

SPIS TREŚCI

	Str.
1. Andrzej Mika - Szkic zyciorysu prof. Mieczysława Kucharzewskiego	5
2. Jerzy Błahut - Profesor Kucharzewski - kilka faktów z zyciorysu spisanych po rozmowie z jubilatą	17
3. Piotr Antosik, Józef Burzyk - A theorem on continuous convergence	21
4. János Aczél, Marek Kuczma - On two related types of functional equations describing mean value properties	27
5. Feliks Barański, Jan Musiałek - Biparabolic problem for the curvilinear trapezium	37
6. Karol Baron - On a problem of Z. Daróczy	51
7. Siegfried Gähler, Zbigniew Żekanowski - Some properties of almost symplectic pseudo-Riemannian manifolds	55
8. Jacek Gancarzewicz - Prolongations of conjugate connections ...	61
9. Roman Ger - Stability of addition formulæ for trigonometric mappings	75
10. Jerzy Górecki - On the Bieberbach inequalities in the class \tilde{S} ..	85
11. Antoni Jakubowicz - On homomorphism connected with derivation ..	89
12. Andrzej Kamiński - Remarks on the convolution of distributions with compatible supports	107
13. Zofia Kareńska - Purely differential geometric objects of the type $[3,2,1]$ with a linear non-homogenous transformation formula	123
14. Ivan Kolář - Natural operators transforming vector fields and exterior forms into exterior forms	135
15. Zbigniew Kowalski - On some problem in geometry for connoisseurs	141
16. Irena Łojczyk-Królikiewicz - The limiting properties of the solutions of systems of parabolic functional-differential equations	145
17. Irena Łojczyk-Królikiewicz - The asymptotic behaviour of solutions to systems of parabolic differential-functional equations ..	161
18. Stanisław Midura, Barbara Osika - On subsemigroups of the group L_4^1 with a faithful parametrization	179
19. Zenon Moszner - Les objets abstraits comme les systèmes des sous-groupes	191

	Str.
20. Józef Tabor - Restricted stability of the Cauchy and the Pexider equations	203
21. Lajos Tomassy - On the existence of a fundamental function in Finsler spaces	223
22. György Targoński - On composition operators	229
23. Paweł G. Walczak - On the map between the sets of points at infinity in the case of 1-dimensional foliation of the torus .	235
24. Włodzimierz Waliszewski - On exterior differential in premanifolds of finite dimension	239
