carotene Determination in. D. M. Hegsted, J. W. Porter, and W. H. Peterson.....	256	Boron Microdetermination by Colorimetric Method. J. A. Naftel.....	407
Alfalfa Meals, β -Carotene Determined in. R. O. Brooke, S. W. Tyler, and W. S. Baker.....	104	Brewing. See Beverages	
Alkalimeter. W. H. Hall.....	462	Bromide Determination in Fruits and Vegetables Following Fumigation with Methyl Bromide. H. C. Dudley.....	259
Alkaline Earth Group Separated Qualitatively on Micro Scale. A. A. Benedetti-Pichler, W. R. Crowell, and Clarence Donahoe.....	117	Bronze Analysis, Tin-Phosphorus Precipitate in. Owen Gates and Louis Silverman.....	370
Alkoxy Groups, Microdetermination of. Adalbert Elek.....	174	Brown University's Metcalf Research Laboratory. H. C. Eckstrom.....	56
Alloy of Sodium-Lead as Drying Agent. Harold Soroos.....	657	Bubblers of Sintered Pyrex Glass. H. W. Stone and L. C. Weiss.....	220
Alloys, Antimony Determined in, by Volumetric Semimicromethod. C. W. Anderson.....	224	Bumping Prevention, Device for. S. Palkin and T. C. Chadwick.....	509
Alumina Determination in Silicates by Direct Method. E. W. Koenig.....	532	BURETS	
ALUMINUM		for Gas Microanalysis. D. C. Grahame.....	351
Determination and Separation from Beryllium, Using Tannin. M. L. Nichols and J. M. Schempf.....	278	Meniscus Reader for. E. J. Bogan.....	396
Determination Volumetrically Using Sodium Citrate. A. C. Titus and M. C. Cannon.....	137	Sliding Scale for. A. A. Hirsch.....	431
Pots of, Substituted for Oil Baths. A. A. Morton.....	592	Stopcock Sticking Prevented in. E. E. Maczkowske.....	20
Aluminum Hydrate Films Identified. Importance in Silicosis Prevention. L. H. Germer and K. H. Storks.....	583	CABLE INSULATION. See Insulation.	
Amines, Reaction between Sodium 1,2-Naphthoquinone-4-Sulfonate and. E. G. Schmidt.....	99	Cable Sheathing of Lead, Drying of. D. L. Woernley.....	120
<i>p</i> -Aminodimethylaniline, Chlorine Determined Colorimetrically with. D. H. Byers and M. G. Mellon.....	202	Cadmium Determination in Silicate Rocks. E. B. Sandell.....	364
Amyl Alcohol. See Alcohols.		Cadmium Determination with Tetraphenylarsonium Chloride. H. H. Willard and G. M. Smith.....	269
Analytical Balance. See Balances.		Calcium, Calcium Oxalate Monohydrate as Weighing Form for. E. B. Sandell and I. M. Kolthoff.....	90
Antraquinone-1,8-Disulfonic Acid, Microestimation of, in Presence of Anthraquinone Sulfonic and Sulfuric Acids. William Seaman.....	465	Calcium Separation from Strontium. R. N. Shreve, C. H. Watkins, and J. C. Browning.....	215
Antifreeze Identification in Used Crankcase Oils. Harry Levin, Karl Uhrig, and Ervin Stehr.....	134	Calcium Oxalate Monohydrate as Weighing Form for Calcium. E. B. Sandell and I. M. Kolthoff.....	90
Antimony Determination in White Metals by Volumetric Semimicromethod. C. W. Anderson.....	224	Candy, Glazed, Lac Microestimation on. N. M. Molnar and Joseph Grumer.....	673
Antimony Electrode. See Electrodes.		Capillary for Distillation Apparatus. A. O. Gettler and J. Fine. (Addendum, Gettler, 559).....	469
Apples, Ethylene Determination within Tissues of. B. E. Christensen, Elmer Hansen, and V. H. Cheldelin.....	114	Capillary Flowmeter with Variable Orifices. J. H. Bruun.....	655
Arsenic Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson.....	86	CARBON	
Ascorbic Acid. See Vitamin C.		Determined in Organic Compounds with Combustion Vessel. A. K. Parpart and A. J. Dziemian.....	107
Asphalt, Sulfur Determination in. S. Pellerano.....	446	Electrodes. See Electrodes.	
Assay, Ejector-Type Evacuator for Wet Method of. E. J. Poth.....	521	Microdetermination	
Assay, Electrolytic. G. L. Jones.....	461	Accuracy and Precision of. Statistical Study. F. W. Power.....	660
BALANCES		Handling of Hygroscopic Substances. C. J. Rodden.....	405
Analytical and Micro-. A. W. Ainsworth.....	572	Mercury-Sealed Absorption Tube for. R. J. Robinson and D. J. Doan.....	406
Analytical, in Quantitative Microanalysis. A. A. Benedetti-Pichler. (Correction, 350).....	226	Pressure Effect on Lessening Combustion and Sweeping Times. S. S. Brodie.....	517
Testing of. Archibald Craig.....	581	Organic, Determined in Soils. E. R. Purvis and G. E. Higson, Jr.....	19
Barium Determined Colorimetrically. H. A. Frediani and B. J. Babler.....	487	CARBON DIOXIDE	
Barium Sulfate, Sulfate Determined as. H. A. Fales and W. S. Thompson.....	206	Determination by Photometric Method. R. J. Winzler and J. P. Baumberger.....	371
Baths, Aluminum Pots Substituted for Oil. A. A. Morton.....	592	Determination by Rapid Turbidimetric Method. P. S. Roller and Guy Ervin, Jr.....	150
Bedding, Urea Microdetermination in. P. A. Racicot and H. C. Lythgoe.....	512	Generator for, of High Purity in Microestimation of Nitrogen. E. J. Poth.....	518
Beilstein Test. See Halogen.		Carbonate Test for Lithium, Sensitivity of. E. R. Caley and A. L. Baker, Jr.....	101
Beryllium Determination and Separation from Aluminum, Using Tannin. M. L. Nichols and J. M. Schempf.....	278	Carbonate Titration by Warder's Method. A. A. Benedetti-Pichler, Michael Cefola, and Bernard Waldman.....	327
BEVERAGES, ALCOHOLIC		Carbonyl Compounds Determined by 2,4-Dinitrophenylhydrazine. H. A. Iddles, A. W. Low, B. D. Rosen, and R. T. Hart.....	102
Distilled Spirits, Amyl Alcohol Determined in. S. T. Schicktz and A. D. Etienne.....	390	Cardiazole. See Metrazole.	
Ebulliometer Table for Alcoholic Liquids Containing Solid Matter. R. F. Love.....	548	β -Carotene Determination in Alfalfa Meals. R. O. Brooke, S. W. Tyler, and W. S. Baker.....	104
Malts, Viscometer for Routine Determination of Proteolytic Activity in. J. R. Koch, Orlando Nelson, and Lawrence Ehrnst.....	35	Carotene Determination in Silage. D. M. Hegsted, J. W. Porter, and W. H. Peterson.....	256
Mashing Apparatus for Brewery Laboratory. W. M. Clark.....	41	Carotenoids in Yellow Corn. L. O. Buxton.....	128
Wine, Fluorine Determination in. H. G. Rempel.....	378	Case School of Applied Science, New Chemical Engineering Building at. E. A. Arnold and D. O. Hubbard.....	675
BIOLOGICAL MATERIALS		Cellulose from Woody Tissue, Ethanolamine Action on. L. E. Wise, F. C. Peterson, and W. M. Harlow.....	18
Bismuth Microdetermination in. D. M. Hubbard.....	343	Centrifuge Tube Filter. Theodore Perrine and William Kump.....	658
Foam Prevention in Analysis of. P. A. Racicot and C. S. Ferguson.....	380	Cereal, Ash Determination in. C. H. Briggs.....	163

Cevitamic Acid. *See* Vitamin C.

