

SUBJECT INDEX

INDUSTRIAL AND ENGINEERING CHEMISTRY

ANALYTICAL EDITION

VOLUME 13—1941

A	B
Absorption Spectroscopy-Spectrophotometry as Instrumental Method of Analysis. R. H. Müller.....	684
Acetyl Determination. J. R. Matchett and Joseph Levine.....	98
Acetyl Chloride for Hydroxyl Determination in Organic Compounds. B. E. Christensen, Lloyd Pennington, and P. K. Dimick.....	821
Acid-Base Titrations, Silver Chloride Electrode in. J. E. Vance.....	68
ACIDS	
Fatty, Segregation of High- and Low-Titer Components of. R. J. De Gray and A. W. DeMoise.....	22
Fatty, Unsaturation Measured by Woburn Iodine Absorption Method. J. D. von Mikusch and Charles Frazier.....	782
Fume Disposal in Wet Assaying. E. J. Poth and G. A. Elliott.....	910
Organic, Determined in Plant Tissues. G. W. Pucher, A. J. Wakeman, and H. B. Vickery.....	244
<i>(See also kind of acid.)</i>	
Acyl Determination in Cellulose Organic Esters. L. B. Genung and R. C. Mallatt.....	369
AIR	
Filters for Industrial Processes. Smoke Measurement and Rating Efficiencies. A. C. Robertson, J. G. Mulder, and F. G. VanSaun. Permeation, Powder Compactor for Experiments in. E. L. Gooden. Solvent-Vapor Traces Measured in, by Ultraviolet Photometer. V. F. Hanson.....	119
Alcohol, Ethyl, Determined for Medicolegal Purposes. F. L. Kozelka and C. H. Hine.....	905
Ale. <i>See</i> Beverages, Alcoholic.	
Aliphatic C—H of Toluene Estimated through Infrared Absorption. R. C. Gore and J. B. Patberg.....	768
Aliphatics, Nitro-, Polarographic Study of. Thos. De Vries and R. W. Ivett.....	339
Alkali Products, Spectrochemical Analysis of. E. A. Boettner.....	861
Alkaloid Microidentification by Bromo Complexes. E. P. White.....	509
Alkaloids from Cinchona Identified by Iodosulfate Microtest. C. C. Fulton.....	848
ALLOYS	
of Aluminum, Copper and Nickel Determination in. H. A. Sloviter. for Die-Casting, Zinc Determination in, by Quantitative Spectrochemical Method. M. F. Hasler and C. E. Harvey.....	540
German Silver, Copper and Nickel Microdetermination in, by Modified Pregl Apparatus. A. J. Llaer, J. A. Sozzi, and A. A. Benedetti-Pichler.....	507
Lead-Antimony, Determination of Antimony in. L. A. Wooten and C. L. Luke.....	771
Silicon Determination in Monel Metal, Copper-Silicon, and Similar Nonferrous Alloys. F. B. Clardy, H. R. Maupin, and R. S. Gibbs.....	88
Alumina, Calcined, Silica Determination in. J. E. Edwards.....	70
ALUMINUM	
Alloys, Copper and Nickel Determination in. H. A. Sloviter.....	235
Determination in Cement with 8-Hydroxyquinoline. Leo Kampf. Fluorescent Test for (Correction). C. E. White.....	810
Aluminum Sulfate, Basic Iron Sulfate and, in Analytical Separations. J. G. Fairchild.....	83
Alundum Disks for Gas Distributors. S. E. Jolly.....	478
American Tobacco Company's Research Laboratory. C. E. Brogden. Amino Acid Estimation in Corn Grain. D. M. Doty.....	169
Amino Acids and Their Compounds, Microscopy of. Silver Salts. Kaoru Inouye, Russell Sunderlin, and P. L. Kirk.....	587
Ammonia for Copper Determination by Colorimetric Method. J. P. Mehlig.....	533
Ammonia Determination in Plant Material in Decomposed Condition. J. G. Shrikhande.....	187
Ammonium Citrate-Citric Acid Solution, Zinc Sulfide Precipitation from. S. A. Coleman and G. B. L. Smith.....	377
Ammonium Formate for Bismuth and Lead Separation. Silve Kallmann.....	897
Ammonium Hypophosphite Fusion for Detection of Metals in Minerals and Ores. H. B. Van Valkenburgh and T. C. Crawford.....	459
Amyl Nitrite. Method for Quantitative Determination and Observations on Decomposition. R. G. Horswell and Leslie Silverman.....	555
Aniline Point Determination of Dark Petroleum Products. Robert Matteson, E. H. Zeitfuchs, and K. R. Eldredge.....	394
ANTIMONY	
Determination	
in Alloys of Lead and. L. A. Wooten and C. L. Luke.....	771
with Bromate Using Internal Indicators. G. F. Smith and R. L. May.....	460
in Metals, Alloys, and Ores. Silve Kallmann and Frank Pristera. Microestimation with Rhodamine B. W. G. Fredrick.....	922
A. O. A. C. Malt-Diastase Method. <i>See</i> Starch.	
Apparatus, Microchemical, Recommended Specifications for. Carbon-Hydrogen and Dumas Nitrogen. G. L. Royer <i>et al.</i>	574
Arsenic Determination with Bromate Using Internal Indicators. G. F. Smith and R. L. May.....	460
Arsenic Microdetermination in Biological Material by Photometric Method. D. M. Hubbard.....	915
Ascorbic Acid. <i>See</i> Vitamins.	
Asphalt, Recovery of Liquid Asphaltic Road Materials and, from Solution. T. F. Ford and K. G. Arabian.....	140
Asphalt. Wax Determination in Asphaltic Products by Propane-Hexone Method. E. C. Knowles and Harry Levin.....	314
