# CHEMICAL & METALLURGICAL ENGINEERING

R. S. McBRIDE  
Washington  
PAUL D. V. MANNING  
San Francisco  
Editorial Representatives  
M. A. WILLIAMSON  
Publishing Director

S. D. KIRKPATRICK, Editor

Chemical & Metallurgical Engineering is the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGraw-Hill Publishing Company, Inc., New York City

## Volume XL

January to December, 1933

### GENERAL ALPHABETICAL INDEX

	Pages
January	1 to 56
February	57 to 112
March	113 to 168
April	169 to 224
May	225 to 280
June	281 to 336
July	337 to 392
August	393 to 448
September	449 to 504
October	505 to 560
November	561 to 616
December	617 to 672

#### A

##### Accounting:

Accounting, cost, and the chemical engineer. Peterkin & Jones ..... 86, 133  
Control accounting under the code. H. P. Dutton ..... 594  
Acetylene, hydration of, at Shawinigan Chemicals, Ltd., Canada. A. F. G. Cadenhead ..... \*184

##### Acids:

Dehydrating aqueous solutions of acetic acid. D. F. Othmer ..... \*631  
Hydrofluoric acid ..... 51  
Production of acids, 1931-1929 ..... 45  
Adsorption and absorption developments ..... \*259  
Aggregate, alundum (E. N.) ..... 375  
Agricultural prospects, influence of on chemical industry. C. J. Brand (charts) ..... 18

##### Air:

Air conditioning equipment needs corrosion study ..... 151  
Air conditioning in chemical industries. S. B. Lincoln ..... 28  
De-airing clay ..... 270  
De-airing for clays and other plastic products. H. R. Straight ..... \*410  
Progress in air separation ..... 261  
Trends in air conditioning ..... 257

##### Alcohol:

Alky gas still packs political power (ed.) ..... 395  
Butyl alcohol production ..... 47  
Denatured alcohol production ..... 46  
Production and consumption ..... 460

Aliphatic compounds. See Carbon.

##### Alkali:

Checking caustic corrosion with nickel and its alloys ..... 528  
Crystalline sodium metasilicate ..... 233  
50 years in ammonia-soda alkali industry. E. N. Trump ..... \*126  
Flowsheet for electrolytic alkali ..... \*466  
Production of alkalis in 1932 ..... 34  
Serving the Northwest with alkalis. J. H. Baker ..... \*177  
Sodium metasilicate ..... 233

##### Alloys:

Pulp and paper industry's interest in alloys ..... 80  
Alumilite process for coating and coloring aluminum ..... 135  
Aluminum-coating and coloring aluminum by alumilite process ..... 135  
Aluminum compounds and alum production of ..... 49  
American Chemical Society—Chicago convention ..... 495  
American Gas Assn.—discusses new methods of producing gas ..... 310  
American Institute of Chemical Engineers—Twenty-fifth semi-annual meeting in Chicago ..... 313  
Roanoke meeting ..... 629  
American Society for Testing Materials—

Chicago meeting ..... 358  
American Society of Mechanical Engineers  
—Chicago meeting ..... 355  
Heat transfer subject of meeting ..... 659  
**Ammonia:**  
Ammonia converter ..... \*363  
Data on ammonia-thylox gas purification process. R. S. McBride ..... \*398  
50 years in ammonia-soda alkali industry. E. N. Trump ..... \*126  
National Safety Council discusses synthetic ammonia plants ..... 531  
Production ..... 47  
Asphalt emulsion manufacture increases. Fain & Hixson ..... \*180  
Asphalt emulsions—chart for determining water content. O. F. Neitzke (P. N.) ..... \*658  
Asphalt impregnated tile ..... 81  
Autoclave, glass lined (E. N.) ..... \*210

**Automobiles:**  
List of process products used in motor car industry ..... 17  
Process industries as purveyors to the motor car. T. A. Boyd ..... 15  
Aviation's need for chemical developments. E. P. Warner ..... 27

