

SUBJECT INDEX

INDUSTRIAL AND ENGINEERING CHEMISTRY

ANALYTICAL EDITION

VOLUME 12—1940

A

- Abrasion of Dentifrices, Machine for Testing. R. W. Smith.....
 Absorptiometer, Thermoelectric, for Analytical Work. H. H. Willard and G. H. Ayres.....
 Absorption Tubes for Microcombustions. A. N. Prater.....
 Acetone-Ether for Glass Drying. A. E. Markham.....
 Acetone-Petroleum Ether for Continuous Extraction of Aqueous Solutions. M. Wayman and G. F. Wright.....
 Acetylene Microanalysis in Gases. F. E. Blacet, A. L. Sellers, and W. J. Blaedel.....
ACIDS
 Aliphatic, Analysis of Mixtures of. S. T. Schicktanz, W. I. Steele, and A. C. Blaisdell.....
 Fatty. Methyl Esters of Higher Acids Separated by Fractional Distillation. F. W. Wyman and Chas. Barkenbus.....
 Organic, Salts of. Microdetermination of Equivalent Weights by Electrolysis. K. H. Dittmer and R. G. Gustavson.....
 from Petroleum of Texas. Separation and Characterization. H. G. Schutze, Billie Shive, and H. L. Lochte.....
(See also kind of acid.)
AGITATORS
 Shaker, Magnetic. S. Kiyomizu.....
 Stirrer of Glass with Ball Valve. Silvester Liotta.....
 Stirrer, Vapor-Proof, for Laboratory. George Calingaert.....
 Stirring Motor, Electric, for Laboratory. E. B. Hershberg.....
Agricultural Wastes, Fibrous, Cellulose Determination in. J. D. Reid, G. H. Nelson, and S. I. Aronovsky.....
AIR
 Analysis. Aspirating Unit for Collection of Samples. Leslie Silverman and W. B. Wardlow.....
 Aromatics Detected in, by Micromethod. G. R. Gilbert and R. E. Tannich. (Correspondence, 767).....
 Carbon Disulfide Microdetermination in, by Copper and Diethylamine in 2-Methoxyethanol. F. F. Morehead.....
 Determination in Citrus Juices. H. J. Loeffler.....
ALCOHOLS
 Alcoholic Hydroxyl Group Identified by Nitroso and Perchlorato Cerate Anions. F. R. Duke and G. F. Smith.....
 Identification by Optical Properties of Esters of Carbanilic Acid. B. T. Dewey and N. F. Witt.....
 Poly-, Determined in Presence of Each Other by Quantitative Method. Nelson Allen, H. Y. Charbonnier, and R. M. Coleman.....
 Polyhydric, Microscopic Identification of. J. A. Quense and W. M. Dehn.....
Aliphatic Acids. *See* Acids.
 Alkalies Extracted from Rocks. Modification of J. Lawrence Smith Extraction, Using Barium Chloride as Flux. R. E. Stevens.....
 Alkalies. Weighing Flask for Precision Standardization of Strong Alkalies in Absence of Carbon Dioxide. Paul Nahinsky and H. A. Latinen.....
 Alkaline Solutions, Determination of Sulfide Sulfur in, When Containing Other Sulfur Compounds (Correspondence). J. B. Lewis.....
 Aluminum, Cadmium Separated from Zinc by Granular Form of. F. E. Townsend and G. N. Cade, Jr.....
 Aluminum Microdetermination by Photometric Fluorescence Measurement. C. E. White and C. S. Lowe.....
 Amides, Primary Aliphatic, Identified as Oxalates. C. A. MacKenzie and W. T. Rawles.....
 2-Aminoethanol. *See* Ethanolamine.
 α -Aminophenol Estimation in p -Aminophenol by Fluorescence Analysis. William Seaman, A. R. Norton, and O. E. Sundberg.....
 Ammonia Titration in Presence of Boric Acid in Macro-, Semimicro-, and Micro-Kjeldahl Procedures. E. C. Wagner.....
 Aniline Points of Butane Hydrocarbons. C. G. Ludeman.....
 Aniline-Water Solutions, Analysis of. John Griswold.....
 Animal Tissues, Chemical Constituents Localized in, by Microelectrographic Method. Herman Yagoda.....
 Apparatus of American Origin. A Review. R. H. Müller.....
ARCS
 Alternating Current High-Voltage Arc Circuit for Quantitative Spectrochemical Analysis of Dilute Solutions. A. E. Ruehle and E. K. Jaycox.....
 of Iron for Spectrochemical Analysis. Morris Slavin.....
 for Spectrographic Qualitative Analysis, with Graphite Electrodes. W. C. Pierce, O. R. Torres, and W. W. Marshall.....
 Aromatics Detected in Air by Micromethod. G. R. Gilbert and R. E. Tannich. (Correspondence, 767).....
ARSENIC
 Estimation in Copper. Bartholow Park.....
 Microdetermination in Biological Materials by Colorimetric Method. A. L. Chaney and H. J. Magnuson.....
 Microdetermination by Cerimetric Method after Reduction with Hypophosphite. I. M. Kolthoff and Elias Amdur.....
 Asbestos for Filtering Mats, Preparation of. B. L. Kaspin.....
 Ash Microdetermination in Organic Compounds by Technique with Automatic Combustion. A. R. Norton, G. L. Royer, and R. Koegel.....
 Asphalt Gloss- and Stain Meter. A. P. Anderson and T. E. Reamer.....
 Asphaltic Liquid Products, Kinematic Viscometer for. A. P. Anderson, K. A. Wright, and R. L. Griffin.....
 Aspirating Unit for Collecting Air Samples. Leslie Silverman and W. B. Wardlow.....
 Aspirator Pump, Portable. R. C. Hockett.....