Chamot, E. M., Services of, to Chemical Microscopy. C. W. Mason 341

Chart. Barometric Correction Nomograph for Hydrogen Electrode. G. F. Kinney. 530

Chlorine Determined Colorimetrically with *p*-Aminodimethylaniline. D. H. Byers and M. G. Mellon. 202

Chromic Acid, Soils Tested for Organic Carbon with. E. R. Purvis and G. E. Higson, Jr. 19

Chromium Determination with Diphenyl Carbazide, Using Photoelectric Colorimetry. G. P. Rowland, Jr. 442

Chromium Determination in Steel by Modified Persulfate-Arsenite Method. R. P. Forsyth and W. F. Barfoot. 625

Citrus Fruit Insecticides. Semiquantitative Microanalysis of Tartar Emetic on Leaf and Fruit. Donald Starr. 519

Citrus Juices, Refractometric Determination of Soluble Solids in. J. W. Stevens and W. E. Baier. 447

COAL

Bituminous. Measurement of Plastic Properties. R. E. Brewer and J. E. Triff. 242

Hydrogenation, Catalysts Tested for. T. E. Warren, K. W. Bowles, and R. E. Gilmore. 415

Hydrogenation, Solubility Characteristics of Tars and Pitches from. M. L. Fein, Abner Eisner, H. M. Cooper, and C. H. Fisher. 432

Rank, Permanganate Oxidation Index as Criterion of. H. L. Olin, P. L. Conrad, Marion Krouse, and R. E. Whitson. 489

Coal Tar. *See* Tar.

Cobalt Determination in Silicate Rocks. E. B. Sandell and R. W. Perlich. 309

Cobalt Separation from Manganese. J. G. Fairchild. 326

COLORIMETRY

Light Sources for. F. L. Matthews, R. H. Crist, and Alexander Knoll. 503

Photoelectric. Permanganate Ion and Chromium-Diphenyl Carbazide System Studied Optically. G. P. Rowland, Jr. 442

Present Status of. M. G. Mellon. 80

Columns. *See* Distillation.

Combustion Pipet. G. H. Nelson, H. D. Weihe, and D. F. J. Lynch. 169

Conductivity Cell, Dipping-Type. C. S. Howard. 511

COPPER

Assay by Electrolysis. G. L. Jones. 461

Determination by Iodometric Method. Suitable Buffer Solution. W. R. Crowell in Paris Green and Ores. J. P. Mehlig and T. P. Marsh. 213

and Separation from Nickel by Salicylaldehyde. L. P. Biefeld and D. E. Howe. 251

in Spray Residues. D. E. H. Frear. 494

Kojic Acid Determined by Precipitation with. H. N. Barham. 31

Microdetermination by Spectrographic Analysis. L. H. Rogers. 47

Sodium Thiosulfate Standardized by. J. J. Kolb. 197

and Tellurium Groups Separated on Micro Scale. B. S. Alstodt and A. A. Benedetti-Pichler. 294

Corn, Yellow, Carotenoids in. L. O. Buxton. 128

Cottonseed Oil, Crude, Gossypol Estimation in. F. H. Smith and J. O. Halverson. 475

Crucible Support. G. E. Seil and H. A. Helligman. 463

Cube, Deguelin Determination in. L. D. Goodhue and H. L. Haller. 640

Cube Root, Colorimetric Evaluation of. H. A. Jones. 429

Cyanide Plating Solutions, Gold Determination in (Correspondence). Louis Weisberg; J. B. Kushner. 223

DEGUELIN Determination in Derris and Cube. L. D. Goodhue and H. L. Haller. 640

Density. *See* Specific Gravity.

Dentifrice. *See* Teeth.

Derris, Deguelin Determined in. L. D. Goodhue and H. L. Haller. 640

Derris Root, Colorimetric Evaluation of. H. A. Jones. 429

Dialysis, Electro-, Apparatus Constructed for. John Russell and R. E. Stauffer. 459

Dialyzer, Electro-, for Starch. R. M. Hixon and V. D. Martin. 395

Dialyzer for Protein, of Rapid Circulating Type. A. R. Taylor, A. K. Parpart, and R. Ballentine. 659

2,4-Dinitrophenylhydrazine, Carbonyl Compounds Determined by. H. A. Iddles, A. W. Low, B. D. Rosen, and R. T. Hart. 102

Dipicrylamine. *See* Hexanitrodiphenylamine.

DISTILLATION APPARATUS

Bumping Prevention and Boiling Promotion in. S. Palkin and T. C. Chadwick. 509

Capillary, for Fractionation of Small Volumes. A. O. Gettler and J. Fine. (Addendum, Gettler, 559). 469

Columns for Close Fractionation. Conical Stedman Packing. L. B. Bragg Glass Helices for Packing of. R. W. Price and W. C. McDermott for Laboratory Fractionations. G. F. Reyling. 419

for Kjeldahl Determinations, Semimicro-. C. E. Redemann. 635

Micro-, with Receiver for Distilling under Reduced Pressure. S. A. Shrader and J. E. Ritzer. 54

for Moisture Determination. A. C. Beckel, A. G. Sharp, and R. T. Milner. 425

Still for Water Redistillation. D. A. Wilson and H. S. Strickler. 636

Vacuum, Improvement of. B. L. Dunicz. 28

Vacuum and Molecular. A. A. Morton, J. F. Mahoney, and Graham Richardson. 460

Distilled Liquors. *See* Beverages.

DITHIZONE

Bismuth Microdetermination in Biological Material with. D. M. Hubbard. 343

Lead Microdetermination in Biological Material by. Karl Bambach-Lead System. Photometric Study. C. L. Guettel. 639

Metal Traces Isolated and Determined by. H. J. Wichmann. 66

Drying Agent, Lead-Sodium Alloy as. Harold Soroos. 657

Dumas Method. *See* Nitrogen.

EBULLIOMETER Table for Alcoholic Liquids Containing Solid Matter. R. F. Love. 548

Effusiometer. *See* Specific Gravity.

