SPINELING NOTATIONS IN THE LIGHT OF RELATIONAL DATABASES

Keywords: The article presents the investigation of the spinelings that are being applied in the context of the relational databases. The spinelings are defined as the set of the spinelings that are being applied in the context of the relational databases. The spinelings are defined as the set of the spinelings that are being applied in the context of the relational databases. The spinelings are defined as the set of the spinelings that are being applied in the context of the relational databases.

Keywords: spinelings, relational databases, spinelings, spinelings, spinelings

1. Wprowadzenie

The spinelings are defined as the set of the spinelings that are being applied in the context of the relational databases. The spinelings are defined as the set of the spinelings that are being applied in the context of the relational databases. The spinelings are defined as the set of the spinelings that are being applied in the context of the relational databases.