	B
419	Barium, Identification Limits of Simple Confirmatory Test for. A. A. Benedetti-Pichler and J. R. Rachele.....
287	Base-Exchange Capacity of Soils and Other Materials Determined by Colorimetric Manganese Method. C. A. Bower and Emil Truong.....
184	Benzene Microanalysis in Gases. F. E. Blacet, A. L. Sellers, and W. J. Blaedel.....
748	α -Benzoin Oxime for Copper Determination in Ferromolybdenum, Calcium Molybdate, etc. Louis Silverman.....
91	Beryllium Determination in Silicates. E. B. Sandell.....
356	Beryllium Microdetermination with Morin. E. B. Sandell.....
	BIOLOGICAL MATERIAL
320	Arsenic Microdetermination in, by Colorimetric Method. A. L. Chaney and H. J. Magnuson.....
658	Nitrogen Fixation by, Direct Estimation of. Charles Hurwitz and P. W. Wilson.....
297	Sodium Microdetermination in Fluids. M. C. Darnell, Jr., and B. S. Walker.....
262	<i>(See also kind of biological material.)</i> Bismuth Precipitation with Salicylaldoxime. J. F. Flagg and N. H. Furman.....
174	BLOOD
173	Iodine Microdetermination in, by Improved Method. A. L. Chaney.....
51	Lactic Acid Microdetermination in. Samuel Elgart and J. S. Harris.....
293	Lead Determination in, by Colorimetric Diphenylcarbazide Method. T. V. Letonoff and J. G. Reinhold.....
255	Boiler Scale. <i>See</i> Water.
682	Bomb for Chlorine Microdetermination in Organic Compounds by Lime-Fusion Method. W. M. MacNevin and W. H. Baxley.....
433	Bomb. Phosphorus Determination in Linseed Oil by Oxygen Bomb. G. T. Piercy, E. K. Plant, and M. C. Rogers.....
373	Boric Acid, Ammonia Titration in Presence of, in Macro-, Semimicro-, and Micro-Kjeldahl Procedures. E. C. Wagner.....
533	Boron Determination in Plant Material. Ignition-Electrometric Titration Method. L. V. Wilcox.....
201	Brass Plating Solutions, Sodium Cyanide Analysis in. W. M. McNabb and Samuel Heiman.....
459	Bread, Iron Content of Bread Ingredients and. Charles Hoffman, T. R. Schweitzer, and Gaston Dalby.....
384	Bromide Detection by Systematic Method. David Hart and Robert Meyrowitz.....
556	Bromine, Unsaturation in Aliphatic Hydrocarbon Mixtures Determined by Absorption with. J. B. Lewis and R. B. Bradstreet.....
413	Büchner Funnel. <i>See</i> Funnel. Buret of Weight Type, Locknut for. Martin Kilpatrick.....
417	Butane Hydrocarbons, Critical Solution Temperatures and Aniline Points of. C. G. Ludeman.....
	C
535	Cadmium Separated from Zinc by Granular Aluminum. F. E. Townsend and G. N. Cade, Jr.....
163	Calcium Submicroestimation by Quantitative Method. A. E. Sobel and I. A. Kaye. (Correction, 311).....
229	Calcium Molybdate, Copper Determination in, by α -Benzoin Oxime. Louis Silverman.....
737	Calcium Phosphate, Di-, as Adsorbent in Carotene Determination in Plant Material. L. A. Moore.....
403	Carbanilic Acid Esters, Alcohol Identification by Optical Properties of. B. T. Dewey and N. F. Witt.....
771	Carbohydrates, Carotene Determination Affected by. E. J. Lease and J. H. Mitchell.....
446	CARBON MICRODETERMINATION
89	with Abrahamczik Absorption Tubes. R. O. Clark and G. H. Stillson.....
698	by Combustion. Modified Method. G. L. Royer, A. R. Norton, and O. E. Sundberg.....
571	in Organic Compounds by Wet Method. E. F. Degering and T. Z. Ball.....
260	in Organic Materials. B. E. Christensen, Robert Wong, and J. F. Facer.....
131	Semi-, in Aliphatic and Cyclic Compounds by Gas-Volumetric Method. E. Berl and W. Koerber.....
41	Semi-, in Organic Compounds, Apparatus for. Carl Niemann and Vance Danford.....
433	Carbon Blacks for Rubber Evaluated by X-Ray Diffraction. G. L. Clark and H. D. Rhodes.....
97	Carbon Dioxide, Generator for, in Pure State. W. H. Rauscher.....
691	Carbon Dioxide, Solid, Atmospheric Oxidation Prevented by. G. E. Ferguson and Leopold Scheffan.....
177	Carbon Disulfide Microdetermination in Air by Copper and Diethylamine in 2-Methoxyethanol. F. F. Morehead.....
517	Carbon Monoxide Determination by Pyrogallic-Tannic Acid Method as Adapted to Standard Gas Analysis Equipment. Fred Cook.....
121	Carius Method, Furnace for Microdeterminations by. J. A. Kuck and Maurice Griffel.....
423	Carius Method, Halogen and Sulfur Microdeterminations by. J. B. Niederl, H. Baum, J. S. McCoy, and J. A. Kuck.....
466	CAROTENE
682	Adsorption by Magnesia. G. S. Fraps, A. R. Kemmerer, and S. M. Greenberg.....

