

SUBJECT INDEX

THE JOURNAL OF INDUSTRIAL AND ENGINEERING CHEMISTRY VOLUME V, 1913

<p>ABRASIVE, "Electrit." Note..... 79</p> <p>Abstracts, Chemical, On a Criticism of. A. M. Patterson..... 783</p> <p>Acetylene and Calcium Carbide, Industrial Uses of. Note..... 606</p> <p>Acetylene Solvents. J. H. James..... 115</p> <p>Addresses..... 51, 151, 236, 321, 417, 491, 582, 677, 757, 854, 943, 1019</p> <p>Agricultural and Food Chemistry Division A. C. S. G. F. Mason, Secretary. 48th Meeting (Rochester) Report..... 956</p> <p>Air Pumps, Condenser, Efficiency of. Note..... 516</p> <p>Albumin and Lecithin Industry. Note..... 340</p> <p>Alcohol Production and Use in France. Note..... 1029</p> <p>Alcohol Requirement of the Pure Food and Drug Law. Accuracy of Alcohol Assays of Pharmaceutical Preparations. C. H. Briggs.. 29</p> <p>Alcohol, Solid. Note..... 607</p> <p>Alcohol, Wood, Abstract of N. Y. State Factory Investigating Commission's Report by C. Baskerville..... 768</p> <p>Alcohol, Wood. Editorial..... 712</p> <p>Alkali Inspector's Report for 1912, For England, Ireland and Wales.. 779</p> <p>"Allophanoids" for Water Purification. Note..... 79</p> <p>Alloy for Reducing Electrical Losses in Bus-bar Joints. Note..... 425</p> <p>Alloys of Cobalt with Chromium, etc. E. Haynes..... 189</p> <p>Alloys of Lead, Tin, Antimony and Copper, Analysis of. D. J. Demorest..... 842</p> <p>Alsberg, Carl L.—New Chief of Bureau of Chemistry. Note..... 170</p> <p>Alumina and Aluminum from Mineral Silicates. A. H. Cowles..... 331</p> <p>Alumina Production and Fixation of Nitrogen. S. A. Tucker..... 191</p> <p>Aluminum Alloys. Note..... 1026</p> <p>Aluminum Industry in 1912. Note..... 606</p> <p>Aluminum Nitride, Serpek Process for Manufacture of. J. W. Richards..... 335</p> <p>Aluminum Plate, New Departures in. Note..... 337</p> <p><i>American Chemical Journal</i> to be Combined with the <i>Journal of the American Chemical Society</i>..... 958</p> <p>AMERICAN CHEMICAL SOCIETY.</p> <p>Committee on Coal Analysis. Preliminary Report. W. A. Noyes, Chairman..... 517</p> <p>Committee Report, Centenary of Gas Industry. C. E. Munroe. 81</p> <p>Division of Industrial Chemists and Chemical Engineers New Descriptive Directory. A Note. S. H. Salisbury, Jr... 616</p> <p>47th (Spring) Meeting, Milwaukee, March 25 to 28, 1913.</p> <p>Announcement..... 171</p> <p>Editorial..... 180</p> <p>Program of Papers..... 342</p> <p>48th (Annual) Meeting, Rochester, September 8 to 12, 1913.</p> <p>Announcement..... 528, 701</p> <p>Editorial..... 712, 792</p> <p>Program of Papers..... 868</p> <p>Presidential Address. A. D. Little..... 793</p> <p>Division Reports..... 956</p> <p>Committee Reports, Fertilizer Chemistry Division..... 956</p> <p>Sectional Meetings, Suggestion as to Programs for. B. C. Hesse. 1020</p> <p>Water, Sewerage and Sanitation Section to be Formed at Rochester Meeting. Note..... 702</p> <p>American Chemist, What's the Matter with the? S. Born, 785; D. M. Grosh, 692; J. C. Hartzell, 871; Editorial, J. M. Matthews, 626; W. H. Watkins..... 785</p> <p>American Electrochemical Society. Research Fund. W. R. Whitney. 