TRADE MARKED  
**JOSEF KAVALIER**  
**Bohemian Glassware**

Until recent years best Bohemian Glassware signified that manufactured at the famous factory of JOSEF KAVALIER, Sazava, Bohemia.

Of late, many very inferior imitations have been put on the market, and sold as the **Genuine** JOSEF KAVALIER, resulting in some chemists obtaining a poor opinion of this glassware. To safeguard your interests when ordering JOSEF KAVALIER ware the manufacturer has now registered this trade-mark which is stamped on every article, excepting combustion tubing which is now registered this stamped on every bottles and combustion tubing which are provided with labels.

Prof. Kohlrausch, in his "Treatise on Glass," states that JOSEF KAVALIER glassware is the best alkali-resisting chemical glassware manufactured. This hard glass, although a trifle thinner than some other wares, is unusually uniform, and can safely be heated over the bare flame, and contents heated in the least possible time. JOSEF KAVALIER glassware costs a trifle more than ordinary ware, but it is by far the cheapest in the end.

**Insist on the ware bearing the trade-mark.  
 Accept no substitutes.**