Determination			
Carbohydrate Effect on.	E. J. Lease and J. H. Mitchell	337	
in Plant Material. Dicalcium Phosphate as Adsorbent.	L. A. Moore	726	
in Plant Tissue.	H. G. Petering, W. Wolman, and R. P. Hibbard	148	
Carotenoid Pigments, Melting Point Determination of, by Microscope Hot Stage.	F. P. Zscheile and J. W. White, Jr.	436	
Castor Oil. Wijs Iodine Numbers for Conjugated Double Bonds.	W. C. Forbes and H. A. Neville	72	
Catalysts. Feed Device with Precise Scale for Catalytic Experiments.	R. L. Burwell, Jr.	681	
Catalytic Development Company, Houdry Laboratories of.	H. P. Broome	778	
CELLULOSE		151	
Cotton Degradation Measurement in Dimethyl Dibenzyl Ammonium Hydroxide.	W. W. Russell and N. T. Woodberry	255	
Determination in Agricultural Wastes with Monoethanolamine.	J. D. Reid, G. H. Nelson, and S. I. Aronovsky	390	
Moisture Determination in, by Titrimetric Method Using Karl Fischer Reagent.	John Mitchell, Jr.	492	
Cement Determination in Dust Samples by Microscopic Method.	I. A. Pearl	138	
Cement, Silica and R_2O ; Determined in.	L. R. Dawson and R. V. Andes	754	
Centrifuge Cooling Unit.	H. L. Wunderly and L. S. Smelio	151	
CERATE		255	
Nitrate and Perchlorato, as Test Reagents in Rapid Test for Alcoholic Hydroxyl Group.	F. R. Duke and G. F. Smith	390	
Oxidimetry. Electrolytic Oxidation of Cerium without Diaphragm Cell.	G. F. Smith, Gerald Frank, and A. E. Kott	492	
Oxidimetry. Preparation and Stability of Solutions.	G. F. Smith and C. A. Getz	182	
CERIC SULFATE		492	
Arsenite Microdetermination with, after Reduction with Hypophosphite.	I. M. Kolthoff and Elias Amdur	201	
Glycerol Determination by Oxidation with, in Fermentation Media Containing Dextrose.	E. I. Fulmer, R. J. Hickey, and L. A. Underkofer	268	
in Potassium Microdetermination by Cobaltinitrite, Evaluation of.	Bernard Klein and Mendel Jacobi	339	
in Potassium Microdetermination by Cobaltinitrite, Iodometric Evaluation of.	I. A. Kaye	177	
CHARTS		729	
Nomograph for Lactometer Correction, and Calculation of Milk Solids.	L. M. Lampert	687	
Tie Lines in Ternary Liquid Systems.	Irvin Bachman	310	
Tie Lines in Two-Liquid-Phase Systems.	A. V. Brancker, T. G. Hunter, and A. W. Nash	527	
Chemicals, Analytical Reagent, Recommended Specifications for.	A. C. S. Committee, W. D. Collins, Chairman	38	
Chloride Detection by Systematic Method.	David Hart and Robert Meyrowitz	527	
Chloride Pattern in Plant and Animal Tissues Localized.	Microelectrographic Method.	38	
Herman Yagoda		527	
Chlorine Determination in Water by Iodine- α -Naphthoflavone Adsorption Reaction.	F. J. Hallinan	35	
Chlorine Microdetermination in Organic Compounds with Bomb, by Lime-Fusion Method.	W. M. MacNevin and W. H. Baxley	631	
Chlorophyll Determination in Plant Tissue.	H. G. Petering, W. Wolman, and R. P. Hibbard	318	
Chromium Determination in Steels of 18-8 Alloy Type. Rapid Sequence Titration with Manganese and Nickel.	Louis Silverman and Owen Gates	698	
Citrus Juices, Air Determination in.	H. J. Loeffler	452	
COAL		698	
Carbon Content of Aliphatic and Cyclic Compounds from.	Gas-Volumetric Semimicrodetermination.	452	
Hydrogenation Products.	Microdetermination of Saturated Aliphatic, Aromatic, and Hydroaromatic Hydrocarbons of Cyclohexane Series.	527	
Sulfur Determination in.	H. L. Brunjes and M. J. Manning	35	
Coal Tar.	See Tar	518	
Cobalt Determination with β -Nitroso- α -Naphthol by Colorimetric Method.	J. H. Yoe and C. J. Barton	533	
COBALTINITRITE FOR POTASSIUM DETERMINATION		245	
Micromethod with Ceric Sulfate.	Bernard Klein and Mendel Jacobi	687	
Micromethod with Ceric Sulfate. Iodometric Evaluation of Precipitate.	I. A. Kaye	310	
in Water as Potassium-Sodium Cobaltinitrite Precipitate.	R. J. Robinson and J. D. Hauschildt	676	
Cod Liver Oil, Vitamin A Potency of, Estimated by Spectrographic Method.	R. L. McFarlan, P. K. Bates, and E. C. Merrill	645	
Coke, Sulfur Determination in.	H. L. Brunjes and M. J. Manning	718	
Colorimetry. Absorptiometer of Thermoelectric Type for Analytical Work.	H. H. Willard and G. H. Ayres	287	
Colorimetry. Two-Component Color System Analyzed.	H. W. Knudson, V. W. Meloche, and Chancy Juday	715	
Columns.	See Distillation	473	
Combustion Boat Tongs, New Design of.	H. F. Priest	604	
Controllers, Automatic.	A Review.	754	
Cooling Unit for Centrifuge.	H. L. Wunderly and L. S. Smelio	614	
Coordinating Measuring Instruments and Apparatus. A Review.	R. H. Müller	614	
COPPER		97	
Arsenic Estimation in.	Bartholow Park	97	
Determination		97	
in Dyes and Other Organic Materials.	G. F. Palfrey, R. H. Hobert, A. F. Benning, and I. W. Dobratz	94	
in Ferromolybdenum, Calcium Molybdate, etc., by α -Benzoin Oxime.	Louis Silverman	343	
by Iodofluoride Method.	Effects of Antimony, Aluminum, and Calcium.	147	
W. R. Crowell and A. T. Spiker		155	
by Silver Reductor.	Nathan Birnbaum and S. M. Edmonds	736	
in Steel by Electrolytic Method.	H. A. Frediani and C. H. Hale	456	
with Triethanolamine by Colorimetric Method.	J. H. Yoe and C. J. Barton	431	
Microdetermination by Electrolytic Method, Precision of.	W. M. MacNevin and R. A. Bourne	695	
Microdetermination in Mineral Oils.	Titrimetric Extraction, Using Dithizone.	431	
Corrosion Tests of Naphtha Affected by Presence of Sulfur and Sulfur Compounds.	A. G. Assaf and W. C. Hollibaugh	695	