432</p> <p>23rd General Meeting, Atlantic City, April 3-5, 1913. Program 344</p> <p>24th General Meeting, Denver, September 9-11, 1913. Program 870</p> <p>American Engineers Entertained in Germany. Note..... 783</p> <p>American Institute of Chemical Engineers. Code of Ethics. Editorial 2</p> <p>5th Annual Meeting, Detroit, December 4-7, 1912..... 49</p> <p>Abstracts of Papers..... 50</p> <p>Patent Committee Report..... 51</p> <p>6th Semi-Annual Meeting, Boston, June 25-28, 1913. Program. 528</p> <p>Presidential Address. T. B. Wagner..... 677</p> <p>6th Annual Meeting, New York City, December 10-13, 1913. Program..... 1030</p> <p>American Institute of Electrical Engineers. Resolutions Regarding Patent Legislation. Editorial..... 4</p> <p>Annual Convention, Cooperstown, N. Y., June 23-27, 1913. Abstracts of Papers..... 702</p> <p>American Mining Congress. Editorial..... 882</p> <p>American Petroleum Society. Organization..... 958</p> <p>American Society for Testing Materials and A. C. S. Committee on Coal Analysis. Preliminary Report. W. A. Noyes, Chairman.. 517</p> <p>Ammonia, Electrotechnical Production of. Note..... 75</p>	<p>Ammonia in Fertilizers by Folin's Method. O. Folin and A. W. Bosworth..... 485</p> <p>Ammonia Stills, Modified Bank of. F. Berry and L. H. Van Buskirk. 941</p> <p>Ammonia, Synthetic. F. Haber and R. Le Rossignol..... 328</p> <p>Ammonium Citrate Solution, Neutral, On Preparation of. P. Rudnick and W. L. Latshaw..... 998</p> <p>Ammonium Citrate Solution, Neutral. Simple Preparation. A. J. Patten and W. C. Marti..... 567</p> <p>Ammonium Sulfate in 1912. Note..... 253</p> <p>Ammonium Sulfate, Use of, in China. Consular Note..... 171</p> <p>Anaesthetics, Chemistry of, V: Ethyl Chloride. C. Baskerville and W. A. Hamor..... 828</p> <p>Annual Tables of Constants, Vol. II. Note..... 84</p> <p>Arkosite—Pigment and Filler. Note. S. P. Thatcher..... 83</p> <p>Arsenic, Soluble, in Mixtures of Lead Arsenate and Soap. H. V. Tartar and L. A. Bundy..... 561</p> <p>Ash in Coal, Preliminary Report of Am. Soc. T. M. and A. C. S. Committee. S. W. Parr..... 523</p> <p>Asphalt Specifications, Empirical Requirements in. Address. L. M. Law..... 1021</p> <p>Assay Processes, U. S. P., Interpretation of. F. O. Taylor..... 601</p> <p>Aubert, Alfred Bellamy—Obituary. W. F. Jackman..... 171</p> <p>Austria-Hungary. Status of Chemical Industry. Note..... 424</p> <p>BACTERIA and Yeast, Influence of Ozone on. C. A. Nowak..... 668</p> <p>Bakelite Patent Recognition. Note..... 619</p> <p>Barium Compounds, German Manufacture of. Consular Note. T. H. Norton..... 703</p> <p>Barium Sulfate Precipitation. Apparatus for Unvarying Conditions. H. G. Smith..... 416</p> <p>Battery Plates, Storage, Cadmium. Note..... 1028</p> <p>Beehive Coke Ovens in the U. S. A. W. Belden..... 71</p> <p>Beers, American, from Malt and Unmalted Cereals Examined by Use of Immersion Refractometer. R. Schwarz..... 660</p> <p>Belgium, Chemical Activities. Note..... 161</p> <p>Benzole as a Motor Fuel. Note..... 607</p> <p>Biochemistry. Chairman's Address at 48th Meeting A. C. S., Rochester. C. L. Alsberg..... 1019</p> <p>Bisulfite Extraction of Zinc. Note..... 513</p> <p>Bitumen Pavements, Determination of Mineral Aggregate in. C. C. O'Loughlin..... 320</p> <p>Bitumens and Their Residuals. C. Richardson..... 