Assaying, Wet, Acid-Fume Disposal in. E. J. Poth and G. A. Elliott. Autoxidation. <i>See</i> Oxidation.	910
Balance, Analytical, Tests to Indicate Condition of. L. C. Kreider.....	117
Balance Swinging, Device for Starting. R. E. Vollrath.....	564
Barcroft-Warburg Apparatus. <i>See</i> Oxidation, Auto-	
Barium Sulfate for Coprecipitation of Fourth-Period Elements. Spectrographic Study. Louis Waldbauer, F. W. Rolf, and H. A. Frediani.....	888
Base-Exchange Materials Determined in Soils by Micromethods. Michael Peech.....	436
Baths of Graphite for Heating. W. I. Harber.....	429
Bedding of Peathers and Down, Microdetermination of Cleanliness of. H. J. Kane, Charles Pomerantz, and Morris Hechtman.....	362
Beer. <i>See</i> Beverages, Alcoholic.	
Benzene, Water Determination in. J. H. Simons and E. M. Kipp.....	328
Benzotriazole, Copper Determination and Separation with. J. A. Curtis.....	349
Beryllium, Fluorescent Tests for. C. E. White and C. S. Lowe.....	809
Best Foods, Inc., Laboratories. H. W. Vahlteich.....	284
Beverages, Alcoholic. Cider, Lead Determination in. C. W. Schroeder and H. C. Lythgoe.....	829
Beverages, Alcoholic. Malt Beverages, Tin Traces Determined in. Irwin Stone.....	791
Biochemical Oxygen Demand Determination. Comparison of Azide and Rideal-Stewart Modifications of Winkler Method. O. R. Plack and C. C. Ruchhoff.....	12
BIOLOGICAL MATERIAL	
Arsenic Microdetermination in, by Photometric Method. D. M. Hubbard.....	915
Bismuth Determination in, with Photoelectric Colorimeter. R. C. Sproull and A. O. Gettler.....	462
Bismuth Microdetermination in, by Iodobismuthite Method. C. J. W. Wiegand, G. H. Lann, and F. V. Kalich.....	912
Lead Deposition from, by Electrolytic Micromethod. Karl Bambach and Jacob Cholak.....	504
Lead Microdetermination in, by Mixed Color Dithizone Method. F. L. Kozelka and E. F. Kluchesky.....	492
Lead. Microdetermination in, by Polarographic Method. Jacob Cholak and Karl Bambach.....	583
Mineral Analysis by Lundegårdh Spectrographic Method. M. A. Griggs, Ruth Johnston, and B. E. Elledge.....	99
Oxygen Dissolved in Fluids Determined by Quantitative Ascorbic Acid Oxidase Method. P. F. Sharp, D. B. Hand, and E. S. Guthrie.....	593
Pantothenic Acid Assay in, by Micromethod. F. M. Strong, R. E. Feeney, and Ann Earle.....	566
<i>(See also kind of biological material.)</i>	
Biological Statistics. <i>See</i> following item.	
Biometry in Biological Assay of Drug Potency. C. I. Bliss.....	84
BISMUTH	
Determination in Biological Material with Photoelectric Colorimeter. R. C. Sproull and A. O. Gettler.....	462
Determination in Metals, Alloys, and Ores. Silve Kallmann and Frank Pristera.....	8
Microdetermination in Biological Samples by Iodobismuthite Method. Application of Neutral Wedge Photometer. C. J. W. Wiegand, G. H. Lann, and F. V. Kalich.....	912
Separation from Lead with Ammonium Formate. Silve Kallmann. Blocks of Copper for Microdetermination of Boiling and Melting Points. A. A. Morton and J. F. Mahoney.....	498
BLOOD	
Iodine Microdetermination, Chromate Detection and Titration in. O. H. Gaebler and Margaret Baty.....	442
Magnesium Determination in. Quantitative Spectrochemical Method. F. W. Lamb.....	185
B. O. D. <i>See</i> Biochemical Oxygen Demand.	
Boiling Point Microdetermination by Copper Blocks and Optical System. A. A. Morton and J. F. Mahoney.....	498
Bomb for Gum-Stability Tests on Gasoline, Calibration of. D. L. Yabroff and E. L. Walters.....	353
Boron Determination in Fertilizers as Trace by Spectrochemical Analysis. E. H. Melvin and R. T. O'Connor.....	520
Boron Determination in Organic Volatile Compounds Using Parr Oxygen Bomb. W. M. Burke.....	50
Bread, Nicotinic Acid Determination in. Daniel Melnick, B. L. Oser, and Louis Siegel.....	879
Bridge. Salt Bridge of Sintered Glass. H. A. Laitinen.....	393
Bromate in Volumetric Analysis. Determination of Arsenic and Antimony Using Internal Indicators. G. F. Smith and R. L. May.....	460
<i>(See also following item.)</i>	
Bromide-Bromate Solution, Phenol Bromination by. M. M. Sprung. (Correspondence, A. W. Francis and A. J. Hill. 357).....	35
Bromine Addition Number Determined. Karl Uhrig and Harry Levin. (Correction, 194).....	90
Bromo Complexes for Microidentification of Metals and Alkaloids. E. P. White.....	509
Bromocresol Green-Methyl Red as Indicator for Carbonates in Water. S. S. Cooper.....	466
Bronze, Phosphor, Determination of Phosphorus in, by Spectrographic Quantitative Method. W. E. Milligan and W. D. France.....	24
Burets, Stopcock Grease Removed from Tip of. C. B. White and R. C. McGlenn.....	61
Butter, Vitamin A Determination in, by Spectrophotometric Method. R. H. Neal, C. H. Haurand, and F. H. Luckmann.....	150