Corrosion Tests of Naphtha Affected by Presence of Sulfur and Sulfur Compounds.	L. M. Henderson, M. S. Agruss, and G. W. Ayers, Jr.	1	
Cotton Cellulose Degradation Measurement in Dimethyl Dibenzyl Ammonium Hydroxide.	W. W. Russell and N. T. Woodberry	151	
Cottonseed Oil, Gossypol Determination in.	H. D. Royce, J. R. Harrison, and P. D. Deans	741	
Crucible of Magnesite, Improved.	W. J. Crook, J. R. Cunningham, and J. R. Cadby	48	
Cryostat. Sea Temperature.		317	
Crystallization, Hot Simple Method for.	J. W. Dawson and W. M. Dehn	773	
Crystallization.	Microapparatus for Fractional Recrystallization.	773	
L. C. Craig		175	
Cyclohexane Hydrocarbons.	Microdetermination of Saturated Aliphatic, Aromatic, and Hydroaromatic Hydrocarbons.	175	
E. Berl and W. Koerber		177	
Cyclopentane Hydrocarbons.	Dehydrogenation and Nitration by Micromethod.	177	
E. Berl and Regis Raab		177	
D			
Densitometer, Micro-, with Photoelectric Cell.	M. Spiegel-Adolf and R. H. Peckham	182	
Density.	See Specific Gravity	419	
Defritice Abrasion, Machine for Testing.	R. W. Smith	205	
Derris, Rotenone Determination in.	T. M. Meijer and D. R. Koehlaas	151	
Dicalcium Phosphate.	See Calcium Phosphate	151	
2,6-Dichlorobenzeneindophenol.	See Indophenol	768	
Dihydrophenone.	See Rotenone	280	
Dimethyl Dibenzyl Ammonium Hydroxide (Triton F).	Cotton Fluidity in.	151	
Di- β -Naphthylthiocarbazone for Mercury Microdetermination in Urine by Photometric Method.	D. M. Hubbard	768	
Diphenylcarbazide for Lead Determination in Blood, Tissues, and Excreta by Colorimetric Method.	T. V. Letonoff and J. G. Reinhold	280	
Dipicyramine, Potassium Determination by, in Photometric Method.	Elias Amdur	731	
DISTILLATION		151	
Columns		544	
of High Efficiency and Low Holdup for Laboratory.	M. L. Selker, R. E. Burk, and H. P. Lankelma	544	
Packing of Spiral Screen Type for Efficient Laboratory Fractionations.	H. S. Lecky and R. H. Ewell	745	
Rectification, for Chemical Engineering Laboratory.	J. R. Huffman and R. E. Treybal	468	
of Spinning-Band Type for Fractionating Small Quantities of Liquids.	R. H. Baker, Chas. Barkenbus, and C. A. Roswell	658	
Fatty-Acid Methyl Esters Separated by.	F. W. Wyman and Chas. Barkenbus	483	
Flask, Constant Levels Maintained in.	F. E. Holmes	274	
Pressure Regulator for Vacuum Distillation.	M. S. Newman	329	
Receiver with Jacket, for Vacuum Distillation.	J. B. Cloke (Correspondence, 744)	174	
Stills		348	
of Glass with Automatic Float Feed.	G. F. Liebig, Jr.	509	
of Molecular or Short-Path Type for Vegetable and Animal Fats and Oils.	S. B. Detwiler, Jr., and K. S. Markley	695	
for Water Distillation in Metal-Free State.	J. S. McHargue and E. B. Offutt	63	
of Water, Glycerol Effect on.	R. B. Trusler	1	
Dithizone for Copper Microdetermination in Mineral Oils.	A. G. A. ssaf and W. C. Hollibaugh	157	
Dithizone, Lead and Thallium Traces Estimated in Pharmaceutical Chemicals by.	Karl Bambach	509	
Doctor Test of Naphthas.	Effect of Sulfur and Sulfur Compounds on.	695	
L. M. Henderson, M. S. Agruss, and G. W. Ayers, Jr.		63	
Dry Ice.	See Carbon Dioxide, Solid	45	
Drying Rates, Apparatus for Study of.	Continual Observation of Changes in Weight at Oven Temperatures.	45	
A. C. Beckel and A. G. Sharp		492	
Dumas Method.	See Nitrogen	277	
Dust, Cement Determination in, by Microscopic Method.	I. A. Pearl	942	
Dye Adsorption by Colloidal Ferrie Oxide as Gage of Adsorption Power.	F. H. Dotterweich with W. J. Huff	94	
Dyes, Copper and Manganese Determined in.	G. F. Palfrey, R. H. Hobert, A. F. Benning, and I. W. Dobratz	94	
E			
Ehrlich's Reaction.	See Indole	584	
Electrical Instruments, A Review.	R. H. Müller	171	
Electrodes, Dropping, Mercury Constant Head on.	E. F. Mueller	275	
Electrodes, Dropping, in Spectrographic Analysis by Solution Method.	R. J. Keirs and D. T. Englis	485	
Electrometer of Vacuum Tube Type, and Universal pH Meter.	F. M. Goyan, C. L. Barnes, and H. W. Hind	584	
Electronic Instruments, A Review.	R. H. Müller	757	
Electronic Relay.	C. E. Rudy, Jr., and Paul Fugassi	703	
Electrophoresis Cell, Micro-, of Pyrex Glass.	D. R. Briggs	226	
Emrich, Friedrich.	Founder of Microchemistry.	A. A. Benedetti-Pichler	
Emulsifying Efficiency, Determination of.	L. H. Cohan and Norman Hackerman	210	
Enamel, Black, Analysis of.	S. E. Berkenblit	453	
(See also Paint.)			
Esters, Methyl, of Higher Fatty Acids Separated by Fractional Distillation.	F. W. Wyman and Chas. Barkenbus	658	
Ethanolamine (2-Aminoethanol) Identification.	Bernhard Keiser	284	
Ether-Acetone for Glass Drying.	A. E. Markham	748	
Ethyl Gasoline Corporation, Chemical Research Laboratory of.	H. A. Beatty	185	
Ethyl Vanillin Determination in Vanilla Extract.	H. W. Chenoweth	98	
Ethylene Glycol Determination in Lubricating Oil.	H. Lamprey, E. E. Sommer, and A. D. Kiffer	526	
Ethylene Glycol Determination in Presence of Glycerol.	Nelson Allen, H. Y. Charbonnier, and R. M. Coleman	384	
Excrement, Lead Determination in, by Colorimetric Diphenylcarbazide Method.	T. V. Letonoff and J. G. Reinhold	280	
Extraction Tube of Rohrig Type, Modification of.	C. W. Sullens and W. Rankin	291	
Extractor for Fluids in Laboratory.	G. W. Irving, Jr., and T. W. Loring	548	