462</p> <p>Bitumens, Effect of Exposure on. P. Hubbard and C. S. Reeve.... 15</p> <p>Correction..... 260</p> <p>Bituminous and Resinous Substances, Classification. H. Abraham.. 11</p> <p>Boiler Scale, Effect of. Note..... 75</p> <p>Boiler Settings, New Design in. Note..... 864</p> <p>Boilers, Steam, Heat Distribution in Operation of. P. Barker..... 670</p> <p>Book Reviews (see separate heading below).</p> <p>Boron: Properties and Preparation. E. Weintraub..... 106</p> <p>Bouillon Cubes, Analyses of. F. C. Cook..... 989</p> <p>Brass Recovered from Foundry Cinders. Note..... 512</p> <p>Briquetting Fuel in the U. S. Note..... 607</p> <p>Briquetting Process, Scoria. Note..... 954</p> <p>Briquettes of Cast Iron Used in German Foundries. Note..... 513</p> <p>Bromine, New Uses for, Wanted..... 780</p> <p>Bureau of Chemistry, New Chief. A Note..... 170</p> <p>Bureau of Mines. Coal Analyses. Editorial..... 883</p> <p>Mines Sanitation Section Organized. J. H. White..... 783</p> <p>Second Annual Report. Editorial..... 180</p> <p>Bureau of Standards' Analyzed Samples..... 528</p> <p>Burette for Nitrogen Work. F. C. Gephart..... 490</p> <p>Burner, Improved Laboratory. C. P. Fox..... 1019</p> <p>Butter Fat and its Substitutes, Fluidity of. G. F. White and R. H. Twinning..... 568</p> <p>Byrnes, Eugene A.—Obituary..... 870</p> <p>Book Reviews... 84, 172, 260, 350, 437, 528, 620, 707, 786, 874, 961, 1030</p> <p>Air, Liquid,—Oxygen—Nitrogen, by Claude. G. B. Pegram..... 876</p> <p>Correction..... 1033</p> <p>Allen's Commercial Organic Analysis VII. J. M. Nelson..... 1032</p> <p>Alloys, Metallic: Their Structure and Constitution, by Gulliver. J. M. Lohr..... 874</p> <p>American Ceramic Society. Transactions. Vol. XIV. A. V. Bleinger..... 260</p> <p>American Gas Institute Proceedings, 6th Annual Meeting. A. H. Elliot..... 437</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

American Institute of Chemical Engineers, Transactions, Vol. IV. J. R. Withrow.....	84	Casein Industry. Note.....	79
Asphalts and Bitumens, Natural Rock, by Danby. H. Abraham....	1032	"Cellophane," A "Viscose" Product. Note.....	515
Calcium Cyanamid, by Franke. F. K. Cameron.....	961	Celluloid Co., Sakai Plant, Japan. F. C. Axtell.....	38
Cane Sugar Industry, World's, by Geerligs. W. D. Horne.....	85	Cement, Action of Alkali and Sea Water on. Note.....	1026
Cement Testing, Manual of, by Richards and North. R. K. Meade..	707	Cement Clinker, Portland, Constitution of. E. D. Campbell.....	627
Chemical Industries of Belgium, Netherlands, Norway and Sweden, by Norton. W. A. Hamor.....	528	Cement Industry, Status of. Note.....	861
Chemical News, General Index, Vols. 1 to 100. L. E. Marrs.....	961	Cement, Portland. Control of Initial Setting Time. E. E. Ware...	369
Chemical Technology and Metallurgy, by Neumann. J. H. James..	173	Ceresin Industry, Status of the. Note.....	610
Chloride of Lime in Sanitation, by Hooker. O. Kress.....	350	Chemical Engineer and Industrial Efficiency. W. M. Booth.....	237
Clay, The Natural History of, by Searle. A. V. Bleining.....	707	Chemical Engineering and the New Laboratories at Columbia Uni- versity. M. C. Whitaker and R. K. Murphy.....	304
