

# AUTHOR INDEX

## THE JOURNAL OF INDUSTRIAL AND ENGINEERING CHEMISTRY VOLUME XII—1920

<p><b>AIKIN, V. L.</b> Determination of Moisture in Beet-Sugar Factory Products..... 979</p> <p><b>ALBRECH, M. C.</b> Determination of Crude Fiber in Prepared Mustard. 1175</p> <p><b>ALEXANDER, J.</b> Colloidal Fuel. Note..... 612</p> <p>Some Practical Applications of Colloidal Chemistry. Colloid Symposium, St. Louis Meeting, A. C. S..... 434</p> <p><b>ALMY, L. H. AND E. D. CLARK.</b> Chemical Study of Frozen Fish in Storage for Short and Long Periods..... 656</p> <p><b>ALSBERG, C. L.</b> Report, 36th Annual Convention, Association of Official Agricultural Chemists, Washington, D. C., November 17 to 19, 1919..... 86</p> <p><b>ALSBERG, J.</b> Heat Balance of a Distillation Plant for Recovery of Fatty Acids from Cottonseed Foots..... 490</p> <p><b>AMBLER, J. A.</b> Naphthalene Sulfonic Acids. I—Some Difficultly Soluble Salts of Certain Naphthalene Sulfonic Acids..... 1081</p> <p>Naphthalene Sulfonic Acids. III—An Alternative Method for the Qualitative Detection of Naphthalene-2,7- and 1,6-Disulfonic Acids..... 1194</p> <p>AND <b>W. J. COTTON.</b> Use of Catalysts in the Sulfonation of Aromatic Compounds..... 968</p> <p>AND <b>E. T. WHERRY.</b> Naphthalene Sulfonic Acids. II—A Method for the Qualitative Detection of Some of the Naphthalene Sulfonic Acids..... 1085</p> <p><b>ANDERSON, E. AND R. J. NESTELL.</b> Formation of the Double Salts of Calcium and Potassium Sulfates at 100° C..... 243</p> <p><b>ANDERSON, M. S. AND W. H. FRY.</b> Solid Phases Obtained by the Evaporation of Certain Soil Extracts..... 663</p> <p><b>ANDERSON, R. P.</b> Gasoline from Natural Gas. I—Method of Removal..... 547</p> <p>Gasoline from Natural Gas. III—Heating Value, Specific Gravity, and Specific Heat, 852; Correction..... 1028</p> <p>Gasoline from Natural Gas. IV—Temperature Correction and Blending Charts, 1011; Correction..... 1214</p> <p>AND <b>C. E. HINCKLEY.</b> Gasoline from Natural Gas. II—Use of Charcoal in Determining the Gasoline Content of Natural Gas..... 735</p> <p><b>ARENSON, S. B. AND W. A. FELSING.</b> Precipitation of Sulfur from Crude Mustard Gas by Means of Ammonia..... 1065</p> <p><b>W. A. FELSING AND F. J. KOPP.</b> Method for Determining the Sulfur Monochloride Content of Mustard Gas-S<sub>2</sub>Cl<sub>2</sub> Mixtures..... 1054</p> <p><b>BADGER, W. L.</b> Determination of Oxygen by the Copper-Ammonia-Ammonium Chloride Reagent..... 161</p> <p><b>BAILLY, C. H.</b> Hygroscopic Moisture of Flour Exposed to Atmospheres of Different Relative Humidity..... 1102</p> <p><b>BAILLY, H. S. AND W. D. BALDSEFFEN.</b> Detection of Oils other than Linseed in Paints, by Means of the Hexabromide Number of the Fatty Acids..... 1189</p> <p>AND <b>C. B. EDWARDS.</b> Determination of the Specific Heat of Heavy Mineral Oils..... 891</p> <p><b>BAKER, F. P. AND W. K. LEWIS.</b> Diffusing Power of Pigments..... 890</p> <p><b>BAKER, G. C.</b> Preparation of Ammonia-Free Water..... 798</p> <p>AND <b>R. E. GREENFIELD.</b> Relationship of Hydrogen-Ion Concentration of Natural Waters to Carbon Dioxide Content, 989; Correction..... 1214</p> <p><b>BALDSEFFEN, W. D. AND H. S. BAILLY.</b> Detection of Oils other than Linseed in Paints, by Means of the Hexabromide Number of the Fatty Acids..... 1189</p> <p><b>BANCROFT, W. D.</b> Colloids in Biology and Medicine, by Bechhold. (Book Review)..... 412</p> <p>National Research Council. Report of the Chairman at the Annual Meeting of the Division of Chemistry and Chemical Technology. (See Editorial, 835)..... 911</p> <p><b>BARSKY, G.</b> Fuel Value of Volatile Liquid Mixtures..... 77</p> <p><b>BARTOW, E.</b> Water Supply of the American Expeditionary Forces..... 903</p> <p><b>BASKERVILLE, C.</b> Chlorine and Influenza..... 293</p> <p>Hygienic Control of the Aniline Dye Industry in Europe..... 393</p> <p>Lead Coated Iron..... 152</p> <p>Report of Committee on Occupational Diseases in the Chemical Trades. St. Louis Meeting, A. C. S..... 439</p> <p>Utilization of Asphaltic Base Acid Sludge Obtained in Refining Petroleum and Shale Oils..... 30</p> <p>Wood Alcohol—Coöperative Caution..... 