F

- FATS
 Commercial. Analyses Recommended. A. C. S. Committee, V. C. Mehlenbacher, Chairman.....
 Filter Aids for. A. L. Olsen.....
 Vegetable and Animal, Molecular or Short-Path Still for. S. B. Detwiler, Jr., and K. S. Markley.....
 Fatty Acids, Higher. Methyl Esters Separated by Fractional Distillation. F. W. Wyman and Chas. Barkebus.....
 Feeding Device for Catalytic Experiments, with Precise Scale. R. L. Burwell, Jr.....
 Feedstuffs, Iodine Microdetermination in, by Improved Apparatus. F. X. Gassner.....
 Feldspar, Quartz Determination in. G. H. McIntyre and M. Bozsin Ferric Oxide, Colloidal, Adsorption Power Gaged by Dye Adsorption. F. H. Dotterweich with W. J. Huff.....
 Ferric Sulfate, Kjeldahl Digestion Time Shortened by Use of. F. M. Stubblefield and E. E. DeTurk.....
 Ferrocyanide Ion, Microidentification of. W. C. Oelke.....
 Ferromolybdenum, Copper Determination in, by α -Benzoin Oxime. Louis Silverman.....
 Fertilizer. Acidity or Basicity Equivalents Determined by Routine Method. E. W. Constable.....
 Fiber, Crude, Determination of. Potassium Sulfate as Filtration Aid. A. M. Neubert, Fred VanAmburgh, and J. L. St. John.....
FILTRATION APPARATUS
 Aids for Fat Filtration. A. L. Olsen.....
 Funnel, Büchner, for Organic Qualitative Analysis. C. A. Roswell for Hot Saturated Solutions. J. W. Dawson and W. M. Dehn.....
 Mats, Asbestos Prepared for. B. L. Kaspin.....
 with Motor Attachment. J. F. King and H. F. Priest.....
 Pressure Filter of Leaf Type for Laboratory. T. F. Clark, N. Porges, and S. I. Aronovsky.....
 of Suction Type for Sampling Filtrates under Constant Pressure. E. T. Fukunaga and L. A. Dean.....
 Fischer Reagent. See Water.
 Fish Liver Oils. Vitamin A Assay with Photoelectric Colorimeter. R. B. French.....
 Fish Liver Oils. Vitamin A Determination by Spectrophotometry. D. T. Ewing, J. M. Vandembelt, A. D. Emmett, and O. D. Bird.....
 Flask, Volumetric, of 10-Liter Capacity. F. J. Reithel.....
 Flow Divider for Gases. J. H. Bruun.....
 Flow Regulator, Automatic, for Constant Low Gas Flows. Leslie Silverman.....
 Flowmeter, Capillary. H. N. Alyea.....
 Fluid Extractor for Laboratory. G. W. Irving, Jr., and T. W. Long.....
 Fluorine Determination by Amperometric Titration with Thorium Nitrate. Alois Langer.....
 Food. Iron Microdetermination in Liquid Products. H. L. Roberts, C. L. Beardsley, and L. V. Taylor, Jr.....
 Formaldoxime for Manganese Determination by Colorimetric Micro-method. C. P. Sideris.....
 Fractionation. See Distillation
 Funnel, Büchner, for Organic Qualitative Analysis. C. A. Roswell
FURFURAL
 Determination by Photocolorimetric Method. R. A. Stillings and B. L. Browning.....
 Microdetermination from Pentose-Acid Reactions. R. E. Reeves and Jackson Munro.....
 Recovery from Aqueous Solutions. Floyd Trimble and A. P. Dunlop.....
 Furnace, Electric, of High-Temperature Resistance Type for Laboratory. W. M. Hazel and W. J. O'Leary.....
 Furnace for Micro-Carius Determination. J. A. Kuck and Maurice Griffel.....

G

- Galvanometer Oscillations Reduced by Condenser, in Polarographic Measurements. J. J. Lingane and Herbert Kerlinger.....
GASES
 Apparatus and Instruments for Measurement and Control of. R. H. Müller.....
 Evolved-Gas Measurement by Continuous Automatic Apparatus. M. L. Crossley, R. H. Kienle, and C. H. Benbrook.....
 Flow Divider for. J. H. Bruun.....
 Flow Regulator for Maintaining Constant Low Flows. Leslie Silverman.....
 Gasometer for Micro-Dumas Determinations. J. G. Sandza and J. F. Alicoine.....
 Microanalysis. Acetylene, Benzene, and Some Procedure Modifications. F. E. Blacet, A. L. Sellers, and W. J. Blaedel.....
 Saturator in Compact Form. A. E. Markham.....
 Saturator of High Versatility for. W. R. Rinelli and K. S. Willson.....
 Sulfur, Organic, Determined in Combustible Gas. F. M. Rogers and R. F. Baldaste.....
 Tanks, Portable, for Gas under Low Pressure. G. R. Robertson.....
 Gelatin-Silver Photographic Paper as Reagent in Spot Analysis. G. Schwarz.....
 General Foods Corporation, Research and Development Laboratories of. T. M. Rector.....
GLASS
 Apparatus and Instruments. A Review. R. H. Müller.....
 Cleaning with Wetting Agents. W. H. White.....
 Drying with Acetone-Ether Mixtures. A. E. Markham.....
 Electrophoresis Cell, Micro-, of Pyrex. D. R. Briggs.....
 Powdering, Mortar and Pestle for. H. L. Wunderly.....
 Spheres, Microscopic, Preparation of. C. R. Bloomquist and A. Clark.....
 Static Charges on, Removed by Ultraviolet Light. C. J. Rodden. (Correction, 775).
 Still with Automatic Float Feed. G. F. Liebig, Jr.....
 Stirrer with Ball Valve. Silvester Liotta.....
 Sulfur Removal from. H. S. Wilson.....
 Tubing, Hot Wire Cutter for. A. A. Hirsch.....
GLOSS MEASUREMENT
 of Asphalt, Meter for. A. P. Anderson and T. E. Reamer.....
 of Paint. L. A. Wetlauer and W. E. Scott.....
 of Paint. Meter for Distinctness-of-Image Measurement. R. J. Myers.....
 Glutamine Determination in Plant Tissues. G. W. Pucher and H. B. Vickery.....

GLYCEROL

- Determination by Oxidation with Ceric Sulfate in Fermentation Media Containing Dextrose. E. I. Fulmer, R. J. Hickey, and L. A. Underkofer.....
 Determination in Presence of Ethylene Glycol. Nelson Allen, H. Y. Charbonnier, and R. M. Coleman.....
 Effect on Water Determination by Distillation Method. R. B. Trusler.....
 Gossypol Determination in Cottonseed Oil. H. D. Royce, J. R. Harrison, and P. D. Deans.....
 Grease. See Lubricants.
 Grignard Reagent for Hydrogen Microdetermination by Gravimetric Method. Application to Analysis of Impregnated Paper Insulating Tapes. R. N. Evans, J. E. Davenport, and A. J. Revukas.....
 Grignard Reagent for Hydroxyl Determination. Walter Fuchs, N. H. Ishler, and A. G. Sandhoff.....