##### Awards:

Chemical & Metallurgical Engineering offers award for chemical engineering achievement ..... \*226  
Chemical engineering achievement (ed.) ..... 506, \*563, \*627

#### B

Bagpacker (E. N.) ..... \*153  
Barrel-filling equipment (E. N.) ..... 434  
Base, sound isolating (E. N.) ..... 375

**Belt:**  
Acidproof (E. N.) ..... 95  
Flexible conveyor (E. N.) ..... 321  
Non skid (E. N.) ..... \*96  
Beverage distilling from grain. G. T. Reich ..... \*618  
Boiler, waste heat (E. N.) ..... \*545  
Bolts and flanges for tanks and heat exchangers. C. O. Sandstrom ..... \*67  
Bolts and flanges for tanks and heat exchangers. Wertheim, Sandstrom (c.) ..... 314

##### Book Reviews:

Alcohol and man, ed. by Haven Emerson ..... 427  
Allgemeine und technische elektrometallurgie. Robert Müller ..... 373  
Alloys of iron and molybdenum. J. L. Gregg ..... 429  
American Gas Assn. proceedings, 1932 ..... 373  
Annual report on the progress of chemistry for 1932 ..... 541  
Annual survey of American chemistry, ed. by C. J. West ..... 541  
Berl-Jung chemisch untersuchungs-methode. Ernest Berl ..... 372  
British chemicals and their manufacturers ..... 429  
Bulletin of the National Research Council, West & Hull ..... 650  
Business plastics year book for 1933 ..... 372  
Business under the Recovery Act. Valentstein & Weiss ..... 485  
Catalytic oxidation of organic compounds in the vapor phase. Marek & Hahn ..... 93  
Chemical economics. Williams Haynes ..... 597  
Chemical refining of petroleum. Kalchevsky & Stagner ..... 540  
Chemie der zemente. K. E. Dorsch ..... 319  
Chemischer handatlas. W. W. Meissner ..... 508  
Chemistry triumphant. W. J. Hale ..... 149  
Chromium plating. E. S. Richards ..... 319  
Common sense applied to time and motion study. A. H. Mogesen ..... 318

Comprehensive treatise on inorganic and theoretical chemistry. J. W. Mellor ..... 149  
Compressed Gas Manufacturers Assn. ..... 373  
Conductivity of solutions. C. W. Davies ..... 597  
Debt and production. Bassett Jones ..... 540  
Dechema monographien No. 48. Ernst Jantzen ..... 319  
Der chemie-ingeniieur. Eucken & Jakob ..... 598  
Designing for arc welding ..... 429  
Development of American industries. Glover & Cornell ..... 92  
Die alkalichloridelektrolyse in dia-phragmazellen. Gosta Angel ..... 428  
Die elektrische warmbehandlung in der industrie. E. F. Russ ..... 373  
Die Kunsthischen Kohlen für elektrische ofen, electrolyse und elektrotechnik. Kurt Arndt ..... 92  
Earth oil. Gustav Egloff ..... 429  
Elder Pliny's chapters on chemical subjects. K. C. Bailey ..... 316  
Elementary quantitative analysis. Willard & Furman ..... 428  
Engineer's manual of English. Sypher & Brown ..... 486  
Evaporating, condensing and cooling apparatus ..... 486  
Flotation plant practice. Philip Rabone ..... 318  
Grundlagen des elektrischen schmelzofens. Johannes Wotschke ..... 598  
Handbook of butane-propane gases, ed. by G. H. Finley ..... 92  
Handbuch der technischen elektrochemie. Victor Engelhardt ..... 373  
Heat transmission. W. H. McAdams ..... 206  
Industrial chemistry. W. T. Read ..... 485  
Industrial chemistry. E. R. Riegel ..... 541  
Industrial electric heating. N. R. Stansel ..... 317  
Die industrielle herstellung von wasserstoff. Heinrich Pincass ..... 149  
Inorganic colloid chemistry. H. B. Weiser ..... 485  
Introduction to metallography. L. W. Eastwood ..... 149  
Latex and its industrial applications. Frederick Marchionna ..... 649  
Lehrbuch der chemischen technologie. H. Ost ..... 319  
Les soies artificielles. H. de Leeuw ..... 316  
Man and metals. T. A. Richard ..... 318  
Manganese deposits of Canada. G. Hanson ..... 206  
Methods of cellulose chemistry. Charles Doree ..... 597  
Mineral industry during 1932, ed. by G. A. Roush ..... 649  
Modern alchemy. W. A. Noyes and W. A. Noyes ..... 317  
Modern industrial organization. H. von Beckerath ..... 485  
Modern materials handling. S. J. Koskin ..... 148  
Organic syntheses, ed. by W. H. Carothers ..... 541  
Organic chemistry. F. S. Kipping and F. B. Kipping ..... 373  
Our mineral civilization. T. T. Read ..... 149  
PH and its practical application. LaMotte, Kenny and Reed ..... 206  
Perfumes, cosmetics and soaps. W. A. Poucher ..... 318  
Petroleum development and technology. Reilly & Norman ..... 486  
Physico-chemical methods. McAlpine & Soule ..... 372  
Precipitated chalk. A. P. Wilson ..... 650  
Prescott and Johnson's qualitative chemical analysis. McAlpine & Soule ..... 428  
Principles of metallurgy. Liddell & Doan ..... 649  
Proceedings of American Gas Assn., 1931 convention ..... 373  
Profit engineering. C. E. Knospel ..... 427  
Rare-element minerals of Canada. H. V. Ellsworth ..... 206  
Relativity theory simplified. Max Talmey ..... 149