C

Cadmium Determination after Precipitation from Zinc-Cadmium Solution. T. L. Thompson.....	164	Head, for Fractionation in Laboratory. Tzeng-Jueq Suen.....	519
Calcium Carbonate as Precipitate, Decomposition Temperature of. M. L. Nichols and B. E. White.....	251	Perforated Plate, for Analytical Batch Distillations. C. F. Oldershaw.....	265
Calcium Carbonate in Water, Saturation Balance Indicator for. A. A. Hirsch.....	811	Compactor for Powders in Air-Permeation Experiments. E. L. Gooden.....	483
Calcium Molybdate, Phosphorus Determination in. Louis Silverman.....	602	Condenser for Digestion Operations. Raymond Szymowitz.....	455
Calcium Nitrate Separation from Strontium Nitrate by Micromethod. H. H. Barber.....	572	Condenser for Laboratory. M. T. Bush.....	592
<i>Cannabis sativa</i> . See Hemp.		Conductometric Measurements, Instrumental Methods for. R. H. Müller.....	727
Carbohydrates in Soybeans, Studies of. M. M. MacMasters, Sybil Woodruff, and Helen Klaas.....	471	Contact Angles Measured by Micromethod. J. J. Bikerman.....	443
CARBON		Cooking, Water Bath for Laboratory Type of. H. W. Coles and W. E. Tournay.....	840
and Hydrogen Microdeterminations		COPPER	
Electric Heating Mortar for Combustions. G. F. Smith and W. H. Taylor.....	203	Coprecipitation with Zinc by Lead Sulfate. Spectrographic Study. Louis Waldbauer, F. W. Rolf, and H. A. Frediani.....	888
Pressure Regulator for. J. E. Vance.....	132	Cupric Ion, Iodate Ion Determination in Presence of. P. L. Kapur and M. R. Verma.....	338
Semi-, Nitrogen Oxide Removal in. P. J. Elving and W. R. McElroy.....	660	Determination	
Specifications for Apparatus Recommended. G. L. Royer <i>et al.</i> by Wet-Combustion Method. Iodic Acid as Oxidant. B. E. Christensen and Robert Wong.....	574	in Aluminum Alloys. H. A. Sloviter.....	235
Train for Steel Analysis. Louis Singer, H. J. Stark, and J. A. Krynskiy.....	444	with Ammonia by Colorimetric Method. J. P. Mehlig.....	533
(See also Graphite.)	115	in Fertilizers as Trace, by Spectrochemical Analysis. E. H. Melvin and R. T. O'Connor.....	520
Carbon Black Surface-Area Determination. P. H. Emmett and Thomas De Witt.....	28	and Separation with Benzotriazole by Quantitative Method. J. A. Curtis.....	349
Carbon Dioxide Semimicrodetection in Carbonate-Sulfite Mixtures. G. B. Heisig and Aaron Lerner.....	843	Microdetermination	
CARBONATE		Electrolytic, by Cerimetric Method. L. H. Bradford and P. L. Kirk.....	64
Determination by Rapid Procedure. A. C. Kuyper and L. M. Jones-Sulfite Mixtures, Semimicrodetection of Carbon Dioxide and Sulfur Dioxide in. G. B. Heisig and Aaron Lerner.....	801	in German Silver by Modified Pregl Apparatus. A. J. Llacer, J. A. Sozzi, and A. A. Benedetti-Pichler.....	507
in Water, Bromocresol Green-Methyl Red as Indicator for. S. S. Cooper.....	466	in Plant Materials, Using Dropping Mercury Electrode. J. F. Reed and R. W. Cummings.....	124
CAROTENE		Corn, Carotene and Cryptoxanthin Determination in Yellow Type of. G. S. Fraps and A. R. Kemmerer.....	806
in Butter from Dairies. Determination of Total Vitamin A. R. H. Neal, C. H. Haurand, and F. H. Luckmann.....	150	Corn Grain, Amino Acid Estimation in. D. M. Doty.....	169
and Cryptoxanthin Determination in Yellow Corn. G. S. Fraps and A. R. Kemmerer.....	806	Corn Sirup. See Sirup.	
Determination, Developments in Methods for. W. J. Peterson.....	212	Corrosion Inhibitors, Chromates as, in Bimetallic Systems. Marc Darrin.....	755
Determination by Petering-Wolman-Hibbard Simplified Method. H. G. Petering, E. J. Benne, and P. W. Morgal.....	236	Corrosive Materials, Centrifuge Accessories for Use with. G. F. Smith.....	824
Extraction from Plant Material. L. A. Moore and Ray Ely.....	600	Cotton Cellulose, Role of Velocity Gradient in Determining Cuprammonium Fluidity of. C. M. Conrad.....	526
Carrier for Samples of Organic Liquids. F. O. Green.....	911	Cottonseed Hulls, Chemical Constituents of. M. A. Smith and C. B. Purves.....	157
Catalysts. Silica Gel, Platinized, in Gas Analysis. K. A. Kobe and R. A. MacDonald.....	457	Cottonseed Oil, Crude, Gossypol Estimation in. J. O. Halverson and F. H. Smith.....	46
CELLULOSE		Cryostat. See Temperature Apparatus.	
from Cotton. Role of Velocity Gradient in Determining Cuprammonium Fluidity. C. M. Conrad.....	526	Cryptoxanthin and Carotene Determined in Yellow Corn. G. S. Fraps and A. R. Kemmerer.....	806
Derivatives. Determination of Total Combined Acyl in Cellulose Organic Esters. L. B. Genung and R. C. Mallatt.....	369	Crystallization, Fractional. Microchamber for Low Temperatures. Zabo J. Harvalik.....	581
Hydrolysis and Catalytic Oxidation of Cellulosic Materials. Method for Continuous Estimation of Free Glucose. R. F. Nickerson.....	423	Crystals of Organic Compounds Identified by Grating Microspectrograph. E. E. Jelley.....	196
Viscosity Determination of. E. Berl.....	322	Cupric Ion. See Copper.	
Cellulose Acetate Rayon. See Rayon.		Cyclopentane Vapor Pressure. Micromethod for Identification of Volatile Liquids. S. W. Benson.....	502