Coal Analyses, U. S. Bureau of Mines. Editorial.....	883	Chemical Societies in N. Y. City. Program of Meetings, 1913-1914.	870
Coal and the Prevention of Explosions and Fires in Mines, by Harger. E. G. Bailey.....	707	Chemical Trade of Germany. Note.....	1025
Coal, Its Composition, Analysis, Utilization and Valuation, by Somer- meier. E. G. Bailey.....	620	Chemists' Club, The Research Bureau. Editorial.....	268
Copper, Hydro-Metallurgy of, by Greenwalt. A. L. Walker.....	86	Chilean Mineral Deposits, Government Control of. Consular Note.	873
Dictionary of Applied Chemistry, Vol. III, by Thorpe. M. C. Whitaker.....	620	Chlorine Cells, Billiter Alkali. Note.....	163
Disinfection and Disinfectants, by Christian. J. A. Deghué.....	876	Chlorine, Free, in Small Amounts Estimated Colorimetrically by Ortho-Tolidine. J. W. Ellms and S. J. Hauser.....	915
Electrochemistry, Principles of Applied, by Allmand. S. A. Tucker.	529	Correction.....	1030
Electro-Plating and Analysis of Solutions, by Reama. S. A. Tucker.	961	Chlorine Substitution Products of Methane from Natural Gas. C. Baskerville and H. S. Riederer.....	5
Electro-Plating, by Barclay and Hainsworth. S. A. Tucker.....	620	Chlorometer, The Rideal-Evans. Note.....	516
Explosives, by Brünswig. Translation by Munroe-Kebler. A. M. Comey.....	1032	Chromium Alloys with Cobalt, etc. E. Haynes.....	189
Fertilizer Handbook, The American, by Ware Bros. Co. L. E. Marrs.	961	Chromium and Vanadium in Steel, Determination of. Correction.	84
Food Inspection and Analysis, by Leach. A. W. Thomas.....	621	Chromium in Steel, Colorimetric Determination. F. Garratt.....	298
Foods, Fatty, their Practical Examination, by Bolton and Revis. H. C. Sherman.....	787	Cinder and Soot Arrester, A German. Note.....	696
Fuller's Earth. U. S. Bureau of Mines Bulletin, by Parsons. Note..	1028	Clay, Plasticity of. J. Stewart.....	421
Furnaces and Refractories, by Howard. A. V. Bleining.....	262	Clay Products Industries in the U. S. in 1912. Geological Survey Note	874
Gas Analysis Methods (German), by Hempel. G. A. Burrell.....	787	Coal Analyses, U. S. Bureau of Mines. Editorial.....	883
Gasoline and Denatured Alcohol, Comparative Fuel Values in In- ternal Combustion Engines, by Strong and Stone. C. E. Lucke.	173	Coal Analysis, Accuracy and Limitations of. A. C. Fieldner.....	270
General and Industrial Inorganic Chemistry, by Molinari. T. J. Parker.....	438	Coal Analysis: Preliminary Report for the Committee of the Ameri- can Society for Testing Materials and the American Chemical Society. W. A. Noyes, Chairman.....	517
Hydrosulfites (German), by Jelinek. J. M. Matthews.....	174	Coal, Determination of "Volatile." F. C. Weld.....	169
Hygiene, The Science of, by Pakes. D. D. Berolzheimer.....	262	Correction.....	260
Industrial and Manufacturing Chemistry, by Martin. H. C. Sher- man.....	1030	Coal Preparation, Technical Problems of. W. S. Ayres.....	68
Iron and Steel Analysis. Methods of American Rolling Mill Co., Middletown, O. W. Brady.....	620	Coal, Specific Heat of, and Its Relation to Combined Water in. H. C. Porter and G. B. Taylor.....	289
Iron and Steel, by Hudson and Bengough. W. Campbell.....	874	Coal Tar Dyes, Acid, Quantitative Separation of Mixtures of Certain. W. E. Mathewson.....	26