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; (Illustrated); (P. N.) Plant Notebook; (S) Synopsis or abstract.

Sanitation of water supplies. M. P. Horwood	148
Scientific principles of petroleum technology. Gurwitsch & Moore	148
Significance of nitrogen. J. E. Zanetti	92
Sicherheitsglas. H. G. Bodenbender	650
Sparks from the electrode. C. L. Mantell	429
Standards and specifications for metals and metal products	486
Symposium on air conditioning. A.S.M.E.	650
Technical man sells his services. Edward Hurst	316
Technology of cellulose ethers. E. C. Worden	427
Ternare systems. G. Masing	598
Textbook of fire assaying. E. E. Bugbee	541
Textbook of physical chemistry. J. N. Friend	319
Transactions of American Institute of Chemical Engineers	486
Transactions of the Institution of Chemical Engineers	650
Treatment of water for ice manufacture. Dana Burks	316
Twenty-five years of chemical engineering progress, ed. by S. D. Kirkpatrick	316
Unit processes and principles of chemical engineering. J. C. Olsen	147 (c.) 204
Value theory and business cycles. H. L. McCracken	485
Vocational guidance in engineering lines	428
What is technocracy? Allen Raymond	92

**Brewing:**

Changes among construction materials	*272
materials	*272
New fields of opportunity. Robert Schwarz	27
Brick, magnesite (E. N.)	548
Brick, refractory (E. N.)	374
Brine, Mid-Continent, yields bromine and salt products	*414
Broken studs removed (P. N.)	543
Bromine consumption	234
Bromine from brine	*414
Burner, combination (E. N.)	*489
Burners, improved (E. N.)	490
Business, Now, united, we go ahead! (ed.)	113

**C**

Cable, glyptal-treated (E. N.)	433
Calcium chloride from brine	*414
Calculators, belt conveyor (E. N.)	*61
Carbide & Carbon Chemicals Corporation receives award for chemical engineering achievement	*563
Carbide, calcium, manufacturing at Shawinigan Chemicals, Ltd., Canada. A. F. G. Cadenhead	*184

**Carbon:**

Powdered activated carbon	259
Synthetic aliphatic chemicals industry and Carbide & Carbon Chemical Corp.	*564