Cement, Iron and Aluminum Determination in, with 8-Hydroxyquinoline. Leo Kampf.....	72	D	
Cement Surface-Area Determination. P. H. Emmett and Thomas De Witt.....	28	Dairy Products, Sodium Alginate Detection in. C. W. Schroeder and P. A. Racicot.....	165
CENTRIFUGE		(See also Butter.)	
Accessories. C. R. Johnson and Harvey Miller.....	118	Density. See Specific Gravity.	
Accessories for Corrosive Materials. G. F. Smith.....	824	Dextrins, Reducing Power of. F. F. Farley and R. M. Hixon.....	616
Ultra-, as Instrument for Chemical Analysis. R. H. Müller.....	668	Dialyzer, Electro-, Improved Type of. F. E. Brauns.....	259
Cerate Oxidimetry. Glycerol Determination. G. F. Smith and F. R. Duke.....	558	Die-Casting Alloy. See Alloys.	
Chlorophyll Determination by Petering-Wolman-Hibbard Simplified Method. H. G. Petering, E. J. Benne, and P. W. Morgal.....	236	Dielectric Constant Measurement, Instrumental Methods for. R. H. Müller.....	741
Chocolate Viscosity. Development of Standard Method. Joseph Stanley.....	398	Diethylene Glycol Alkyl Ethers, Ethylene Glycol Determination in and Removal from. M. K. Seikel.....	388
CHROMATE		Digestions, Condenser for. Raymond Szymowitz.....	455
as Corrosion Inhibitor in Bimetallic Systems. Marc Darrin.....	755	Dimedon. See following item.	
Detection and Titration in Blood Iodine Microdeterminations. O. H. Gaebler and Margaret Baty.....	442	5,5-Dimethyl-1,3-cyclohexanedione (Dimedon) for Determination of Formaldehyde. J. H. Yoe and L. C. Reid.....	238
Sulfate Determination in Presence of. W. B. Meldrum, W. E. Cadbury, Jr., and W. W. Lucasse.....	456	Diphenylcarbazide for Lead Determination by Colorimetric Method. T. V. Letonoff.....	631
Chromatographic Analysis, Micromethod of. M. O. L. Crowe.....	845	DISTILLATION	
Chromium Detection in Stainless Steels, Other High-Chromium Alloys, and Plating. J. A. Calamari.....	19	Apparatus for Kjeldahl Semimicro- and Microanalyses. Steam Distillation Unit. J. H. Brant and D. C. Sievers.....	133
Cider. See Beverages, Alcoholic.		Apparatus and Methods for Precise Fractional Analysis. Adiabatic Fractionating Column and Precision-Spaced Wire Packing for Range -190° to 300° C. W. J. Podbielniak.....	639
Cinchona Alkaloids Identified by Iodosulfate Microtest. C. C. Fulton.....	848	of Foaming Solutions under Vacuum. D. R. Rexford.....	95
Cinchonidine, Cinchonine. See preceding item.		of Oils Lighter than Water by Steam Distillation. F. M. Biffen.....	422
Citral Determination by Photoelectric Colorimeter. John Bailey and C. K. Beebe.....	834	Still of Vacuum Type for Purification of Single Substance or Recovery of Single Fraction. F. E. Holmes.....	61
Citric Acid-Ammonium Citrate Solution, Zinc Sulfide Precipitation from. S. A. Coleman and G. B. L. Smith.....	377	Stills for Water, of Silica and Pyrex Glass with Automatic Constant-Pressure Feeds. C. S. Piper and A. C. Oertel.....	191
Citric Acid Determination in Plant Tissues. G. W. Pucher, A. J. Wakeman, and H. B. Vickery.....	244	(See also Columns and Fractionation.)	
Citrus Fruit Juices, Ascorbic Acid Determination in. Robert Ballentine.....	89	DITHIZONE	
Citrus Fruit. Lemon Flavors, Citral Determination in. John Bailey and C. K. Beebe.....	834	for Lead Microdetermination in Biological Material. F. L. Kozelka and E. F. Kluchsky.....	492
Cobalt Determination with Nickel Simultaneously in Presence of Iron, Copper, Chromium, and Manganese, and Determination of Small Amounts of Nickel in Cobalt Compounds. J. J. Lingane and Herbert Kerlinger.....	77	Photoelectric Colorimetric Technique with. F. L. Kozelka and E. F. Kluchsky.....	484
Cobalt Determination as Trioxalato-cobaltate. G. H. Cartledge and P. M. Nichols.....	20	for Zinc Determination in Plant Materials by Photometric Method. Hale Cowling and E. J. Miller.....	145
Coke, Phosphorus and Sulfur Determined in. Louis Silverman.....	524	Drop of Liquid Analyzed by Microfractionation. A. A. Morton and J. F. Mahoney.....	494
Color Comparator of Simple Type. R. H. Wilhelm.....	123	Drop-Reaction Interferences in Microanalysis. Lothrop Smith and P. W. West.....	271
Color Reactions. Drop-Test Interferences Occurring in Microanalysis. Lothrop Smith and P. W. West.....	271	Drug Potency, Biometry in Biological Assay of. C. I. Bliss.....	84
Colorimeter, Photoelectric, Applications of. Bismuth Determination in Biological Materials. R. C. Sproull and A. O. Gettler.....	462	Dumas Method. See Nitrogen.	
Colorimetric Instrumental Methods of Analysis. R. H. Müller.....	711	Dyes on Cellulose Acetate Rayon Tested for Fastness to Atmospheric Gases. American Association of Textile Chemists and Colorists.....	163
COLUMNS		E	
Adiabatic Fractionating, and Precision-Spaced Wire Packing for Range -190° to 300° C. W. J. Podbielniak.....	639	ELECTRODES	
Fractionating, of 60-Plate Low-Holdup Laboratory Type. A. J. Bailey.....	487	Dropping Mercury, Constant Mercury Level for. Alois Langer.....	794
Head, for Distillation. Paul Arthur and C. L. Nickolls.....	356	Dropping Mercury, for Copper Microdetermination in Plant Materials. J. F. Reed and R. W. Cummings.....	124