Lead and its Compounds, Chemical Analysis of, by Schaeffer and White. G. W. Thompson.....	351	Coal Tar Light Oil in the U. S. J. M. Weiss.....	61
Mineral Wastes, Notes on. Bureau of Mines, Bulletin 47, by Par- sons. Editorial.....	5	Cobalt Alloys with Chromium, etc. E. Haynes.....	189
Nitrogen, Utilization of Atmospheric, by Norton. W. A. Hamor....	437	Cobalt Oxide Market. Note.....	251
Oil Industries, Chemistry of, by Southcombe. C. Ellis.....	1031	Coke-Oven Gases, Nitric Acid from. Note.....	75
Paint and Varnish Product, Analysis of, by Holley. P. C. McIlhiney.	174	Coke Oven, Modern By-Product. Note.....	862
Paints, White Zinc, Preparation and Uses of, by Fleury. G. C. Stone.	261	Coke Ovens, Beehive, of the U. S. A. W. Belden.....	71
Recipes, Formulas and Processes. Henley's 20th Century. R. K. Murphy.....	86	Coke Recovered from Ashes. Note.....	425
Refractories and Furnaces, by Havard. A. V. Bleining.....	262	Columbia University, Chemical Engineering and the New Labora- tories at. M. C. Whitaker and R. K. Murphy.....	304
Remedies, New and Non-official, 1911, by Press of American Medical Association. W. A. Hamor.....	707	Combustion Apparatus. Gas Bubble and Washing Tube. H. E. Smith.....	150
Rubber, Synthetic (German), by Rudolf Ditmar. T. Whittelsey....	174	Combustion, Surface. Company Formed. H. Lieber.....	84
Service Chemistry, by Lewis and Brame. A. Smith.....	875	Combustion, Surface, Design of Appliances. C. E. Lucke.....	801
Sizing, Materials Used in, by Ermen. O. Kress.....	787	Correction.....	960
Soil Conditions and Plant Growth, by Russell. F. B. Carpenter....	86	Combustion Tube, Clay Rubber Stoppers Eliminated. C. M. Johnson.	581
Soil Fertility and Fertilizers, by Halligan. F. B. Carpenter.....	174	Concrete, Action of Various Substances on. R. K. Meade.....	723
Sugar Analysis, Handbook of, by Browne. W. D. Horne.....	172	Concrete Structures, Waterproofing of. Conclusions of Am. Soc. Testing Materials Committee. Note.....	1027
Water, Purification and Use in the Industries, by Christie. D. D. Jackson.....	351	Condenser, Reflux. S. W. Wiley.....	151
Works, Chemical, Their Design, Erection and Equipment, by Dyson and Clarkson. R. K. Murphy.....	786	Coöperation among Chemists and Manufacturers. Editorial. B. C. Hesse.....	92
CAFFEINE , Determination of Small Amounts. Comparison of Methods. B. L. Murray.....	668	Coöperation, Negative. Editorial.....	269
Calcium and Magnesium Titrated in Same Solution. P. J. Fox....	910	Copper, Blue Gelatine. W. D. Bancroft and T. R. Briggs.....	9
Calcium Carbide and Acetylene, Industrial Uses of. Note.....	606	Copper Covered Steel. J. O. Handy.....	884
Calcium Carbide and Cyanamide Production in Norway. Note....	251	Copper in Ores by the Sulfocyanate Permanganate Method. D. J. Demorest.....	215
Calcium Carbide, Production of. Note.....	75, 866	Copper in Ores Containing Arsenic, Antimony or Bismuth. Electro- lytic Determination. D. J. Demorest.....	216
Calorific Power of Coal. Preliminary Report of Am. Soc. T. M. and A. C. S. Committee. H. C. Dickinson.....	525	Copper in Steel—Influence on Corrosion. D. M. Buck.....	447
Camphor Exportations from Japan, 1910-1912. Note.....	775	Copper Refining, Electrolytic, in Norway. Consular Note.....	171