ELECTRODES

Antimony, Characteristics of. G. A. Perley. 319

Antimony, for Industrial Hydrogen-Ion Measurements. G. A. Perley. 316

Carbon, Preparation of, for Spectrographic Analysis. Two Lathe Tools. A. T. Myers and B. C. Brunstetter. 218

of Dropping Type, for Polarographic Analysis. J. J. Lingane and H. A. Laitinen. 504

Glass, Blood pH at 38° C. Determined by. M. K. Horwitz. 30

Hydrogen Barometric Correction Nomograph for. G. F. Kinney. 530

for Hydrogen-Ion Concentration of Buffers. W. H. Hall. 158

for pH Microdeterminations. H. A. Frediani. 53

Electroanalysis. *See* Analysis.

Electrometric Equivalence Points, Determination of. J. R. Gay. 383

Electrometric Indicators with Dead-Stop End-Point System. D. R. Clippinger and C. W. Foulk. 216

Electron-Tube Direct-Current Voltmeter. R. L. Garman and M. E. Droz. 398

Electronic Relay, High-Performance. R. C. Hawes. 222

EQUIPMENT FOR LABORATORY

Balance Testing. Archibald Craig. 581

Balances, Micro- and Analytical. A. W. Ainsworth. 572

Coordination between Instrument Maker and Research. W. H. Reynolds. 567

Evolution and Development. W. B. Warren. 574

Instrumentation Research. Paul Sherrick and L. D. Wilson. 576

Monochromators and Auxiliary Apparatus. John Strong. 563

Optical Instrument Research. C. W. Barton. 579

Spectrograph Design and Its Problems. J. W. Forrest. 568

Supply House for. D. A. Korman. 571

Erythrosin in Sulfate Titration, as Internal Indicator. W. V. Burg. 28

Ethanolamine, Woody Tissue Treated with. L. E. Wise, F. C. Peterson, and W. M. Harlow. 18

Ethylene Determined within Plant Tissues. B. E. Christensen, Elmer Hansen, and V. H. Cheldelin. 114

Excrement of Birds, Uric Acid Determination in. R. L. Shirley and A. H. VanLandingham. 381

Excrement. Selenium Determined in Feces by Quantitative Method. R. A. Gortner, Jr., and H. B. Lewis. 198

EXTRACTION APPARATUS

Continuous Diffusion Device. Martin Meyer. 369

for Liquids, on Large Scale. F. W. Schreiber. 340

for Liquids. Mechanically Operated and Continuous Type. G. W. Pucher and H. B. Vickery. 656

FATS, Kniaseff Test for. H. H. Selby and T. A. Selby. 393

Feces. *See* Excrement.

Ferron, Fluorine Determined Colorimetrically with. J. J. Fahey. 362

Fertilizers, Phosphatic, Fluorine Determined in. D. S. Reynolds and W. L. Hill. 21

FILTERS

Centrifuge Tube Type. Theodore Perrine and William Kump. 658

Crucibles, Silica Cotton in. W. W. Russell and J. H. A. Harley, Jr. 168

Sintered Pyrex Glass. H. W. Stone and L. C. Weiss. 220

Fish Freshness Determined in Titration Apparatus. M. E. Stansby and G. A. Fitzgerald. 290

Flask for Efficient Stirring. A. A. Morton. 170

Flotation Cell of Glass. C. W. Leaf and Alexander Knoll. 510

Flowmeter, Capillary, with Variable Orifices. J. H. Bruun. 655

Fluid Flow, Manometers Constructed for Measurement of. A. D. Loring. 626

Fluorescent Analysis of Inorganic Materials. C. E. White. 63

FLUORINE DETERMINATION

with Ferron Colorimetrically. J. J. Fahey. 362

Micro-, by Thorium Nitrate Titration. F. J. McClure. 171

in Phosphates and Fertilizers. D. S. Reynolds and W. L. Hill. 21

in Wine. H. G. Rempel. 378

Foam Prevention, Devices for. Robert Schnurmman. 287

Foam Prevention in Food and Biological Analyses. P. A. Raciocot and C. S. Ferguson. 380

Food. *See preceding item.*

Forages, Partition of Less Easily Digested Carbohydrate Complex of. R. E. Davis and C. O. Miller. 651

Fruit, Bromide Content of, Following Fumigation with Methyl Bromide. H. C. Dudley. 259

(*See also kind of fruit*)

Fumigated Products, Methyl Bromide Determination in. V. A. Stenger, S. A. Shrader, and A. W. Beshgetoor. 121

Fungicides, Copper Determination in Spray Residues of. D. E. H. Frear. 494

Furfural Determination in Furfuryl Alcohol-Furfural Solution. A. P. Dunlop and Floyd Trimble. 602

Furfuryl Alcohol. *See preceding item.*

Furnaces, Nitrite and Nitric Oxide Determined Spectrophotometrically in. H. A. Liebafsky and E. H. Winslow. 189

Fusel Oil. *See* Alcohols.

GASES

Analyses

Apparatus Employing Automatic Absorption Pipet. C. M. Blair and J. H. Purse. 166

Micro- Apparatus for. C. H. Prescott, Jr., and James Morrison. 230

Micro- Buret for. D. C. Grahame. 351

Orsat Apparatus, Rapid Operating Device for. Fred Cook. 551

Pressure Regulator for Dynamic Gaseous Systems. J. H. Bruun. 628

Specific Gravity Determined by Automatic Effusimeter. G. V. Feskov. 653

Valve, Greaseless High-Vacuum. R. H. Crist and F. B. Brown. 396

Gasoline, Tetraethyllead Determination in. George Calingaert and C. M. Gambrill. (Correction, 445). 324

GLASS

Cloth, Organic Surface Coatings Measured for Moisture Permeability and Adsorption with. H. F. Payne. 453

Electrode. *See* Electrodes.

Filters and Bubbler of Sintered Pyrex. H. W. Stone and L. C. Weiss. 220

Helices for Packing Laboratory Fractionating Columns. R. W. Price and W. C. McDermott. 289

Liner for High-Pressure Hydrogenation Bomb. E. B. Hershberg and Nathan Weiner. 93

Spheres, Microscopic, Preparation of. Karl Sollner. 48

Gold Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson. 86

Gold Determined in Cyanide Plating Solutions (Correspondence). Louis Weisberg; J. B. Kushner. 223