of Glass and Other High-Resistance Materials, Continuous-Reading Electronic Voltmeter for. C. J. Penther, F. B. Rolfsen, and Louis Lykken.....	831	GASOLINE	
of Graphite Shaped on Lathe, for Spectrochemical Analysis. K. R. Majors and T. H. Hopper.....	647	Bromine Addition Number for Determining Unsaturation of Components of. Karl Uhrig and Harry Levin. (Correction, 194)...	90
Multiple, for Potentiometric Titration Studies. H. A. Frediani and W. B. Warren.....	646	Combustion Heat for. W. H. Jones and C. E. Starr, Jr.....	287
Silver Chloride, in Acid-Base Titrations. J. E. Vance.....	68	Gum-Stability Test Bomb, Calibration of. D. L. Yabroff and E. L. Walters.....	353
Tungsten-Nickel and Tungsten-Silver Systems in Neutralizations. H. G. Dietrich and P. J. Bender.....	105	Mercaptan Sulfur Determination in. Hans Schindler, G. W. Ayers, and L. M. Henderson.....	326
Electrodialyzer. See Dialyzer.		Gelometer for Starch Pastes. R. M. Hixon and Bernadine Brimhall.	193
Electrographic Measurements, Instrumental Methods for. R. H. Müller.....	739	German Silver. See Alloys.	
Electrolytic Instrumental Methods of Analysis. R. H. Müller.....	732	GLASS	
Electron Diffraction Methods of Analysis. R. H. Müller.....	699	Apparatus, Comparative Tests of. Edward Wichers, A. N. Finn, and W. S. Clabaugh.....	419
Electronic Relay. Paul Fugassi and C. E. Rudy, Jr. (Correction)....	139	Electrode. See Electrodes.	
Electrophoretic Effect, Instrumental Methods for. R. H. Müller.....	743	Pyrex Sealed to Alundum Disk for Gas Distributor. S. E. Jolly...	478
Enzymes. Melibiase Activity Determined. P. P. Gray and Harold Rothchild.....	902	Soft, Rottenone Melting Point Affected by. H. A. Jones.....	819
Ester Gums, Molecular Weights of, by Microcycoscopic Method. V. A. Aluise.....	365	Glucose Estimation by Continuous Method. Hydrolysis and Catalytic Oxidation of Cellulosic Materials. R. F. Nickerson.....	423
Ethyl Alcohol. See Alcohol.		Glycerol Determination by Cerate Oxidimetry. G. F. Smith and F. R. Duke.....	558
Ethylene Glycol Determination in and Removal from Commercial Alkyl Ethers of Diethylene Glycol. M. K. Seikel.....	388	Glycine, <i>o</i> -Phthalaldehyde as Reagent for. Preparation of Solution. W. M. Sandstrom and H. A. Lillevik.....	781
Europium and Ytterbium Determination in Rare Earth Mixtures. H. A. Laitinen and W. A. Taebel.....	825	Gold Determination with Potassium Iodide and Arsenious Acid. V. E. Herschlag.....	561
Extraction, Liquid-Liquid, by Continuous Device. Adaptation to Morphine Determination. J. R. Matchett and Joseph Levine....	264	Gossypol Estimation in Crude Cottonseed Oil. J. O. Halverson and F. H. Smith.....	46
Extraction, Micro-, in Organic Qualitative Analysis. W. G. Batt and H. K. Alber.....	127	GRAPHITE	
		Electrodes. See Electrodes.	
F		Heating Baths. W. I. Harber.....	429
Fatty Acids. See Acids.		Oxidation in Ferrous Metal Analysis. R. H. Steinberg and F. W. Smith.....	392
Fatty Oils. See Oils.		Grease Determination in Sewage, Sludge, and Industrial Wastes. Richard Pomeroy and C. M. Wakeman.....	795
Feeds, Manganese Determination in. J. W. Cook.....	48	(See also Lubricants.)	
Fermentation, Water Bath for Laboratory Type of. H. W. Coles and W. E. Tournay.....	840	Gum. See Gasoline.	
Ferric Iron. See Iron.			
Ferric Sulfate. See Iron Sulfate.		H	
Ferric Thiocyanate Reaction in Iron Determination. C. A. Peters and C. L. French.....	604	Halides, Thiocyanate Removal in Detection of. David Hart and Robert Meyrowitz.....	237
Ferromolybdenum, Phosphorus Determination in. Louis Silverman..	602	Halogen, Organic, in Mineral Oils. Detection, Determination, and Identification. M. S. Agruss, G. W. Ayers, Jr., and Hans Schindler	69
Ferrous Iron. See Iron.		Hardwood. See Wood.	
FERTILIZER		Heartwood. See Wood.	
Magnesium Microdetermination in. W. S. Gillam.....	499	HEAT APPARATUS	
Potash Determination in. Effect of Temperature of Alcohol. C. W. Hughes and O. W. Ford.....	233	Baths of Graphite. W. I. Harber.....	429
Trace Analysis by Spectrochemical Methods		Mortar, Electric, for Carbon and Hydrogen Microcombustions. G. F. Smith and W. H. Taylor.....	203
Boron, Manganese, and Copper. E. H. Melvin and R. T. O'Connor.....	520	(See also Temperature Apparatus.)	
Zinc. R. T. O'Connor.....	597	Hemp, Indian (<i>Cannabis sativa</i>), Color Reactions for Resin from. W. J. Blackie.....	96
Filters for Air. Smoke Measurements and Rating Efficiencies of Industrial Filters. A. C. Robertson, J. G. Mulder, and F. G. Van-Saun.....	331	Hulls, Cottonseed, Chemical Constituents of. M. A. Smith and C. B. Purves.....	157
FISH OIL		Hydriodic Acid Preparation for Methoxyl Microdetermination. B. E. Christensen, Leo Friedman, and Yoshio Sato.....	276
from Liver, Vitamin A in. Spectrophotometric and Biological Assay. N. H. Coy, H. L. Sassaman, and Archie Black.....	74	HYDROCARBONS	
Menhaden, Component Fatty Acids of. W. H. Baldwin and W. B. Lanham, Jr.....	615	Analysis in Columns with Perforated Plates, for Batch Distillations. C. F. Oldershaw.....	265
Rancidity, Peroxide Values Determined for. M. E. Stansby.....	627	Bromine Addition Number for Determining Unsaturation of Components of. Karl Uhrig and Harry Levin. (Correction, 194)...	90
Flour, Nicotinic Acid Determination in. Daniel Melnick, B. L. Oser, and Louis Siegel.....	879	Light, Analysis Methods for. J. J. Savelli, W. D. Seyfried, and B. M. Filbert.....	864
FLOW PROPERTIES		in Liquid State. Temperature Coefficient of Density and Refractive Index. M. R. Lipkin and S. S. Kurtz, Jr.....	291
of Lubricating Greases. Consistency Test. Harry Levin and C. J. Schlagel.....	295	Liquid Volatile, Identified by Micromethod. Vapor Pressures of Cyclopentane and the Pentenes. S. W. Benson.....	502
Measured with Gardner Mobilometer. P. W. Kinney.....	178	Microanalysis of Gases. Léo Marion and A. E. Ledingham.....	269
of Plastic Substances Studied in New Instrument. C. R. Bailey....	173	(See also Organic Compounds, Petroleum, and kind of hydrocarbon.)	
Flow Regulator. V. H. Cheldelin and B. E. Christensen.....	805	Hydrofluosilicic Acid for Quartz Determination. F. H. Goldman....	789
Flowmeter Calibration, Rapid Method for. H. J. Meuron.....	114	HYDROGEN	
Flowmeter as Pressure Regulator for Microdetermination of Carbon and Hydrogen. J. E. Vance.....	132	and Carbon Microdeterminations	
Fluorescent Method for Aluminum (Correction). C. E. White.....	810	Electric Heating Mortar for Combustion. G. F. Smith and W. H. Taylor.....	203
Fluorescent Tests for Beryllium and Thorium. C. E. White and C. S. Lowe.....	809	Pressure Regulator for. J. E. Vance.....	132
Fluoride Determination in Food Mixtures, Using Aliquant Samples. E. J. Largent.....	93	Semi-, Nitrogen Oxide Removal in. P. J. Elving and W. R. McElroy.....	660
Fluoride Determination in Water by Modified Zirconium-Alizarin Method. W. L. Lamar and C. G. Seegmiller.....	901	Specifications for Apparatus Recommended. G. L. Royer <i>et al.</i> by Wet-Combustion Method. Iodic Acid as Oxidant. B. E. Christensen and Robert Wong.....	574
Fluorimeter, Photoelectric, and Applications. Frederick Kavanagh..	108	in Tanks, Oxygen Determination in. H. N. Aleya.....	444
Fluorimetric Instrumental Methods of Analysis. R. H. Müller.....	714	Hydrogenation Apparatus of Micro Type. I. B. Johns and E. J. Seiferle.....	104
Fluorine, Dietary, Microdetermination of. J. F. McClendon and W. C. Foster.....	280	Hydrometer for Turpentine, Indicating Pounds per Gallon. W. C. Smith.....	841