Camphor Production in Japan. Consular Note.....	436	Copper Wire Manufactured by Electrodeposition. Note.....	780
Caoutchouc, Production of. Note.....	76	Corn Products Industry. T. B. Wagner.....	677
Carbonates in Soils. Qualitative and Quantitative Methods. E. W. Gaither.....	138	Corrosion: Ajax Anti-Rust Sheets. Note.....	425
Carbon Black from Natural Gas. Note.....	696	Corrosion: "Eliantite," an Acid-Proof Alloy. Note.....	606
Carbon in Steels, etc. Use of Vitrified Clay Combustion Tube with Tapered Outlet. C. M. Johnson.....	488	Corrosion: Exposure Tests of Copper, Aluminum, etc., in England. Note.....	955
Carbon, Total, by Modified Parr Apparatus. C. E. Millar.....	234	Corrosion Minimized in Hot Water Supply Systems. Note.....	341
Carborundum Manufacture, Court Decision on. A Note.....	350	Corrosion of Iron and Steel. Editorial. W. H. Walker.....	444
		Corrosion of Iron and Steel. Electrolytic Prevention. J. K. Clem- ent and L. V. Walker.....	361
		Corrosion of Iron—Electrolytic Theory. Note.....	512
		Corrosion of Iron Imbedded in Clay, Influence of Cinders on. W. B. Schulte.....	554
		Corrosion of Iron. Influence of Various Elements. C. F. Burgess and J. Aston.....	458

Corrosion of Metals by Water. A. T. Stuart.....	905	Fertilizers Containing Acid Phosphate and Calcium Cyanamid, Decrease of Available Phosphoric Acid in. R. N. Brackett.....	933
Corrosion of Steel. Effect of Copper. D. M. Buck.....	447	Fertilizers, Nitrogen, Consumption in Austria. Note.....	698
Crater Lake, Ore, Water Analysis. W. Van Winkle and N. M. Finkbinder.....	198	Filter Paper, Swedish, Manufacture of. Note.....	164
Cresols, Thymol and Phenol, Rapid Volumetric Method for. L. V. Redman, A. J. Weith and F. P. Brock.....	831	Filters, Pressure, for Clarifying Trade Wastes. Note.....	428
Crucible Holder, Improved Gooch. L. H. Bailey.....	756	Filters, Pressure, New. Note.....	79
Crude Fiber Estimation, An Improved Method of. Note. E. B. Forbes and J. E. Mensching.....	258	Firebricks, Deterioration of, during Service. G. Rigg.....	549
Current Industrial News. W. A. Hamor.....	1022	Fire Extinction on Ships by Use of Gases. Note.....	162
74, 161, 251, 337, 423, 511, 605, 695, 774, 861, 950,		Fireproofing of Cotton Goods, Permanent. W. H. Perkin.....	57
Cyanamid, Calcium as Cause of Decrease of Available Phosphoric Acid in Mixed Fertilizers. R. N. Brackett.....	933	Fire Risks from Inflammable Liquids Lessened. Note.....	164
Cyanamid, Manufacture and Uses. E. J. Pranke.....	159	Fish Scrap, Some Analyses. J. R. Lindemuth and E. G. Parker.....	388
Cyanamide Production, 1912-13. Note.....	426	Flash-Point Testers, U. S. Bureau of Mines Modifications, Investigations with. I. C. Allen and A. S. Crossfield.....	908
D ANIELS, F. H.—Obituary. W. A. Hamor.....	871	Flour and Gluten, Quantitative Estimation of Gliadin in. G. A. Olson.....	917
Daniells, William Willard—Obituary. L. Kahlenberg.....	80	Flour, Influence of Bran Extracts on Baking Qualities of. H. L. White.....	990
<i>Datura</i> —Assay of Individual Plants of Various Species. F. A. Miller and J. W. Meader.....	1014	Foods, Cooked Vegetable, Chemical Composition of. Part III. K. I. Williams.....	653