Gossypol Estimation in Crude Cottonseed Oil. F. H. Smith and J. O. Halverson.....	475	Determination as Sulfate by Pycnometric Analyses. W. W. Russell and J. H. A. Harley, Jr.....	140
Greases. <i>See</i> Lubricants.		-Dithizone System Studied by Photometer. C. L. Guettel.....	639
HALOGEN Determination		Etched, Drying of. D. L. Woernley.....	120
Micro-, in Organic Compounds by Modified Beilstein Test. D. F. Hayman.....	470	Microdetermination in Biological Material. Karl Bambach.....	400
Micro-, Pregl Spiral Tube for. C. W. Beazley.....	229	Lead Sulfate Determined by Pycnometric Analysis. W. W. Russell and J. H. A. Harley, Jr.....	140
in Organic Compounds. H. B. Feldman and A. L. Powell.....	89	Levulose, Potassium Ferricyanide for Selective Oxidation of. D. T. Englis and H. C. Becker.....	145
in Volatile Organic Compounds. Modified Beilstein Test. W. L. Ruigh.....	250	Lifting Device for Laboratory Use. George Calingaert.....	552
Heat Apparatus. Electric Heater for Chemical Service. W. Master.....	452	Lignin Determination in Wood. Effect of Pre-extractions. E. E. Harris and R. L. Mitchell.....	153
Heat Apparatus. Thermometer Guard. M. B. Standing and J. H. Wiegand.....	462	Liquid Extractor of Large Size. F. W. Schreiber.....	340
Hexanitrodiphenylamine (Dipicrylamine) Reagent, Potassium Determined with. I. M. Kolthoff and G. H. Bendix.....	94	Lithium, Carbonate Test for. E. R. Caley and A. L. Baker, Jr.....	101
Honey, Moisture Determination in, by Viscometer. F. C. Oppen and H. A. Schuette.....	130	Lithium Salts, Composition of, When Precipitated by Uranyl Acetate Reagents for Sodium. E. R. Caley and W. O. Baker.....	604
Hydrazine Nitrogen. <i>See</i> Nitrogen.		LUBRICANTS	
HYDROCARBONS		Crankcase Oils, Radiator Antifreeze Materials Identified in. Harry Levin, Karl Uhrig, and Ervin Stehr.....	134
Aromatic, Determined Quantitatively. A. V. Grosse and R. C. Wackher.....	614	Grease Consistency Determined by Miniature Penetrometer. Gus Kaufman, W. J. Finn, and R. J. Harrington.....	108
Solvents, Phenol Determination in. L. A. Wetlaufer, F. J. Van Natta, and H. B. Quattlebaum.....	438	Oxidation Measured. V. R. Damerell.....	265
Thinners of High-Solvency Type, Composition of. E. H. McArdle, J. C. Moore, H. D. Terrell, E. C. Haines, <i>et al.</i>	248	MAGNESIUM Determination in Biological Material by Oxidation. J. P. Nielsen.....	649
(See also Organic Compounds)		Maleic Acid Resins, Analysis of. Erik Sadolin.....	608
HYDROGEN		Malts, Proteolytic Activity of, Determined by Viscometer. J. R. Koch, Orlando Nelson, and Lawrence Ehrnst.....	35
Electrode. <i>See</i> Electrodes.		MANGANESE	
Microdetermination		Determination	
Accuracy and Precision of. Statistical Study. F. W. Power.....	660	with Periodate by Colorimetry. J. P. Mehlig.....	274
Handling of Hygroscopic Substances. C. J. Rodden.....	405	with Periodate by Photoelectric Colorimetry. G. P. Rowland, Jr. in Steel by Modified Persulfate-Arsenite Method. R. P. Forsyth and W. F. Barfoot.....	442
Mercury-Sealed Absorption Tube for. R. J. Robinson and D. J. Doan.....	406	Separation from Cobalt. J. G. Fairchild.....	625
Pressure Effect on Lessening Combustion and Sweeping Times. S. S. Brodie.....	517	Manometer. <i>See</i> Pressure Apparatus.	326
HYDROGEN-ION CONCENTRATION		Mashing. <i>See</i> Beverages.	
Patent Blue V as pH Indicator. J. H. Yoe and G. R. Boyd, Jr.....	492	Melting Point Block of Berl and Kullmann Modified (Correction). F. W. Bergstrom.....	304
Peroxide Solutions, pH Control in. J. S. Reichert and H. G. Hull.....	311	Melting Point Microapparatus, Electric. R. E. Dunbar.....	516
(See also Electrodes)		Meniscus Reader for Burets. E. J. Bogan.....	396
Hydrogen Peroxide. <i>See</i> Peroxide.		Mercurous Chloride for Separation, Detection, and Estimation of Easily Reduced Elements. G. G. Pierson.....	86
ICE CREAM, Fats Determined in, by Kniesseff Test. H. H. Selby and T. A. Selby.....	393	Mercury Determination with Tetraphenylarsonium Chloride. H. H. Willard and G. M. Smith.....	269
Immersion Liquids Prepared for Range $n_D = 1.411$ to 1.785. E. P. Kaiser and William Parrish.....	560	Metallic Compounds, Sulfur Determination in, by Pregl Combustion. J. F. Alicino.....	298
Indophenol, 2,6-Dichlorophenol-, Standardization for Determining Vitamin C (Correspondence). O. H. Keys.....	293	Metals. <i>See</i> Trace Determination.	
INSECTICIDES		Metcalf Research Laboratory. <i>See</i> Brown University.	
Derris and Cube, Deguelin Determined in. L. D. Goodhue and H. L. Haller.....	640	Methyl Bromide, Analytical Methods for. V. A. Stenger, S. A. Shrader, and A. W. Beshgetoor.....	121
Derris and Cube Roots, Colorimetric Evaluation of. H. A. Jones.....	429	Methyl Bromide Determination in Fruits and Vegetables Following Fumigation. H. C. Dudley.....	259
Tartar Emetic on Leaf and Fruit Surfaces. Semiquantitative Microanalysis. Donald Starr.....	519	Metrazole (Cardiazole) Microidentification in Mixed Aqueous Solutions. V. E. Stewart.....	345
Insulation for Cables, Water Microdetermination in Paper and Oil as. R. N. Evans, J. E. Davenport, and A. J. Revukas.....	553	MICROCHEMISTRY	
Iodate from Iodide by Oxidation with Sodium Chlorite. L. F. Yntema and Thomas Fleming.....	375	Balances in Quantitative Analysis. A. A. Benedetti-Pichler. (Correction, 350).....	226
Iodide. <i>See</i> preceding item.		Organic Qualitative Analysis Technique. Classification Reactions of Compounds of Carbon, Hydrogen, and Oxygen. Frank Schneider and D. G. Foulke.....	111
IODINE		Qualitative Separations on Micro Scale	
Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson.....	86	Alkaline Earth Group. A. A. Benedetti-Pichler, W. R. Crowell, and Clarence Donahoe.....	117
Determination in Sodium Tetraiodophenolphthalein. A. Q. Butler and R. A. Burdett.....	237	Tellurium and Copper Groups. B. S. Alstodt and A. A. Benedetti-Pichler.....	294
Determination in Thyroid and Its Preparations by Cerate Oxidimetry. W. W. Hilty and D. T. Wilson.....	637	Quantitative Organic Microanalysis without Microbalance. J. B. Niederl, V. Niederl, R. H. Nagel, and A. A. Benedetti-Pichler.....	412
Sublimation, Device for. Jacob Cornog and Leonard Olson.....	551	Microscopy, Chemical, Services of E. M. Chamot to. C. W. Mason.....	341
Titration by. Tetraphenylarsonium Chloride as Analytical Reagent. H. H. Willard and G. M. Smith.....	186	MILK	
Iron Determination by Thiocyanate, Hydrogen Peroxide as Oxidant in. C. A. Peters, M. M. MacMasters, and C. L. French.....	502	Dried Products from, Riboflavin Determined in. R. A. Sullivan and L. C. Norris.....	535
Iron Determination in Tungsten and Tungstic Acid. M. L. Holt and Donald Swalheim.....	254	Iced, Fats Determined in. H. H. Selby and T. A. Selby.....	393
JAMIESON Method. <i>See</i> following item.		Riboflavin Determined in. D. B. Hand.....	306
KETONES Identified by Estimation of Hydrazine Nitrogen According to Jamieson Method. G. B. L. Smith and T. G. Wheat.....	200	"Milorganite". <i>See</i> Activated under Sludge.	
Kjeldahl Method, Selenium Action in Estimation of Nitrogen by. A. Sreenivasan and V. Sadasivan.....	314	Mobilometer. <i>See</i> Viscosity.	
Kjeldahl Method. Semimicrodistillation Apparatus. C. E. Redemann.....	635	Moisture. <i>See</i> Water.	
Kniesseff Test. <i>See</i> Fats.		Monochromators and Auxiliary Apparatus. John Strong.....	563
Kojic Acid, Copper Precipitation Method for Determination of. H. N. Barham.....	31	NATIONAL Lead Company, Titanium Division's Research Laboratory. W. W. Plechner and S. S. Cole.....	299
LABORATORIES		Neutralization Reactions, Electrometric Indicators with Dead-Stop End-Point System Applied to. D. R. Clippinger and C. W. Foulk.....	216
Equipment for. <i>See</i> Equipment.		NICKEL DETERMINATION	
Modern		as Nickel-Ammonia Complex Ion by Colorimetric Method. G. H. Ayres and Francene Smith.....	365
Brown University. H. C. Eckstrom.....	56	and Separation from Copper by Salicylaldehyde. L. P. Biefeld and D. E. Howe.....	251
Case School of Applied Science. E. A. Arnold and D. O. Hubbard.....	675	in Silicate Rocks. E. B. Sandell and R. W. Perlich.....	309
National Lead Company's Titanium Division. W. W. Plechner and S. S. Cole.....	299	Nicotine Determination by Silicotungstic Acid. A. W. Avens and G. W. Pearce.....	505
Northeastern University. A. A. Vernon and Saverio Zuffanti.....	178	Nitric Oxide. <i>See</i> following item.	
Norwich Pharmacal Company. G. W. Bengert.....	522	Nitrite and Nitric Oxide Determined in Furnace Atmospheres by Spectrophotometric Method. H. A. Liebhafsky and E. H. Winslow.....	189
Virginia Polytechnic Institute. F. C. Vilbrandt.....	234	NITROGEN	
Washington University. W. L. Fuschlein.....	352	Determination in Stainless Steels. T. R. Cunningham and H. L. Hamner.....	303
for Sanitary Chemistry in the Field. J. G. Weart.....	43	Dumas Method for Organic Nitrogen. Fred Shea and C. E. Watts.....	333
Lac Microestimation on Glazed Candies. N. M. Molnar and Joseph Grumer.....	673	Dumas Microdetermination, Needle Valve for. E. B. Hershberg and Lyon Southworth.....	404
Latex. <i>See</i> Rubber.		Hydrazine, Aldehydes and Ketones Identified by Estimation of, Determined by Jamieson Method. G. B. L. Smith and T. G. Wheat.....	200
LEAD		Microestimation, Generator for Carbon Dioxide of High Purity. E. J. Poth.....	518
Alloy with Sodium, as Drying Agent. Harold Soroos.....	657	(See also Kjeldahl Method)	
Antimony Microdetermined in, and in Alloys of. C. W. Anderson.....	224	Nomograph. <i>See</i> Chart.	
		Northeastern University's Chemical Laboratories. A. A. Vernon and Saverio Zuffanti.....	178
		Norwich Pharmacal Company's Laboratories. G. W. Bengert.....	522