Resin, Dark-Colored, Molecular Weight Microdetermination of. V. A. Aluise.....	365	from Roots Determined with Sodium Hypochlorite. R. T. Balch.....	246
Resin from Hemp (<i>Cannabis sativa</i>), Color Reactions for. W. J. Blackie.....	96	Reducing Power of. F. F. Farley and R. M. Hixon.....	616
Rhodamine B for Antimony Microestimation. W. G. Fredrick.....	922	STEEL	
Riboflavin Determination. Bioassay, Microbiological, and Fluorometric Methods. A. D. Emmett, O. D. Bird, R. A. Brown, Gail Peacock, and J. M. Vandenbelt.....	219	Carbon Determination in, by Combustion Train for Control Analysis. Louis Singer, H. J. Stark, and J. A. Krynsky.....	115
Riboflavin Determination in Food Products, Together with Thiamin. R. T. Conner and G. J. Straub.....	385	Chromium Detection in Stainless Type. J. A. Calamari.....	19
Ring Method for Interfacial Tension. H. H. Zuidema and G. W. Waters.....	312	Zirconium Determination in, by Colorimetric Method. W. G. Hayes and E. W. Jones.....	603
Rotenone Melting Point, Effect of Soft Glass on. H. A. Jones.....	819	<i>Stills. See Distillation.</i>	
RUBBER			
Latex Mechanical Stability, Machine and Methods for Testing. C. K. Novotny and W. F. Jordan.....	189	STIRRERS	
Reclaimed, Test Formulas for. H. F. Palmer and R. H. Crossley.....	154	Apparatus of High-Speed Type. Effect of Flask Design and Other Factors. A. A. Morton and D. M. Knott.....	649
Specific Gravity Determination by Rapid Method. H. F. Palmer and W. E. Jones.....	884	Magnetic, for Cup Type of Moisture-Transfusion Apparatus. H. K. Burr and A. J. Stamm.....	655
S			
Salicylaldehyde for Lead Separation and Determination. W. B. Liggett and L. P. Biefeld.....	813	Magnetic, for Evacuated Sorption Apparatus. S. A. Woodruff and A. J. Stamm.....	565
Salt Bridge of Sintered Glass. H. A. Laitinen.....	393	Stopcock Grease Removed from Buret Tips. C. B. White and R. C. McGlenn.....	61
Sapwood. <i>See Wood</i>		Strontium Nitrate Separation from Calcium Nitrate by Micromethod. H. H. Barber.....	572
Sedimentation, Particle Size Determination by. Karl Kammermeyer and J. L. Binder.....	335	Succinic Acid Determination in Plant Tissues. G. W. Pucher and H. B. Vickery.....	412
Settling Velocity Measured by Pendulum Method. J. H. McMillen, L. F. Stutzman, and J. E. Hedrick.....	475	SUGAR	
SEWAGE			
Analysis, Colorimetric, in Photoelectric Photometer. W. D. Hatfield and G. E. Phillips.....	430	Levulose Determination in Presence of Dextrose and Sucrose. Ferrieyanide Method. H. C. Becker and D. T. Englis.....	15
Biochemical Oxygen Demand Determination. Comparison of Azide and Rideal-Stewart Modifications of Winkler Method. O. R. Placak and C. C. Ruchhoff.....	12	Products, Moisture Determination in. Filter-Cel for Corn Sirup. J. E. Cleland and W. R. Fetzer.....	858
Grease Determination in. Richard Pomeroy and C. M. Wakeman.....	795	Filter Paper for Corn Sirup. J. W. Evans and W. R. Fetzer.....	855
Signer Method. <i>See Molecular Weight.</i>		Reducing, Determined by Extension of Forsee's Photochemical Ferrieyanide Method. S. A. Morell.....	249
S. I. L. Viscometer. <i>See Viscosity Apparatus.</i>		<i>(See also kind of sugar.)</i>	
Silica Determination in Calcined Alumina. J. E. Edwards.....	70	Sulfamic Acid Modification of Winkler Method for Dissolved Oxygen. Stuart Cohen and C. C. Ruchhoff.....	622
Silica Determination in Water in Soluble Form, by Photometric Method. H. L. Kahler.....	536	Sulfate Determination in Presence of Chromate. W. B. Meldrum, W. E. Cadbury, Jr., and W. W. Lucasse.....	450
Silica Gel, Platinized, as Catalyst in Gas Analysis. K. A. Kobe and R. A. MacDonald.....	457	Sulfite-Carbonate Mixtures, Semimicrodetection of Carbon Dioxide and Sulfur Dioxide in. G. B. Heisig and Aaron Lerner.....	843
Silicomolybdic Acid in Iron Determination by Volumetric Oxidation. A. C. Titus and C. W. Sill.....	416	Sulfonic Acid-Petroleum Oil Soaps, Analysis of. F. M. Archibald and E. L. Baldeschwieler.....	608
Silicon Determination in Alloys. Monel Metal, Copper-Silicon, and Similar Nonferrous Alloys. F. B. Clardy, H. R. Maupin, and R. S. Gibbs.....	88	SULFUR	
Silver Microdetermination in Metallic State. Modified Electrometric Method. R. H. Lambert and R. D. Walker.....	846	Determination	
Silver-Tungsten Electrode. <i>See Electrodes.</i>		in Coke. Louis Silverman.....	524
Silver Amino Acid Salts, Microscopy of. Kaoru Inouye, Russell Sunderlin, and P. L. Kirk.....	587	of Labile Form, by Thallous Nitrate. Hugo Zahnd, Roslyn Alfin, and Milton Schneider.....	44
Silver Chloride Electrode. <i>See Electrodes.</i>		as Mercaptan in Aqueous Alkaline Solutions. M. W. Tamele, L. B. Ryland, and V. C. Irvine.....	618
Sirup, Corn, Moisture Determination in		as Mercaptan in Gasolines and Naphthas. Hans Schindler, G. W. Ayers, and L. M. Henderson.....	326
by Filter-Cel. J. E. Cleland and W. R. Fetzer.....	858	in Organic Compounds. Oxidation of Sulfur of Cystine and Methionine, Combination of Parr Oxygen Bomb and Acidimetric Benzidine Method, and Determination of Small Amounts of Sulfur Compound as Contaminant in Organic Material. T. P. Callan and G. Toennies.....	450
by Filter Paper. J. W. Evans and W. R. Fetzer.....	855	Microdetermination in Organic Compounds by Bomb Method. J. F. Aheino.....	506
Slag, Iron Determination in, as Metal. J. P. Riott.....	546	Organic Compounds, Analytical Procedure for Mixtures of. R. T. Bell and M. S. Agruss.....	297
Sludge Determination in Mineral Oils after Use. G. O. Ebrej.....	549	Semimicrodetermination in Organic Compounds. R. M. Lincoln, A. S. Carney, and E. C. Wagner.....	358
Sludge, Grease Determination in. Richard Pomeroy and C. M. Wakeman.....	795	Sulfur Dioxide Semimicrodetection in Carbonate-Sulfite Mixtures. G. B. Heisig and Aaron Lerner.....	843
Smoke Measurement of Air Filters in Industrial Processes. A. C. Robertson, J. G. Mulder, and F. G. VanSaun.....	331	Surface Area Determination in Pigments, Carbon Blacks, Cements, and Miscellaneous Finely Divided or Porous Materials. P. H. Emmett and Thomas De Witt.....	28
Soaps from Petroleum Oil and Soluble Sulfonic Acid, Analysis of. F. M. Archibald and E. L. Baldeschwieler.....	608	Sweet Potatoes. <i>See Potatoes.</i>	
Sodium Alginate Detection in Dairy Products. C. W. Schroeder and P. A. Raciocot.....	165	Symposium on Vitamins.....	209
Sodium Hypochlorite, Starch (Root) Determination with. R. T. Balch.....	246	T	
Sodium Phosphates (Meta, Pyro, and Ortho) Analyzed. A. B. Gerber and F. T. Miles.....	406	Tackmeter for Analyzing and Measuring Tack. Application to Printing Inks. Henry Green.....	632
Sodium Thiosulfate, Anhydrous, as Primary Standard. H. M. Tomlinson and F. G. Ciapetta.....	539	Tangentimeter of Improved Type. H. P. Simons.....	563