**Carbon Dioxide:**

Carbon dioxide in industry. C. L. Jones	76
Michigan Alkali produces CO <sub>2</sub> as a byproduct from causticizing lime kilns. S. T. Orr	*250
Cellulose acetate, the basis of diversified process industry in Tennessee Eastman plant. S. D. Kirkpatrick	*236
Cellulose of rice hulls. E. C. Pattee	365
Cement manufacture, potash recovery from. P. E. Landolt	*345
Centrifugal separation	260
Centrifuge, basket, inclosed (P. N.)	*430

**Century of Progress:**

Chemical engineering impressions	*339
Jekyll and Hyde at the World's Fair (ed.)	338

**Ceramics:**

De-airing for clays and other plastic products. H. R. Straight	*410
De-airing in ceramics	234
Fired clay materials	309
Chain, corrosion-resisting (E. N.)	96
Chart interpretation, recorder. W. R. Cleindinning	*123

**Chemical Engineering:**

Award for chemical engineering achievement	*226, *563, *627
Back to school for graduate work (ed.)	450
Balance wheel of industry (ed.)	561
Chemical engineer's role in group achievement. W. F. Barrett	*626
Cooperative research at University of Illinois. D. B. Keyes	*402
Depression and chemical engineering	*230
Impressions of a Century of Progress	*339
Objectives of a course in chemical engineering. W. R. Veazey	*193
Quarter of a century for chemical engineering (ed.)	282
Unit processes or operations? J. C. Olsen (c.)	204
What's ahead for chemical engineering? (ed.)	1

Chemical Exposition (ed.)	338
Chemical Industries Exposition, Nov. adv.	57

**Chemical Industry:**

Chemical warfare in mob and crime control. K. A. Kobe	*60
Dictators for industry? (ed.)	169
Medal	*607
Process industries (ed.)	3