OILS		
Cottonseed, Crude, Gossypol Estimation in. F. H. Smith and J. O. Halverson.....	475	
Neutral, Determined in Phenolic Compounds. Edward Field and Louis Steuerwald.....	426	
<i>(See also Insulation, Lubricants, and Petroleum)</i>		
Optical Instruments, Research on. C. W. Barton.....	579	
Ores, Copper Determination in. J. P. Mehlig and T. P. Marsh.....	213	
ORGANIC COMPOUNDS		
Carbon Determined in. A. K. Parpart and A. J. Dziemian.....	107	
Carbon Determined in Soils. E. R. Purvis and G. E. Higson, Jr.....	19	
Determined in Paddy Soils. C. K. Lee.....	428	
Halogen in		
Determination of. H. B. Feldman and A. L. Powell.....	89	
Determination in Volatile Compounds. W. L. Ruigh.....	250	
Microdetermination by Modified Beilstein Test. D. F. Hayman.....	470	
Metallic Traces Determined in. T. M. Hess, J. S. Owens, and L. G. Reinhardt.....	646	
Microtechnique of Qualitative Analysis. Classification Reactions. Frank Schneider and D. G. Foulke.....	111	
Refractive Index Measurements in Qualitative Microanalysis of. P. L. Kirk and C. S. Gibson.....	403	
<i>(See also Hydrocarbons)</i>		
Orsat Apparatus. <i>See Gas Analyses.</i>		
Oxidation-Reduction Titrations, Patent Blue V as Indicator in. J. H. Yoe and G. R. Boyd, Jr.....	492	
Oxygen Determination, Dissolved in Aqueous Solutions. G. A. Perley.....	240	
Oxygen Determination in Peroxygen Compounds. J. S. Reichert, S. A. McNeight, and H. W. Rudel.....	194	
PAINT		
Organic Coatings Measured for Moisture Permeability and Adsorption with Glass Cloth. H. F. Payne.....	453	
Petroleum Spirits, Solvency of. S. S. Kurtz, Jr., W. T. Harvey, and M. R. Lipkin.....		
Graphic Determination of Resin Solvency from Boiling Point Density and Refractive Index.....	484	
Resin Solvency of Commercial Spirits.....	476	
Pigment Suspensions, Particle-Size Distributions of. S. W. Martin.....	471	
Thinners, Change in Solvency during Evaporation of. E. H. McArdle.....	450	
Thinners of High-Solvency Hydrocarbon Type, Composition of. E. H. McArdle, J. C. Moore, H. D. Terrell, E. C. Haines, et al.....	248	
Palladium Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson.....	86	
Paper as Cable Insulation, Microdetermination of Water in. R. N. Evans, J. E. Davenport, and A. J. Revukas.....	553	
Paper, Starch Determined in. L. E. Simerl and B. L. Browning.....	125	
Paris Green, Copper Determination in. J. P. Mehlig and T. P. Marsh.....	213	
Particle Size Distribution, Methods of Representing. J. B. Austin.....	334	
Particles, Volume-Shape Factor of. Probable Errors in Computation. J. M. Dalla Valle and F. H. Goldman.....	545	
Patent Blue V as pH and Redox Indicator. J. H. Yoe and G. R. Boyd, Jr.....	492	
Pears, Ethylene Determination within Tissues of. B. E. Christensen, Elmer Hansen, and V. H. Cheldelin.....	114	
Penetrometer to Determine Consistency of Lubricating Greases. Gus Kaufman, W. J. Finn, and R. J. Harrington.....	108	
Perchloric Acid for Sodium Thiosulfate Standardization by Copper. J. J. Kolb.....	197	
Periodate, Manganese Determined with. J. P. Mehlig.....	274	
Pernganganate, Coal Rank Determined by Oxygen Absorption from. H. L. Olin, P. L. Conrad, Marion Krouse, and R. E. Whitson.....	489	
PEROXIDE		
Compounds Determined. J. S. Reichert, S. A. McNeight, and H. W. Rudel.....	194	
Iron Determined Colorimetrically by Thiocyanate with. C. A. Peters, M. M. MacMasters, and C. L. French.....	502	
Solutions, pH Control in. J. S. Reichert and H. G. Hull.....	311	
PETROLEUM		
Fractions, Physical and Chemical Properties of. Handling Viscous Oils in Molecular Weight Studies. H. T. Rall and H. M. Smith.....	387	
Hydrocarbons. Determination of Aromatics in Mixtures Boiling in Gasoline-Naphtha Range. A. V. Grosse and R. C. Wackher.....	614	
Oils		
Mineral, Deterioration of. Revised Grignard Apparatus. A. G. Assaf and E. K. Gladding.....	164	
Molecular Weights of, Determined. W. E. Hanson and J. R. Bowman.....	440	
Used, Dissolved Sludge Determined in. F. W. Hall, Harry Levin, and W. A. McMillan.....	183	
Used, Undissolved Sludge Determined in. Harry Levin and C. C. Towne.....	181	
Spirits, Solvency of. S. S. Kurtz, Jr., W. T. Harvey, and M. R. Lipkin.....		
Graphic Determination of Resin Solvency from Boiling Point Density and Refractive Index.....	484	
Resin Solvency of Commercial Spirits.....	476	
<i>(See also Distillation, Gasoline, Hydrocarbons, and Lubricants)</i>		
PHENOL		
Determination in Hydrocarbon Solvents. L. A. Wetlaufer, F. J. Van Natta, and H. B. Quattlebaum.....	438	
Estimated in Tissues. Wilhelm Deichmann and E. W. Scott.....	423	
in Tar from Low-Temperature Carbonization of Coal. T. B. Smith and Leo Kasehagen.....	527	
Phenolic Compounds, Neutral Oil and Tar Acids Determined in. Edward Field and Louis Steuerwald.....	426	
Phosphates, Natural, Fluorine Determined in. D. S. Reynolds and W. L. Hill.....	21	
Phosphorus-Tin Precipitate in Bronze Analysis. Owen Gates and Louis Silverman.....	370	
Photoelectric Colorimetry. Permanganate Ion and Chromium-Diphenyl Carbazide System Studied Optically. G. P. Rowland, Jr.....	442	
Photoelectric Methods in Analytical Chemistry. R. H. Müller.....	1	
Pigment Suspensions, Particle-Size Distributions of. S. W. Martin.....	471	
PIPETS		
Automatic Absorption, for Gas Analysis Apparatus. C. M. Blair and J. H. Purse.....	166	