Terpenes, Unsaturation Determined in. L. M. Joshel, S. A. Hall, and S. Palkin..... 447

Thallous Nitrate for Sulfur Determination in Labile State. Hugo Zahn, Roslyn Alfin, and Milton Schneider..... 44

Thallous Salts, Permanganate Titration of. R. S. Beale, A. W. Hutchison, and G. C. Chandlee..... 240

Thermal Instrumental Methods in Analysis. R. H. Müller..... 669

Thermocouples, Thermoregulators. See Temperature Apparatus.

Thiamin Determination in Food Products, Together with Riboflavin. R. T. Conner and G. J. Straub..... 385

Thiamin Determination by Thiochrome Reaction. R. T. Conner and G. J. Straub..... 380

Thiochrome. See preceding item.

Thiocyanate for Iron Determination

 Ferric Thiocyanate Reaction. C. A. Peters and C. L. French..... 604

 Spectrophotometric Study. J. T. Woods with M. G. Mellon..... 551

Thiocyanate Removal in Halide Detection. David Hart and Robert Meyrowitz..... 237

Thixotrometer for Paint-Leveling Measurement. R. W. Kewish..... 195

Thorium, Fluorescent Tests for. C. E. White and C. S. Lowe..... 809

Thorium Nitrate for Pectin Identification in Presence of Other Gums. E. F. Bryant..... 103

Time-Delay Relay of Vacuum Tube Type. E. J. Serfass..... 352

Tin Determination in Malt Beverages, as Trace. Irwin Stone..... 791

Tin Determination in Metals, Alloys, and Ores. Silve Kallmann and Frank Pristera..... 8

TISSUES

 of Plants, Organic Acids Determined in. G. W. Pucher, A. J. Wakeman, and H. B. Vickery..... 244

 of Plants, Succinic Acid Determined in. G. W. Pucher and H. B. Vickery..... 412

 Wet, Lipoid-Microextraction Apparatus for. F. E. Holmes..... 918

Titan Yellow, Magnesium Microdetermination with. E. B. Otto and C. E. Otto..... 65

Titration, Potentiometric, Multiple Electrode Systems for. H. A. Frediani and W. B. Warren..... 646

Titration Stand Assembly for Potentiometric Analysis. Louis Lykken and F. B. Rolfsen..... 653

Toluene, Aliphatic C—H Content of, Estimated through Infrared Absorption. R. C. Gore and J. B. Patberg..... 768

Trace Analysis in Fertilizers by Spectrochemical Methods

 Boron, Manganese, and Copper. E. H. Melvin and R. T. O'Connor..... 520

 Zinc. R. T. O'Connor..... 597

Tracer Isotopes in Analysis. J. F. Flagg and E. O. Wiig..... 341

Tube, Reaction, for 17-Ketosteroid Determination. F. E. Holmes..... 911

Tube-Wall Thermocouples, Method of Installing. E. L. Patton and R. A. Feagan, Jr..... 823

Tungsten-Nickel and Tungsten-Silver Electrodes. See Electrodes.

Turbidimetric Instrumental Methods of Analysis. R. H. Müller..... 715

Turbine Oils, Evaluation and Performance of. G. H. von Fuchs, N. B. Wilson, and K. R. Edlund..... 306

Turpentine Hydrometer to Indicate Pounds per Gallon. W. C. Smith..... 112

U

Ultracentrifuge. See Centrifuge.

ULTRAVIOLET

Absorption Spectra of Linseed Oil. J. H. Mitchell, Jr., and H. R. Kraybill..... 765

Absorption Spectroscopy-Spectrophotometry as Instrumental Method of Analysis. R. H. Müller..... 687

Photometer for Quantitative Measurement of Traces of Solvent Vapors in Air. V. F. Hanson..... 119

Unsaturation Determined by Iodine Absorption Method of Woburn, in Presence of Conjugated Double Bonds. J. D. von Mikusch and Charles Frazier..... 782

Unsaturation in Terpene Series Determined. L. M. Joshel, S. A. Hall, and S. Palkin..... 447

V

VACUUM

 Pressure-Regulating Apparatus for Systems under. F. M. Lewis..... 418

 Tube Relay. E. J. Serfass..... 262

 Tube Time-Delay Relay. E. J. Serfass..... 352

Vapor Sorption Apparatus with Six Tubes. A. J. Stamm and S. A. Woodruff..... 836

Vapor Thermoregulator of Adjustable Type. J. Y. Yee..... 839

Vegetable Oil Oxidation Measured. G. L. Clark and F. M. Rugg..... 243

Vegetables, Peas, Frozen, Determination of Maturity of. F. A. Lee..... 38

Vinegar, Lead Determination in. C. W. Schroeder and H. C. Lythgoe..... 829

VISCOSITY APPARATUS

 Kinematic, of S. I. L. Type. E. L. Ruh, R. W. Walker, and E. W. Dean..... 346

 Mobilmeter (Gardner) for Flow Properties. P. W. Kinney..... 178

 for Opaque Liquids and Shearing-Rate Studies. M. R. Cannon and M. R. Fenske..... 299

VITAMINS

A, Assay by Physicochemical Method. N. D. Embree..... 144

A, Determination in Butter from Dairies. R. H. Neal, C. H. Haurand, and F. H. Luckmann..... 150

A, in Oils, Spectrophotometric and Biological Assay. N. H. Coy, H. L. Sassaman, and Archie Black..... 74