Statistics of chemical industry show that it has withstood the depression. Cancannon & Swift	459
Text of all chemical industry code	396
<b>Chemical &amp; Metallurgical Engineering:</b>	
Award for chemical engineering achievement	*226, *563, *627
Historical summary	2
<b>Chemicals:</b>	
Distribution of chemicals forecast	51
Secondary materials in chemical competition (ed.)	115
Chimney construction. F. D. Hartford (P. N.)	*487
<b>Chlorine:</b>	
Flowsheet of the electrolytic process for liquid chlorine, caustic soda and synthetic muratic acid	466
Liquid chlorine produced in the Northwest. J. H. Baker	*177
Classification	261
Cleaner, conveyor belt (E. N.)	374
Cleanout openings. F. D. Hartford (P. N.)	*542
Coal, Pulverizer discussion at A.S.M.E. meeting	355
<b>Codes:</b>	
All industry code (ed.)	394
Chemical codes demand industry's cooperation	507
Chemical engineering equipment manufacturers draft codes	452
Chemical engineers draw up code	451
Chemical industry presents its case and its code	453
Chemical manufacturing industries draft code	452
Codes approved	606
Commercial testing laboratories draft code	451
Flow chart of typical code through set up of the National Industrial Recovery Act	380
Process competition under the codes (ed.)	393
Text of all chemical industry code	396
<b>Coke and Coking:</b>	
Byproducts obtained from coke oven operations in 1931	47
Coal washing benefits coke oven operation. H. W. Seyler	*470
Coke and coal products in 1932	35
Conveying systems for barge loading and unloading	*136
College graduates. Anthony Anable	83
Compressed Gas Manufacturers Assn.—Meeting looks to new uses for compressed gases	82
<b>Compressor:</b>	
Booster, conquers low temperature. C. W. Selheimer, Jr. (P. N.)	*543
Improved (E. N.)	545
Compressor plant gas engine has remote control. F. L. Kallam (P. N.)	*599
Sleeve-valve (E. N.)	*375
Concrete, prestressing — Chemical Exposition	654
Condenser, semi plant. G. E. Seavoy (P. N.)	*430
Construction challenges chemical engineering talents. F. E. Schmitt	23
Construction contracts (ed.)	449
Container, fiber (E. N.)	*321
Recording and control instruments affect savings (P. N.)	657
<b>Control:</b>	
Control accounting under the code. H. P. Dutton	594
Emergency remote control for gas engines in compressor plants. F. L. Kallam (P. N.)	*599
Improved control equipment	267
Improving automatic control by recorder chart interpretation. W. R. Clendinning	*123
Measurement and control of hydrogen ion concentration. G. A. Perley	*417
Process control at the Dow Chemical Co. T. R. Olive	*520
Process control—its place in modernization. J. Y. Smith	588
Process cycle control in the rubber industry. Leonard Church	*536
Protective device for electrical equipment. J. V. Alfriend, Jr.	*532
Recording and control instruments affect savings (P. N.)	657
<b>Controllers:</b>	
Classed by speed and differential	124
Combustion (E. N.)	*321
Flow controller (E. N.)	*433
Motor operated (E. N.)	375
Multi position (E. N.)	*490
Process control for the Dow Chemical Co. T. R. Olive	*520
Ratio (E. N.)	*321
Time temperature (E. N.)	488
<b>Conveyors:</b>	
Barge loading and unloading	*136
Cooling tower with downcomers has special expansion joint. Bernard Kramer (P. N.)	*377
Cooling towers, grid packed, for dry gas at high temperature. Furnas & Newton	*301
<b>Corrosion:</b>	
Air conditioning equipment needs corrosion study	151
Bureau of Standards studies protection of piping against soil action. K. H. Logan	514