Combustion. G. H. Nelson, H. D. Weihe, and D. F. J. Lynch.....	169	
Duplicating. F. E. Holmes.....	188	
PLANT MATERIAL		
Boron Determined in. K. C. Berger and E. Truog.....	540	
Ethylene Determined in Internal Atmosphere of. B. E. Christensen, Elmer Hansen, and V. H. Cheldelin.....	114	
<i>(See also kind of plant material)</i>		
Plating Solutions, Cyanide, Determination of Gold in (Correspondence). Louis Weisberg; J. B. Kushner.....	223	
Platinum Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson.....	86	
Platinum Recovery in Potassium Determination. M. C. Swisher and F. F. Hummel.....	162	
Polarographic Analysis, Cell and Dropping Electrode for. J. J. Lingane and H. A. Laitinen.....	504	
Potassium Determination with Hexanitrodiphenylamine (Dipicrylamine) Reagent. I. M. Kolthoff and G. H. Bendix.....	94	
Potassium Determination, Platinum Recovery in. M. C. Swisher and F. F. Hummel.....	162	
Potassium Ferricyanide, Levulose Oxidized Selectively with. D. T. Englis and H. C. Becker.....	145	
Potassium Salts, Composition of, When Precipitated by Uranyl Acetate Reagents for Sodium. E. R. Caley and W. O. Baker.....	604	
Precipitation Reactions, Electrometric Indicators with Dead-Stop End-Point System Applied to. D. R. Clippinger and C. W. Foulk.....	216	
Pregl Combustion. <i>See Sulfur and Halogen.</i>		
Pressure Apparatus. Manometers Constructed for Measuring Flow. A. D. Loring.....	626	
Pressure Apparatus. Regulator for Dynamic Gaseous Systems. J. H. Bruun.....	628	
Protein Solutions, Dialyzer for. A. R. Taylor, A. K. Parpart, and R. Ballentine.....	659	
Pycnometer, Graduated. G. R. Robertson.....	464	
Pyrex. <i>See Glass.</i>		
QUINALDINE Salt of Iodobismuthous Acid, Bismuth Determination by. J. R. Hayes and G. C. Chandlee.....		531
RARE Earths Separated by Sulfamic Acid. J. Kleinberg, W. A. Taebel, and L. F. Audieth.....		368
Redox. <i>See Oxidation-Reduction.</i>		
Reductor, Jones, Improved. P. Nilakantan and N. Jayaraman.....	339	
Reductor, Jones, Modified Form of. W. A. Taebel.....	550	
Refractive Index Determination in Immersion Liquids for Range $n_D = 1.411$ to 1.785. E. P. Kaiser and William Parrish.....	560	
Refractive Index Measurements in Qualitative Organic Microanalysis. P. L. Kirk and C. S. Gibson.....	403	
RESINS		
Maleic Acid Type Analyzed. Erik Sadolin.....	608	
Microscopy in Investigation of. T. G. Rochow.....	629	
Solvency in Commercial Spirits. S. S. Kurtz, Jr., W. T. Harvey, and M. R. Lipkin.....	476	
Solvency Determined Graphically from Boiling Point Density and Refractive Index. S. S. Kurtz, Jr., M. R. Lipkin, and W. T. Harvey.....	484	
Rhenium Determination with Tetraphenylarsonium Chloride. H. H. Willard and G. M. Smith.....	305	
Riboflavin. <i>See Vitamins.</i>		
Rocks, Silicate, Cadmium Determined in. E. B. Sandell.....	364	
Rocks, Silicate, Nickel and Cobalt Determined in. E. B. Sandell and R. W. Perlich.....	309	
Rubber Latex, Examination of, and of Compounds of. I. Physical Testing Methods. H. F. Jordan, P. D. Brass, and C. P. Roe (Correction).....	377	
Rubber Latex Variability Tested by Tentative Procedures. R. H. Gerke, et al.....	593	
SALICYLALDOXIME, Copper and Nickel Separation and Determination by. L. P. Biefeld and D. E. Howe.....		251
Sand, Silica, Bitumen Adhesiveness to. Comparison of Mixing Method and Wash Test. H. F. Winterkorn and G. W. Eckert.....	546	
Sanitation Chemistry, Compact Field Laboratory for. J. G. Weart.....	43	
Sausage Analyzed for Soybean Flour by Nonfermentable Sugars. W. B. Hendrey.....	611	
SELENIUM		
Action in Nitrogen Estimation by Kjeldahl Method. A. Sreenivasan and V. Sadasivan.....	314	
Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson.....	86	
Determination in Tissues and Feces by Quantitative Photometric Method. R. A. Gortner, Jr., and H. B. Lewis.....	198	
Sewage. <i>See Sludge.</i>		
Silage, Carotene Determination in. D. M. Hegsted, J. W. Porter, and W. H. Peterson.....	256	
Silica Cotton in Filter Crucibles. W. W. Russell and J. H. A. Harley, Jr.....	168	
Silica Sand. <i>See Sand.</i>		
Silicate Rocks. <i>See Rocks.</i>		
Silicates, Alumina Determined Directly in. E. W. Koenig.....	532	
Silicosis Prevention, Aluminum Hydrate Films Identified for. L. H. Germer and K. H. Storks.....	583	
Silicotungstic Acid, Nicotine Determination by. A. W. Avens and G. W. Pearce.....	505	
Silver Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson.....	86	
SLUDGE		
Activated ("Milorganite"). C. J. Rehling and E. Truog.....	281	
Determination in Used Oils, Dissolved. F. W. Hall, Harry Levin, and W. A. McMillan.....	183	
Determination in Used Oils, Undissolved. Harry Levin and C. C. Towne.....	181	
Sodium Alloy with Lead, as Drying Agent. Harold Soroos.....	657	
Sodium, Uranyl Acetate Reagents for, Composition of Lithium and Potassium Salts Precipitated by. E. R. Caley and W. O. Baker.....	604	
Sodium Chlorite, Iodide Oxidized to Iodate by. L. F. Yntema and Thomas Fleming.....	375	
Sodium Citrate, Aluminum Determined Volumetrically with. A. C. Titus and M. C. Cannon.....	137	
Sodium 1,2-Naphthoquinone-4-Sulfonate, Reaction between Amines and. E. G. Schmidt.....	99	
Sodium Tetraiodophenolphthalein, Iodine Determined in. A. Q. Butler and R. A. Burett.....	237	
Sodium Thiosulfate Standardized by Copper. J. J. Kolb.....	197	