H

- Halogen Microdetermination by Carius Method. J. B. Niedler, H. Baum, J. S. McCoy, and J. A. Kuck.....
 HEAT APPARATUS
 Control Units. J. A. Riddick.....
 Electric Flask Heater with High Output. H. A. Krantz and R. W. Hufferd. (See also Temperature.)
 Houdry Laboratories. See Catalytic Development Company.
HYDROCARBONS
 Aliphatic
 Acids, Analysis of Mixtures of. S. T. Schicktanz, W. I. Steele, and A. C. Blaisdell.....
 and Cyclic. Carbon Semimicrodetermination in, by Gas-Volumetric Wet Method. E. Berl and W. Koerber.....
 Unsaturation Determined in, by Bromine Absorption. J. B. Lewis and R. B. Bradstreet.....
 Aromatic, Detection of, in Air by Micromethod. G. R. Gilbert and R. E. Tannich. (Correspondence, 767).
 of Butane Series, Critical Solution Temperatures and Aniline Points of. C. G. Ludeman.....
 of Cyclohexane Series. Microdetermination of Saturated Aliphatic, Aromatic, and Hydroaromatic Compounds. E. Berl and W. Koerber.....
 of Cyclopentane Series. Dehydrogenation and Nitration by Micromethod. E. Berl and Regis Raab.....
 Paraffinic Mixtures Analyzed by Raman Spectra. A. V. Grosse, E. J. Rosenbaum, and H. F. Jacobson.....
 Paraffins, Primary Mononitro-, Determined Colorimetrically. E. W. Scott and J. F. Treon.....
 (See also Organic Compounds, Petroleum, and kind of hydrocarbon.)

HYDROGEN

- Determination as Exchangeable Hydrogen in Unsaturated Soils, by Potentiometric Method. K. A. Maehl.....
 Microdetermination with Abrahamczik Absorption Tubes. R. O. Clark and G. H. Stillson.....
 in Active Form by Gravimetric Method Using Grignard Reagent. Application to Analysis of Impregnated Paper Insulating Tapes. R. N. Evans, J. E. Davenport, and A. J. Revukas.....
 by Combustion. Modified Method. G. L. Royer, A. R. Norton, and O. E. Sundberg.....
 Semi-, in Organic Compounds, Apparatus for. Carl Niemann and Vance Danford.....
 Hydrogen-Ion Concentration. Patent Blue V as pH Indicator (Correction). J. H. Yoe and G. R. Boyd, Jr.....
 Hydrogen-Ion Concentration. pH Meter and Vacuum Tube Electrolyzer. F. M. Goyan, C. L. Barnes, and H. W. Hind.....
 Hydrogen Peroxide. See Peroxide.
 Hydrogen Sulfide Determination in Gases and Aqueous Solutions. J. A. Shaw.....
 Hydrogenation Apparatus, Micro-. A. N. Prater and A. J. Haagen-Smit.....
 Hydroxyl, Alcoholic, Nitrate and Perchlorato Cerate Anions as Test Reagents for. F. R. Duke and G. F. Smith.....
 Hydroxyl Determination with Grignard Reagent. Walter Fuchs, N. H. Ishler, and A. G. Sandhoff.....
 Hypophosphite, Arsenic Microdetermination by Cerimetric Method after Reduction with. I. M. Kolthoff and Elias Amdur.....

I

- Indium Microdetermination. G. L. Royer.....
 Indole Determined Quantitatively by Modification of Ehrlich's Reaction. L. H. Chernoff.....
 Indophenol, 2,6-Dichlorobenzene-, Solutions Prepared in Stable Form. Irwin Stone.....
 Inhalation, Nebulizer for Experiments on. R. J. Main.....
 Inoculation Procedure, Simplified. T. L. Black and Aaron Arnold.....
 Instruments and Instrumentation, of American Origin. A Review. R. H. Müller.....
 Insulation for Cables. Hydrogen Microdetermination in Impregnated Paper Tapes by Gravimetric Method with Grignard Reagent. R. N. Evans, J. E. Davenport, and A. J. Revukas.....
IODINE
 Detection by Systematic Method. David Hart and Robert Meyrowitz.....
 Microdetermination. Oxidation-Reduction Reaction Catalyzed by Iodine. David Hart and Robert Meyrowitz. -Starch Method of Ozone Analysis. C. E. Thorp.....
 Iodine Determination in Thyroid. Elimination of Uncertain End Point and Blank in U. S. P. XI Assay. R. S. Burnett and R. F. Warlow.....
 Microdetermination in Blood by Improved Method. A. L. Chaney
 Microdetermination in Feedstuffs, Apparatus for. F. X. Gassner. Wijs Method. J. W. McCutcheon.....
 Wijs Number for Conjugated Double Bonds. W. C. Forbes and H. A. Nevile.....
 Iodofluoride Method for Determination of Copper. Effects of Antimony, Aluminum, and Calcium. W. R. Crowell and A. T. Spiker.....

IRON

- Cast, Molybdenum Determination in. Calvin Sterling and W. P. Spahr.....
 Determination in Bread and Bread Ingredients. Charles Hoffman, T. R. Schweitzer, and Gaston Dalby.....
 Determination with Salicylaldoxime by Colorimetric Spectrophotometric Method. D. E. Howe with M. G. Mellon.....
 Identification Limits of Simple Confirmatory Test for. A. A. Benedetti-Pichler and J. R. Rachele.....
 Microdetermination in Food Products in Liquid Form. H. L. Roberts, C. L. Beardsley, and L. V. Taylor, Jr.
 Microdetermination with Silver Reductor. S. M. Edmonds and Nathan Birnbaum.....
(See also Steel.)

J

Jones Reductor. *See Reductor.*

K

- Kiln, Rotary, Heated Electrically. E. P. Barrett, W. L. Barrett, and P. R. Porath.....
KJELDAHL METHOD
 Ferric Sulfate for Shortening Time of. F. M. Stubblefield and E. E. DeTurk.....
 Micro-, Semimicro-, and Macro-. Titration of Ammonia in Presence of Boric Acid, Using Methyl Red Indicator and Color-Matching End Point. E. C. Wagner.....
 Selenium Effect in. R. B. Bradstreet.....
 for Viscous Liquid Analysis. Flat-Bottomed Microcups as Weighing Bottles and Reaction Vessels. G. E. Ferguson and Leopold Scheffan.....