Cast iron for chemical equipment. W. H. Rother	*350
Checking caustic corrosion with nickel and its alloys	528
Corrosion in shipboarders	409
Electrochemical Society discusses	464
French chemical industries use cast iron. A. Matagrano	*480
Hydrogen corrosion. J. L. Cox	405
Pipe jointing compounds containing sulphur eaten by bacteria. Beckwith & Bovard	530
Resisting HCl corrosion with metals. F. A. Rohrman	*646
Resinous equipment solves corrosion problems	*201
Rubber coatings for abrasion and corrosion resistance. Leonard Church	*467
<b>Costs:</b>	
Are you paying for new equipment you never get? T. R. Olive	*584
Cost accounting and the chemical engineer. Peterkin & Jones	86, 133
Data on ammonia-thyloxy gas-purification process. R. S. McBride	*398
Power plant losses must be curbed. G. W. Anderson	*579
Cottonseed meat processing. Woolrich & Carpenter	*291
<b>Couplings:</b>	
Chain flexible (E. N.)	321
Four-duty (E. N.)	489
Gear type (E. N.)	*545
Light-duty (E. N.)	*601
<b>Crystallization:</b>	
Sugar crystallization improved by better evaporation	*253
Vacuum crystallization progresses	*258
<b>D</b>	
Dehydrating aqueous solutions of acetic acid. D. F. Othmer	*631
<b>Design:</b>	
Hints for a chemical machinery designer. Alan Osbourne (P. N.)	431
Hints for designers of process equipment. F. D. Hartford (P. N.)	*512
Desuperheater (E. N.)	*154
Detector, magnetic impurity (E. N.)	152
Detergents, soapless	*249
Digestion process, liquors recovered from	246
Dilution calculations simplified. G. S. Santmyers (P. N.)	*657
Diphenyloxide heat transfer system	*262
<b>Distillation:</b>	
Comparison of methanol and other anti-freeze agents. T. C. Albin	*526
Distilling beverage from grain. G. T. Reich	*618
Equipment for semi works plant. D. E. Pierce	424
Hardwood distillation. R. S. McBride (charts)	40
Oil refinery uses newest still to increase yield of lubricating oils. Paul Truesdell	*517
Preventing fog entrainment in continuous distillation. Birch & Weir	*366
Research in distillation. D. F. Othmer	*254
Tennessee Eastman wood distillation unit the basis for a diversified process industry during the depression. S. D. Kirkpatrick	*236
Dolomite in fertilizers	188
Draft control (E. N.)	154
<b>Drying:</b>	
Air lay dryer (E. N.)	*600
Dehydrating aqueous solutions of acetic acid. D. F. Othmer	*631
Devices at the Chemical Show	651
Equipment for semi works plant. D. E. Pierce	424
Grinding and drying in one operation. L. T. Work	*306
Oil emulsion dehydrator (E. N.)	656
Process drying technique improves during the depression	256
Drum, lead lined (E. N.)	*544
Dust helmet (E. N.)	96
<b>Dust and Fume Handling:</b>	
Diameter of cyclonic collector correlated with collection efficiency. Evald Anderson	*525
Dust collector, All-metal (E. N.)	*656
Dust scrubbing towers for dry gas. Furnace & Newton	*301
Multicione process to recover potash from cement. P. E. Landolt	*345
Proper venting may prevent secondary explosions (ed.)	115
Venting dust explosions. Brown & Hanson	*116
Dye-plant equipment	62
<b>E</b>	
Economic influences on chemicals	106, 162, 218, 330, 386, 442, 498, 554, 610
<b>Economics:</b>	
Advancing through adversity (ed.)	225
Depression achievements number	May
Editorial interpretation of the administration's recovery program	274
Problems ahead of profits (ed.)	337
<b>Editorials:</b>	
Advancing through adversity	225
After technocracy—what?	59
Alky gas still packs political power	395
All industry code	394
Another partnership in the new deal	505
Back to school for graduate work	450