SOIL		Titration Apparatus of Semiautomatic, Multiple, Electrometric Type. M. E. Stansby and G. A. Fitzgerald..... 290	
Boron Determination in, by Quinalizarin Reaction. K. C. Berger and E. Truog..... 540		Titration, Electrometric, Equivalence Points Determined in. J. R. Gay..... 383	
Organic Carbon Determined in. E. R. Purvis and G. E. Higson, Jr. Paddy, Organic Matter Determined in. C. K. Lee..... 428		Tobacco. <i>See</i> Nicotine.	
Solenoid Stirrer. <i>See</i> Agitator.		TRACE DETERMINATION	
Soybean Flour Determined in Sausage by Nonfermentable Sugars. W. B. Hendrey..... 611		Metallic Impurities in Organic Materials. T. M. Hess, J. S. Owens, and L. G. Reinhardt..... 646	
Specific Gravity. Flotation Temperature Method for Microdetermination of Density Differences. Merle Randall and Bruce Longtin..... 44		Symposium on	
Specific Gravity of Gases Determined by Automatic Effusimeter. G. V. Feskov..... 653		Colorimetric Methods. M. G. Mellon..... 80	
SPECTROGRAPHY		Fluorescent Analysis of Inorganic Materials. C. E. White..... 63	
Carbon Electrodes Prepared for. A. T. Myers and B. C. Brunstetter Identification of Lines in Qualitative Analysis. W. C. Pierce, O. R. Torres, and W. W. Marshall..... 191		Mercurous Chloride for Separation, Detection, and Estimation of Easily Reduced Elements. G. G. Pierson..... 86	
Spectrograph Design and Its Problems. J. W. Forrest..... 568		Metals Isolated and Determined by Dithione System. H. J. Wichmann..... 66	
Trace Determination by. J. S. Owens..... 59		Spectrographic Methods. J. S. Owens..... 59	
Spectrophotometry, Absorption, for Quantitative Work. Internal Control Method. J. S. Owens..... 643		Spectrophotometric Methods. S. E. Q. Ashley..... 72	
Spectrophotometry in Analytical Chemistry. S. E. Q. Ashley..... 72		Tube, Pregl Spiral, for Sulfur and Halogen Microdeterminations. C. W. Beazley..... 229	
Spheres, Microscopic Glass, Preparation of. Karl Sollner..... 48		Tungsten and Tungstic Acid, Iron Determination in. M. L. Holt and Donald Swalheim..... 254	
Spray Residues, Copper Determination in. D. E. H. Frear..... 494		Tungstic Acid. <i>See preceding item.</i>	
STARCH		UPHOLSTERY, Urea Microdetermination in. P. A. Racicot and H. C. Lythgoe..... 512	
Determination in Paper. L. E. Simerl and B. L. Browning..... 125		Uranyl Acetate Reagents for Sodium, Composition of Lithium and Potassium Salts Precipitated by. E. R. Caley and W. O. Baker..... 604	
Electrolyzer for. R. M. Hixon and V. D. Martin..... 395		Urea Microdetermination in Bedding and Upholstered Furniture. P. A. Racicot and H. C. Lythgoe..... 512	
Pastes, Rigidity of. Bernadine Brimhall and R. M. Hixon..... 358		Uric Acid Determination in Excrements of Birds. R. L. Shirley and A. H. VanLandingham..... 381	
Stedman Packing. <i>See</i> Columns under Distillation Apparatus.		Urine, Amines Determined in, with Sodium 1,2-Naphthoquinone-4-Sulfonate. E. G. Schmidt..... 99	
Steel, Manganese and Chromium Determined in, by Modified Persulfate-Arsenite Method. R. P. Forsyth and W. F. Barfoot..... 625		VACUUM Distillation. <i>See</i> Distillation Apparatus.	
Steel, Stainless, Nitrogen Determined in. T. R. Cunningham and H. L. Hamner..... 303		Valve, Greaseless High-Vacuum. R. H. Crist and F. B. Brown..... 396	
Still. <i>See</i> Distillation Apparatus.		Valve, Needle, for Nitrogen Determination by Micro-Dumas Method. E. B. Hershberg and Lyon Southworth..... 404	
Stirrer. <i>See</i> Agitator.		Vegetable Materials, Ash Determination in. C. H. Briggs..... 163	
Stopcock for Buret, Sticking Prevented in. E. E. Maczkowske..... 20		Vegetables. Bromide Content after Fumigation with Methyl Bromide. H. C. Dudley..... 259	
Stopcock, Three-Way. M. A. Smith and F. L. Hayes..... 397		Vial Holder. J. A. Quense and W. M. Dehn..... 483	
Strontium Determination in Presence of Calcium. R. N. Shreve, C. H. Watkins, and J. C. Browning..... 215		Vibrator for Absorption Train. J. F. Vincent and M. M. Spruiell..... 247	
SUBLIMATION		Virginia Polytechnic Institute's Chemical Engineering Building. F. C. Vilbrandt..... 234	
of Iodine, Device for. Jacob Cornog and Leonard Olson..... 551		VISCOSITY APPARATUS	
Micro-, Apparatus for. B. L. Clarke and H. W. Hermance..... 50		Mobilometer for Determination of High Viscosities. E. L. Baldeschwieler and L. Z. Wilcox..... 525	
Vacuum and Molecular Apparatus for. A. A. Morton, J. F. Mahoney, and Graham Richardson..... 460		Thermostatic Bath for Determinations at Low Temperatures. E. L. Baldeschwieler and L. Z. Wilcox..... 221	
SUGAR		Viscometer for Determining Proteolytic Activity of Malt. J. R. Koch, Orlando Nelson, and Lawrence Ehrnst..... 35	
Granulated, Determination of Color and Turbidity in. A. R. Nees.. Microscopic Identification of. J. A. Quense and W. M. Dehn..... 555		Viscometer, Micro-. J. R. Bowman..... 409	
Soybean Flour Determined in Sausage by Nonfermentable Types of W. B. Hendrey..... 611		VITAMINS	