Sodium Microdetermination in Biological Fluids. M. C. Darnell, Jr., and B. S. Walker.....	242	Tar from Coal. Solvent Action of Liquid Propane on Pentane-Soluble Fraction of High-Temperature Bituminous Coal Tar. C. S. Kuhn, Jr.....	86
Sodium Cyanide Determination in Brass Plating Solutions. W. M. McNabb and Samuel Heiman.....	161	TEMPERATURE	
Sodium Thiosulfate Solution Prepared in Stable Form. J. L. Kassner and E. E. Kassner.....	655	Apparatus and Instruments for Production, Measurement, and Control of. R. H. Müller.....	579
SOIL		Control Units for Heating Elements. J. A. Riddick.....	222
Base-Exchange Capacity Determined in, by Colorimetric Manganese Method. C. A. Bower and Emil Truog.....	411	Cryostat for Maintaining the Range -35° to $+25^{\circ}$ C. Automatically. E. E. Roper.....	113
Organic Phosphorus Determined in. R. W. Pearson.....	198	Low, Production of. H. L. Wikoff, B. R. Cohen, and M. I. Grossman.....	92
Unsaturated, Exchangeable Hydrogen Determined in, by Potentiometric Method. K. A. Maehl.....	24	Low, Thermometer for. A. Farkas and L. Farkas.....	296
Solder. Tin Ion Oxidation Prevented by Solid Carbon Dioxide. G. E. Ferguson and Leopold Scheffan.....	276	Thermocouple Assembling by Fiberglas Sleeving. H. M. Trimble.....	52
Solution Storage, Mercury-Sealed Vessels for. F. E. Holmes.....	425	Ternary Liquid Systems, Tie Lines in. Irvin Bachman.....	38
Specific Gravity Determinations. Reduction of Specific Gravity at $25^{\circ}/25^{\circ}$ C. to Density at Any Temperature from 0° to 40° C. R. R. Dreisbach.....	160	Ternary Systems with Two Liquid Phases, Tie Lines in. A. V. Brancier, T. G. Hunter, and A. W. Nash.....	35
Specific Gravity Microdetermination for Organic Compounds. H. K. Alter.....	764	Tetrahydroxyquinone in Sulfate Determination. Effect of Sodium Sulfite and Procedure for Its Elimination. H. L. Kahler.....	266
Specifications for Fat and Oil Analysis. A. C. S. Committee, V. C. Mehlbacher, Chairman.....	379	Tetrahydroxyquinone in Sulfate Microdetermination, from Combustion of Organic Compounds. L. T. Hallett and J. W. Kuipers.....	360
Specifications for Reagent Analytical Chemicals. A. C. S. Committee, W. D. Collins, Chairman.....	631	Thallium Estimation in Pharmaceutical Chemicals by Dithizone Limit Test. Karl Bambach.....	63
Spectra, Raman, for Paraffin Identification in Mixtures. A. V. Grosse, E. J. Rosenbaum, and H. F. Jacobson.....	191	Thermionic Relays. <i>See</i> Relays.	
SPECTROGRAPHY		Thermocouple. <i>See</i> Temperature.	
Graphite-Electrode Arc for Qualitative Analysis. W. C. Pierce, O. R. Torres, and W. W. Marshall.....	41	Thermometer. <i>See</i> Temperature.	
Iron Arc as Standard Source for Analysis in. Morris Slavin.....	131	Thiocyanate Detection by Systematic Method. David Hart and Robert Meyrowitz.....	318
for Quantitative Analysis of Dilute Solutions. Safe Alternating Current High-Voltage Arc Circuit. A. E. Ruehle and E. K. Jaycox.....	260	Thionalide, Ruthenium Microdetermination by. W. J. Rogers, F. E. Beamish, and D. S. Russell.....	561
Quantitative Analysis by Measurement of Relative Intensities. E. K. Jaycox and A. E. Ruehle.....	195	Thorium Nitrate, Fluorine Determination by Amperometric Titration with. Alois Langer.....	511
Solution Method of Analysis Utilizing a Dropping Electrode. R. J. Keirs and D. T. Englisch.....	275	Thyroid, Iodine Determination in. Elimination of Uncertain End Point and Blank in U. S. P. XI Assay. R. S. Burnett and R. F. Warkow.....	734
Spectrophotometer, Abridged, with Wedge of Neutral Glass. P. A. Clifford and B. A. Brice.....	218	Tie Lines. <i>See</i> Charts.	
Spectrophotometer, Photoelectric, of Null Type. C. J. Barton and J. H. Yoe.....	166	Time, Apparatus and Instruments for Measurement of. R. H. Müller.....	577
Spheres, Microscopic Glass, Preparation of. C. R. Bloomquist and A. Clark.....	61	Tissues, Lead Determination in, by Colorimetric Diphenylcarbazide Method. T. V. Letonoff and J. G. Reinhold.....	280
Spot Analysis, Photographic Silver-Gelatin Paper as Reagent in. G. Schwarz.....	369	Tissues of Plants and Animals, Chemical Constituents Localized in, by Microelectrography Method. Herman Yagoda.....	698
Standard Oil Company of California, New Research Laboratory of. R. A. Halloran.....	312	Titanium Peroxidized Solutions, Stability of. G. H. Ayres and E. M. Vienneau.....	96
STARCH		Titanium Dioxide Evaluation by Reduction Method. Herman Skolnik and W. M. McNabb.....	672
Alkali-Lability Determination of. T. J. Schoch and C. C. Jensen.....	531	Titration Blanks, Computation of. F. W. Glaze.....	14
Determination in Plants. W. Z. Hassid, R. M. McCready, and R. S. Rosenthal.....	142	Titrimeter, Electron-Ray Type of. E. J. Serfass.....	536
Iodide for Ozone Analysis. C. E. Thorp.....	209	Tongs for Combustion Boat, New Design of. H. F. Priest.....	473
Pasting and Identification of. W. L. Morgan.....	313	Triethanolamine, Copper Determination by Colorimetric Method with. J. H. Yoe and C. J. Barton.....	456
STEEL		Triton F. <i>See</i> Dimethyl Benzyl Ammonium Hydroxide.	
Copper Determination in, by Electrolytic Method. H. A. Frediani and C. H. Hale.....	736	Tubes, Sealable, for Microabsorption. A. N. Prater.....	184
Copper Determination in Ferromolybdenum or Molybdenum Steels by α -Benzoin Oxime. Louis Silverman.....	343	Tubing, Glass, Hot Wire Cutter for. A. A. Hirsch.....	48
		Tung Oil. Wijs Iodine Numbers for Conjugated Double Bonds. W. C. Forbes and H. A. Neville.....	72
		Tungsten Determination by Volumetric Method. M. L. Holt and A. G. Gray.....	144