Depreciation and Obsolescence. R. K. Meade.....	762	Correction.....	786
Desiccator, Electric, for Analysis of Rubber and Organic Compounds. L. J. D. Healy.....	489	Food Standards and Their Effect upon Food Law Enforcement. F. W. Robison.....	949
Detonators and Safety Fuses. Note.....	515	Forestry Service Investigations, U. S. Editorial. C. C. Curtis.....	626
Dextrin, Production and Use. Note.....	77	Formaldehyde, Total, in Fumigators and Commercial Solutions. J. J. Hinman, Jr.....	752
Diaxose, Koji, Some Properties. G. Kita.....	220	Fountain, Sanitary Drinking. Note.....	954
Dryer, The Gerlach. Note.....	256	Fuel Briquetting in the U. S. Note.....	607
Dyehouses and Bleach Works, General Efficiency in. L. J. Matos.....	693	Fuel, Motor—Benzole. Note.....	607
Dyes, Acid Coal Tar, Quantitative Separation of Mixtures of Certain. W. E. Mathewson.....	26	Fuel, Peat Powder as, for Locomotives. Consular Note.....	786
Dyestuffs, Organic, Analysis of. International Sub-Commission. Note. F. Réverdin.....	259	Fuller's Earth. Note on Dr. Parson's Bulletin.....	1028
E DITORIALS.....	2, 92, 180, 268, 356, 444, 534, 626, 712, 792, 882, 966	Fumes, "Dissipator" for. Note.....	425
Efficiency in Chemical Industries. T. B. Wagner.....	677	Fungicides: Studies on Lime Sulfur-Lead Arsenate Spray Mixture. W. E. Ruth.....	847
Efficiency Studies—Hardwood Distillation Industry. Editorial. L. F. Hawley.....	445	Fuses, Safety, and Detonators. Note.....	515
Electric and Gas Consumption in Greater New York in 1912. Note.....	781	G AS and Electric Consumption in Greater New York in 1912. Note.....	781
Electric Furnaces, Device for Controlling Small. C. B. Thwing.....	149	Gas, Coal, Purification of. Note.....	699
Electric Heater for Laboratory Distillations. L. T. Bryson.....	49	Gas-Engine Packing, Horton. Note.....	611
"Electrit," An Abrasive. Note.....	79	Gas Engines, A Novelty in. Note.....	252
Electrochemical Industries of Italy. Note.....	511	Gases, By-Product Coke Ovens, Production and Industrial Application. J. Becker and L. B. Robertson.....	491
Electrolysis from Stray Electric Currents. Note.....	426	Gases, Compressed, Handling. Note.....	76
Electrolytic Method for Copper in Ores Containing Arsenic, Antimony or Bismuth. D. J. Demorest.....	216	Gases for Fire Extinction on Ships. Note.....	162
Electrolytic Method for Tin in Canned Foods. A. S. Cushman and E. B. Wettengel.....	217	Gases Formed in Anaerobic Sewage Decomposition. R. H. Jesse, Jr.....	636
Engineering Education, Society for Promotion of. Minneapolis Meeting.....	781	Gases from Blast Furnace and Coke-Oven, Use of. Note.....	254
Ethyl Chloride. Chemistry of Anaesthetics, V. C. Baskerville and W. A. Hamor.....	828	Gases or Liquids: Indicator for Rate of Consumption. Note.....	865
Evans, William James, Chemists' Club Resolutions on Death of.....	783	Gas, Illuminating, Hydrogen Sulfide in. E. P. Harding and E. Johnson.....	836
Expert, Retained, Some Peculiar Functions of. W. M. Grosvenor.....	772	Gas, Illuminating, Sulfur in. R. S. McBride and E. R. Weaver.....	474
Explosives, Modified Form of Stability Test. H. C. P. Weber.....	641	Gas, Illuminating, Testing Sulfate in Ammonium Sulfate Solution. R. S. McBride and E. R. Weaver, 469; Correction.....	619