(<i>See also kind of sugar</i>)		A. Carotenoids in Yellow Corn. L. O. Buxton..... 128	
Sulfamic Acid, Rare Earths Separated by. J. Kleinberg, W. A. Taebel, and L. F. Audrieth..... 368		C. Ascorbic Acid Determined Colorimetrically. J. V. Scudi and H. D. Ratish..... 98	
Sulfate Determined as Barium Sulfate. H. A. Fales and W. S. Thompson..... 206		C. Ascorbic Acid Determined by Electrometric Titration. M. M. Kirk and D. K. Tressler..... 322	
Sulfate Titration, Erythrosin as Internal Indicator in. W. V. Burg..... 28		C. 2,6-Dichlorophenolindophenol Standardized for Determination of Ascorbic Acid (Correspondence). O. H. Keys..... 293	
Sulfonic Compounds, Active Ingredients and Fatty Matter Determined in. Ralph Hart..... 33		Riboflavin	
SULFUR DETERMINATION		Determination in Dried Milk Products. R. A. Sullivan and L. C. Norris..... 535	
in Asphalts. S. Pellerano..... 298		Determination by Fluorometric and Biological Method. G. C. Supplee, R. C. Bender, and O. G. Jensen..... 495	
in Metallic Compounds by Pregl Combustion. J. F. Alicino..... 229		Determination in Milk by Photoelectric Fluorescence. D. B. Hand Microbiological Assay of. E. E. Snell and F. M. Strong..... 346	
Micro-, Pregl Spiral Tube for. C. W. Beazley..... 229		Voltmeter of Electron-Tube Direct-Current Type. R. L. Garman and M. E. Droz..... 398	
Sulfuric Acid Esters. <i>See following item.</i>		WARDER'S Method. <i>See</i> Carbonate.	
Surface-Active Agents, Active Ingredients and Fatty Matter Determined in. Ralph Hart..... 33		Washington University's Bagley Hall. W. L. Beuschlein..... 352	
Symposium on Trace Determination..... 59		WATER	
TANNIN, Aluminum and Beryllium Separated and Determined by. M. L. Nichols and J. M. Schempf..... 278		Determination by Distillation Method, Apparatus for. A. C. Beckel, A. G. Sharp, and R. T. Milner..... 425	
TAR		Determination in Hygroscopic Substances. Microdetermination of Carbon and Hydrogen. C. J. Rodden..... 405	
Acids Determined in Phenolic Compounds. Edward Field and Louis Steuerwald..... 426		Hot Distilled, Continuous Supply of. G. G. Marvin..... 399	
from Coal Hydrogenation. Determination of Insoluble Matter in. M. L. Fein, Abner Eisner, H. M. Cooper, and C. H. Fisher..... 432		Microdetermination in Cable Insulation. R. N. Evans, J. E. Davenport, and A. J. Revukas..... 553	
Phenols in, from Low-Temperature Carbonization of Coal. T. B. Smith and Leo Kasehagen..... 527		Natural and Treated, Hydrogen-Ion Activity and Buffer Capacity of. A. P. Black and Edward Bartow..... 261	
Tartar Emetic on Leaf and Fruit Surfaces. Semiquantitative Microanalysis. Donald Starr..... 519		Oxygen Dissolved in, Determination of. G. A. Perley..... 240	
Teeth. Dentifrice Abrasives Tested. M. L. Smith..... 155		Redistillation, Constant-Level Still for. D. A. Wilson and H. S. Strickler..... 636	
Tellurium and Copper Groups Separated on Micro Scale. B. S. Alstodt and A. A. Benedetti-Pichler..... 294		Solids Dissolved in, Determined by Electrical Conductivity. H. Gustafson and A. S. Behrman..... 355	
Tellurium Detected, Estimated, and Separated by Mercurous Chloride. G. G. Pierson..... 86		Weights, Calibration of. Ellis Blade..... 499	
Tetraethyllead Determination in Gasoline. George Calingaert and C. M. Gambrell. (Correction, 445)..... 324		Wine. <i>See</i> Beverages.	
Tetraphenylarsonium Chloride as Analytical Reagent. H. H. Willard and G. M. Smith		WOOD	
Iodine Titration..... 186		Ethanolamine Action on Tissue of. L. E. Wise, F. C. Peterson, and W. M. Harlow..... 18	
Mercury, Tin, Cadmium, and Zinc Determination..... 269		Extractives Separated into Simpler Components. E. F. Kurth..... 203	
Rhenium Determination..... 305		Lignin Determination, Effect of Pre-extractions. E. E. Harris and R. L. Mitchell..... 153	
Thallous Carbonate as Acidimetric Standard. Einar Jensen and Baili Nilsen..... 508		ZINC	
Thermometer. <i>See</i> Heat Apparatus.		Amalgam, Reduction by. H. W. Stone and D. N. Hume..... 598	
Thiocyanate for Iron Determination with Hydrogen Peroxide as Oxidant. C. A. Peters, M. M. MacMasters, and C. L. French..... 502		Determination by Potentiometric Titration. D. G. Sturges..... 287	
Thorium Nitrate, Fluorine Microdetermination by Titration with. F. J. McClure..... 171		Determination with Tetraphenylarsonium Chloride. H. H. Willard and G. M. Smith..... 269	
Thyroid, Iodine Determination in. W. W. Hilty and D. T. Wilson..... 637			
TIN			
Antimony Microdetermined in, and in Alloys of. C. W. Anderson Determination with Tetraphenylarsonium Chloride. H. H. Willard and G. M. Smith..... 269			
-Phosphorus Precipitate in Bronze Analysis. Owen Gates and Louis Silverman..... 370			
Tissues, Phenol and Related Compounds Estimated in. Wilhelm Deichmann and E. W. Scott..... 423			
Tissues, Selenium Determined in. R. A. Gortner, Jr., and H. B. Lewis Titanium Pigment Corporation. <i>See</i> National Lead Company.