Turbidimetric Determination of Emulsifying Efficiencies. L. H. Cohan and Norman Hackerman.....	210
Turbidimetric Determinations, Thermolectric Absorptiometer for. H. H. Willard and G. H. Ayres.....	287

U

Ultraviolet for Glassware Treatment, to Remove Static Charges. C. J. Rodden. (Correction, 775).....	693
Uranium Determination by Silver Reducto. Nathan Birnbaum and S. M. Edmonds.....	155
Urea Resins for Coating Compositions, Chemical Examination of. J. J. Levenson, Jr.....	332
Urine, Mercury Microdetermination in, by Photometric Method with Di- β -Naphthylthiocarbazone. D. M. Hubbard.....	768
Urine, Selenium Microtitration in. Grant Wernimont and F. J. Hopkinson.....	308

V

Vacuum, High, Apparatus and Instruments for Measurement and Control of. R. H. Müller.....	285
Vacuum Tube Electrometer and Universal pH Meter. F. M. Goyan, C. L. Barnes, and H. W. Hind.....	581
Vacuum Tube Voltmeter. Application to Potentiometric Precipitation Titrations. L. E. West with R. J. Robinson.....	485
Vanadium Precipitation with Salicylaldoxime. J. F. Flagg and N. H. Furman.....	476
Vanilla Extract, Ethyl Vanillin Determined in. H. W. Chenoweth.....	663
VISCOMETER APPARATUS	98
Mobilometer for Grease-Consistency Measurement in Fluid and Semifluid State. K. C. Combes, C. S. Ford, and W. S. Schaefer.....	285
Saybolt One Fifteen Viscometer. E. W. Dean, E. L. Ruh, and R. W. Walker.....	540
Timing Equipment of High Accuracy for. E. M. Fry, Jr., and E. L. Baldeschwieder.....	472
VITAMINS	351
A, Assay with Photoelectric Colorimeter. R. B. French.....	351
A, Determination by Spectrophotometric Method. Applicability to Fish Liver Oils. D. T. Ewing, J. M. Vandenbelt, A. D. Emmett, and O. D. Bird.....	639
A, Spectrographic Estimation of Potency of. R. L. McFarlan, P. K. Bates, and E. C. Merrill.....	645
Riboflavin Determination in Yeasts by Photometric and Biological Methods. A. E. Schumacher and G. F. Heuser.....	203
Voltmeter of Vacuum Tube Type. Application to Potentiometric Precipitation Titrations. L. E. West with R. J. Robinson.....	476
Volumetric Flask. <i>See</i> Flask.	390

W

Waste, Agricultural. Cellulose Determination in Fibrous Wastes with Monoethanolamine. J. D. Reid, G. H. Nelson, and S. I. Aronovsky.....	255
WATER	483
Bath, Apparatus for Maintaining Constant Levels in. F. E. Holmes.....	460
Boiler Scales and Sludges Analyzed. F. K. Lindsay and R. G. Bielenberg.....	452
Chlorine Determination in, by Iodine- α -Naphthoflavone Adsorption Reaction. F. J. Hallinan.....	390
Determination in Celluloses by Titrimetric Method Using Fischer Reagent. John Mitchell, Jr.....	

by Fischer Volumetric Method. Application to Technical Substances. E. G. Almy, W. C. Griffin, and C. S. Wilcox.....	392
in Soap by Distillation Method. Effect of Glycerol. R. B. Trusler.....	509
Distilled. Still for Producing Metal-Free Water. J. S. McHargue and E. B. Offutt.....	157
Pollution. Biochemical Oxygen Demand and Dissolved Oxygen of River Mud Suspensions Determined. C. C. Ruchhoff and W. A. Moore.....	711
Potassium Determination in, as Potassium-Sodium Cobaltinitrite Precipitate. R. J. Robinson and J. D. Hauschmidt.....	676
Technology Calculations, Slide Rule for. A. A. Hirsch.....	542
WEAVING	9
Wax Identification in Mixtures. Samuel Zweig and Abraham Taub	
WEIGHING	
Bottle. W. A. Taebel.....	141
Differential Temperature Error in. Ellis Blade.....	330
Flask for Precision Standardization of Strong Alkalies in Absence of Carbon Dioxide. Paul Nahinsky and H. A. Laitinen.....	417
Instruments for. R. H. Müller.....	576
Weight Buret, Locknut for. Martin Kilpatrick.....	548
Weight Changes, Continual Observation of, at Oven Temperatures. Apparatus for Study of Drying Rates and Oxidation of Oils. A. C. Beckel and A. G. Sharp.....	45
Wetting Agents. <i>See</i> Surface-Active Agents.	
Wijc Iodine Number. <i>See</i> Iodine.	
Wire Cutter, Hot, for Glass Tubing. A. A. Hirsch.....	48
Wood Preservatives. Relative Effectiveness of Water-Repelling and Retarding Solutions. E. E. Hubert.....	197
Wood Preservatives. Toxicometric Method for Oil-Soluble Chemicals. E. E. Hubert.....	139

X

X-RAYS	
Carbon Blacks for Rubber Evaluated by. G. L. Clark and H. D. Rhodes.....	66
Diffraction Films Measured Accurately. H. P. Klug.....	753
Diffraction Patterns Studied by Photoelectric Microdensitometer. M. Spiegel-Adolf and R. H. Peckham.....	182
Xyliidines. Determination of Meta and of Total Ortho and Para Isomers. William Seaman, A. R. Norton, and R. W. Mason.....	345
d-Xylose Microdetermination by Quantitative Method. R. E. Reeves and Jackson Munro.....	551

Y

Yeast, Riboflavin Determination in, by Photometric and Biological Methods. A. E. Schumacher and G. F. Heuser.....	203
---	-----

Z

ZINC	
Cadmium Separated from, by Granular Aluminum. F. E. Townsend and G. N. Cade, Jr.....	163
Determination with Mercury by Empirical Method. A. C. Titus and J. S. Olsen.....	133
Determination in Paints by Polarographic Method. B. M. Abraham and R. S. Huffman.....	656
Microdetermination in Plant Materials, Using Dropping Mercury Electrode. J. F. Reed and R. W. Cummings.....	489
Precipitation with Salicylaldoxime. J. F. Flagg and N. H. Furman.....	663
Zirconium Salts for Phosphate Detection and Elimination in Qualitative Analysis. F. K. Pittman.....	514