A, Photoelectric Photometer for Measurement of

 Beaumont Demarest..... 374

 A. E. Parker and B. L. Oser..... 260

C (Ascorbic Acid)

 Determination in Citrus Fruit Juices. Robert Ballentine..... 89

 Determination in Plant Materials by Photometric Method. S. A. Morell..... 793

 Determination by Polarographic Analysis. M. M. Kirk..... 625

 Oxygen Dissolved in Milk Determined by Quantitative Ascorbic Acid Oxidase Method. P. F. Sharp, D. B. Hand, and E. S. Guthrie..... 593

Carotene

 and Chlorophyll Determination, Simplification of Petering-Wolman-Hibbard Method. H. G. Petering, E. J. Benne, and P. W. Morgal..... 238

 and Cryptoxanthin Determination in Yellow Corn. G. S. Fraps and A. R. Kemmerer..... 806

 Extraction from Plant Material. L. A. Moore and Ray Ely..... 600

Nicotinic Acid Determination in Flour and Bread. Daniel Melnick, B. L. Oser, and Louis Siegel..... 879

Nicotinic Acid Microdetermination. Aaron Arnold, C. B. Schrefler, and S. T. Lipsius..... 62

Pantothenic Acid, Microbiological Assay for. F. M. Strong, R. E. Feeny, and Ann Earle..... 566

Riboflavin and Thiamin Determined in Food Products at Same Time. R. T. Conner and G. J. Straub..... 385

Symposium on

 A, Physical and Chemical Determination. J. B. Wilkie..... 209

 B₁, Chemical Methods for. D. J. Hennessy..... 216

 B₂ (Riboflavin), Bioassay, Microbiological, and Fluorometric Methods. A. D. Emmett, O. D. Bird, R. A. Brown, Gail Peacock, and J. M. Vandenbelt..... 219

 C, Chemical Methods for. C. G. King..... 225

 Carotene Determination, Developments in Methods for. W. J. Peterson..... 212

 D, Estimation by Spectroscopic Quantitative Method. N. A. Milas, Robert Heggie, and J. A. Reynolds..... 227

 Nicotinic Acid and B₆ (Pyridoxine) Estimation. H. A. Waisman and C. A. Elvehjem..... 221

 Thiamin Determination by Thiochrome Reaction. R. T. Conner and G. J. Straub..... 380

Voltmeter of Continuous-Reading Electronic Type for Glass and Other High-Resistance Electrode Systems. C. J. Penther, F. B. Rolfsen, and Louis Lykken..... 831

Volumetric Flasks for Microanalysis. E. R. Caley..... 204

Volumetric Tubes for Small Volumes. F. E. Holmes..... 586

W

Waste, Industrial, Grease Determination in. Richard Pomeroy and C. M. Wakeman..... 795

WATER

 Analysis, Colorimetric, in Photoelectric Photometer. W. D. Hatfield and G. E. Phillips..... 430

 Bath for Cooking, Mashing, and Fermentation in Laboratory. H. W. Coles and W. E. Tournay..... 840

 Calcium Carbonate Saturation Balance Indicator. A. A. Hirsch..... 811

 Carbonate Estimation in, with Bromocresol Green-Methyl Red Indicator. S. S. Cooper..... 466

 Determination

 in Benzene. J. H. Simons and E. M. Kipp..... 328

 in Insulating Oil by Electrical Method. R. N. Evans, J. E. Davenport, and A. J. Revukas..... 589

 in Sugar Products

 Filter-Cel for Corn Sirup. J. E. Cleland and W. R. Fetzer..... 858

 Filter Paper for Corn Sirup. J. W. Evans and W. R. Fetzer..... 855

 Distillation, Silica and Pyrex Glass Still with Automatic Constant-Pressure Feeds. C. S. Piper and A. C. Oertel..... 191

 Fluoride Determination in, by Modified Zirconium-Alizarin Method. W. L. Lamar and C. G. Seegmiller..... 901

 of Lakes, Perchloric Acid Oxidation of Organic Phosphorus in. R. J. Robinson..... 465

 Moisture-Transfusion Apparatus, Magnetic Stirrer for Cup Type of. H. K. Burr and A. J. Stamm..... 655

 Pollution, Biochemical Oxygen Demand Determination in. Comparison of Azide and Rideal-Stewart Modifications of Winkler Method. O. R. Placak and C. C. Ruchhoff..... 12

 Remover of Continuous Type. J. H. Thelin..... 405

 Silica Dissolved in, Determined by Photometric Method. H. L. Kahler..... 536

 Waste-Eliminating Apparatus for Filter Pump. F. E. Holmes..... 759

 Wax Determination in Asphaltic Products. Propane-Hexane Method. E. C. Knowles and Harry Levin..... 314

 Winkler Method, Azide and Rideal-Stewart Modifications Compared in Determination of Biochemical Oxygen Demand. O. R. Placak and C. C. Ruchhoff..... 12

 Winkler Method for Dissolved Oxygen, Sulfamic Acid Modification of. Stuart Cohen and C. C. Ruchhoff..... 622

 Woburn Iodine Value. See Iodine.

 Wood, Har. Heartwood and Sapwood Analysis. R. D. Freeman and F. C. Peterson..... 803

 Wool, Imported, Sampled for Determination of Clean Wool Content. H. J. Wollner and Louis Tanner..... 883

X

X-Ray as Instrumental Method of Analysis. R. H. Müller..... 695

Y

Ytterbium and Europium Determination in Rare Earth Mixtures. H. A. Laitinen and W. A. Taebel..... 825

Z

Zimmerman-Reinhardt Method. See Iron Determination.

ZINC

 Coprecipitation with Copper by Lead Sulfate Studied Spectrographically. Louis Waldbauer, F. W. Rolf, and H. A. Frediani..... 888

 Determination

 in Die-Casting Alloys by Quantitative Spectrochemical Method. M. F. Hasler and C. E. Harvey..... 540

 in Fertilizers as Trace, by Spectrochemical Analysis. R. T. O'Connor..... 597

 in Plant Materials, Photometric Dithizone Method. Hale Cowling and E. J. Miller..... 145

 Precipitation as Zinc Sulfide from Ammonium Citrate-Citric Acid Solution. S. A. Coleman and G. B. L. Smith..... 377

 Semimicrodetermination by Precipitation as Zinc Anthranilate. C. W. Anderson..... 367

 Zinc Anthranilate. See preceding item.

 Zinc Sulfide Precipitation from Ammonium Citrate-Citric Acid Solution. S. A. Coleman and G. B. L. Smith..... 377

 Zirconium Determination in Steel, Rapid Colorimetric Method. W. G. Hayes and E. W. Jones..... 603