Balance wheel of industry	561	Cooling tower, indoor	*209
Bargaining tariffs may have their chance	170	Coupling, flexible	321
Building purchasing power	449	Coupling, four duty	489
Business is better	282	Coupling, gear type	545
Can't we eliminate this cause for chiseling?	114	Coupling, light-duty	*601
The case for modernization	571	Dehydrator, oil emulsion	*656
Chemical engineering's quarter of a century	282	Desuperheater, improved	154
Chemical show	562	Detector, mercury	600
Congratulations to the winner	506	Drum, lead lined	*544
Dictators for industry?	169	Dryer, air-lay	*600
Fitting memorial for William P. Ryan	338	Dust collector	*656
Flexible tariff gets court support	58	Dust helmet	96
Good start on a bad problem	338	Dye-plant equipment	62
Honoring another electrochemical pioneer	450	Electrical instruments, portable	97
How Congress can help industry	617	Engines, steam	96
Illinois must tax to build sewage works	282	Feeder, dry chemical	*152
Investing in man power	59	Feeder, liquid reagent	*655
Is deferred maintenance responsible for this?	282	Filter, pressure	*320
Jekyll and Hyde at the World's Fair	338	Filter, vacuum	*488
Let's make the most of this chemical show	450	Flux, new type	154
Looking forward into 1933 with process industries	3	Foam generator	546
Must Georgia's experiment come to such an untimely end?	171	Gage, portable draft	153
New patent law needed to protect private industry	395	Gears, high ratio reducers	97
New standard for the chemical show	338	Generators, miniature steam	96
Now, united, we go ahead!	113	Generator, steam	*376
One promising prospect for the Tennessee Valley	282	Goggle, transparent-cup	*322
Plans + action = results	281	Heat exchanger, vertical	*208
Potash independence guaranteed for 1934	115	Heater, fin-tube	209
President elect dreams—will the Tennessee Valley boom?	58	Hoist, high speed	376
Problems ahead of profits	337	Hoist, mobile drum	97
Process competition under the codes	393	Humidifier, heater	209
Proper venting may prevent secondary explosions	115	Idler, universal belt	*546
Reports of NRA's death greatly exaggerated	506	Indicator, gas	*544
Secondary materials in chemical competition	115	Indicator, screen angle	152
Shorter work week for business revival	170	Kiln mill	*96
Should we put alcohol in motor fuel?	114	Lining, rubber	208
Social changes and implications	57	Lintel, glass block	*432
Standardization must not lag now	395	Locomotives, industrial	97
T.V.A. selects its chief chemical engineer	450	Lubricating pastes	375
Trucking chemicals deserves new consideration	506	Magnetic impurity detector	152
Wanted: new uses for bromine	171	Making radiographic inspections of chemical equipment	H. P. Isenburger
Welcome change of conflicting dates	506	Meter, acidity	*130
What's ahead for chemical engineering?	1	Meter, area-type flow	322
What's happening in engineering education?	58	Meter, flow	*320
Where haste saves waste	394	Meter, recording	*434
Which shall it be N, K, or P—or all three?	394	Meter, photoelectric hardness	*488
Who will speak for process industry?	114	Meter for registering transparency	488
<b>Electricity:</b>		Mill, centrifugal ball	*95
Electrometric analyzers at the Dow Chemical Co. T. R. Olive	*520	Mixer, Banbury	96
Magnetic separation	261	Mixer, centrifugal	*152
Measurement and control of hydrogen ion concentration	G. A. Perley	Mixer, intensive	*433
Portable electrical instruments (E. N.)	97	Motor, varidrive	*208
Protective devices for electrical equipment	J. V. Alfried, Jr.	Motorized control	434
Switch, mercury (E. N.)	488	Odor remover	490
<b>Electrochemical Society:</b>		Packer	*602
Chicago meeting	*463	Packer, paper bag	*153
Montreal convention described	*298	Packer, vibrating barrel	*375
Montreal meeting	276	Photoelectric apparatus	153
Electrochemistry, march of	C. L. Mantell	Photoelectric cell	375
Electronics—new hybrid of chemistry and electricity	O. H. Caldwell	Pipe, cement lined	*97
Enameling cast iron abroad	482	Pipe cutter, portable	*97
Engineering education (ed.)	58	Pipe dope	321
Engines, gas in compressor plants have remote control	F. L. Kallam (P. N.)	Pipe fittings	433
Engines, steam (E. N.)	96	Potentiometer Stabilog	*210
Electroplating	14	Press, hydraulic	*489
Equipment, chemical, design	Alan Osborne (P. N.)	Primer, pump	322
Equipment design	F. D. Hartford (P. N.)	Pulverizer, air separation	*600
Equipment of cast iron	W. H. Rother	Pumps, axial-flow	*97
<b>Equipment News:</b>		Pump, hydraulic	*375
Aggregate, alundum	375	Pump, pneumatic cement	208
Are you paying for new equipment you never get? T. R. Olive	*584	Pump, rotary piston	*153
Autoclave, glass-lined	*210	Pump, rotary vacuum	*544
Barrel-filling equipment	434	Pump, self priming	*210
Base, sound isolating	375	Pump, turbine type	*374
Belts, acidproof	95	Recorder, electric flow	*601
Belt, flexible conveyor	321	Recorder, round-chart	*98
Belt, non-skid	*96	Reducer, motorized	153
Boiler, waste heat	545	Refrigeration unit, vacuum	97
Brick, magnesite	546	Regulator, furnace draft	601
Brick, refractory	374	Separator, centrifugal	*648
Brief notices of new equipment	432	Separator for liquids, magnetic	602
Burner, combination	489, 544, 600, 655	Separator, induction	95
Burners, improved	490	Sieves and screens	*96
Cable, glyptal-treated	433	Speed reducer	*209
Calculators for belt conveyor	*601	Stoker, automatic underfeed	152
Chain, corrosion-resisting	96	Stoker, hydraulic	154
Chemical Exposition	651	Stoneware, chemical	433
Cleaner, conveyor belt	374	Switch, mercury	489
Compressors, improved	545	Tanks, enamel-lined	546
Compressor, sleeve valve	*375	Temperature-sensitive foil	600
Controller, draft	154	Tester, moisture	545
Container, fiber	321	Tester, stiffness	656