81</p> <p>Wood Alcohol No Longer: Hereafter Methanol..... 910</p> <p><b>BAUDE, W. A., L. H. MILLIGAN AND H. G. BOYD.</b> Preparation of Arsenic Trichloride from White Arsenic and Phosgene..... 221</p> <p><b>BAUGHMAN, W. F. AND W. W. SKINNER.</b> Determination of Iodide and Bromide in Mineral Waters and Brines..... 358</p> <p><b>BAYARD, F. W., W. W. KING AND F. H. RHODES.</b> Use of Paracoumarone Resin in Varnishes..... 549</p> <p><b>BEAL, G. D. AND M. C. PERRY.</b> Quantities of Preservatives Necessary to Inhibit and Prevent Alcoholic Fermentation and Growth of Molds..... 253</p> <p><b>BEDFORD, C. W. AND W. SCOTT.</b> Reactions of Accelerators during Vulcanization..... 31</p> <p><b>BENNETT, H. S.</b> Chemical Market in India..... 395</p> <p><b>BENSON, H. K. AND R. E. CANFIELD.</b> Low Temperature Distillation of Sub-bituminous Coal..... 443</p> <p><b>BERRY, R. M.</b> Rapid and Systematic Method for the Analysis of Light Aluminium Casting Alloys..... 998</p> <p><b>BERTOLET, E. C.</b> Chemistry for Textile Students, by North and Blank. (Book Review)..... 1224</p> <p><b>BEZZENBERGER, F. K.</b> Evaluation of Aluminium Dross..... 78</p> <p><b>BIGELOW, W. D.</b> Report of Committee on Guaranteed Reagents and Standard Apparatus. St. Louis Meeting, A. C. S..... 439</p> <p>Report of Committee to Formulate Specifications for the Construction of a Polariscope for Laboratory Use. St. Louis Meeting, A. C. S..... 440</p> <p><b>BISSON, C. S. AND A. W. CHRISTIE.</b> Note on the Solubility of Benzidine Sulfate in Water..... 485</p> <p>Rapid Method for the Determination of Sulfur in Petroleum Oils..... 171</p>	<p>979</p> <p>1175</p> <p>612</p> <p>434</p> <p>656</p> <p>86</p> <p>490</p> <p>1081</p> <p>1194</p> <p>968</p> <p>1085</p> <p>243</p> <p>663</p> <p>547</p> <p>1028</p> <p>1214</p> <p>735</p> <p>1065</p> <p>1054</p> <p>161</p> <p>1102</p> <p>1189</p> <p>412</p> <p>911</p> <p>77</p> <p>903</p> <p>293</p> <p>393</p> <p>152</p> <p>439</p> <p>30</p> <p>81</p> <p>910</p> <p>221</p> <p>358</p> <p>549</p> <p>253</p> <p>31</p> <p>395</p> <p>443</p> <p>998</p> <p>1224</p> <p>78</p> <p>439</p> <p>440</p> <p>485</p> <p>171</p>	<p><b>BLACK, J. H. AND T. G. THOMPSON.</b> Intersolubility of Chloropicrin and Water..... 1066</p> <p><b>BLAIR, A. W.</b> Relative Availability of Nitrate Nitrogen and Commercial Organic Nitrogen. Field and Cylinder Experiments..... 262</p> <p><b>BLAKE, A. F.</b> Changes in the Polarizing Constants of Sugars during Refining..... 1104</p> <p><b>BLANCO, G. W. AND E. C. SHERRARD.</b> Acid Hydrolysis of Sugar-Cane Fiber and Cottonseed Hulls..... 1160</p> <p><b>BLASDALE, W. C.</b> Equilibria in Solutions Containing Mixtures of Salts. II—The System Water and the Chlorides and Sulfates of Sodium and Magnesium at 25°..... 164</p> <p><b>BLEININGER, A. V.</b> Ceramic Processes Associated with Colloid Phenomena. Colloid Symposium, St. Louis Meeting, A. C. S..... 436</p> <p><b>BOGERT, M. T.</b> Presentation Address. Perkin Medal Award..... 184</p> <p><b>BOYD, H. G., W. A. BAUDE AND L. H. MILLIGAN.</b> Preparation of Arsenic Trichloride from White Arsenic and Phosgene..... 221</p> <p><b>BOYLE, C. L.</b> Indicators Used for Determining Free Acid in Pickling Solutions..... 571</p> <p><b>BRADLEY, H. F.</b> Rapid Determination of Small Amounts of Copper by the Iodide Method..... 800</p> <p><b>BRAY, W. C., A. B. LAMB AND J. C. W. FRAZER.</b> Removal of Carbon Monoxide from Air..... 213</p> <p><b>BREWER, R. E. AND E. G. MAHIN.</b> Electrometric Method for Detecting Segregation of Dissolved Impurities in Steel..... 1095</p> <p><b>BROOKS, B. T.</b> Purchase of German Books and Periodicals..... 394</p> <p><b>BROWN, K.</b> Manufacture of Phenol in a Continuous High Pressure Autoclave..... 279</p> <p><b>BROWN, C. A.</b> Food Inspection and Analysis, by Leach and Winton. (Book Review)..... 828</p> <p>Testing of Saccharimeters by Means of the Telescopic Control Tube..... 792</p> <p>The Bookplate of Dr. Joseph Priestley..... 611</p> <p>The Question of the Identity of Balata and Gum Chicle..... 199</p> <p><b>BRYAN, H. AND R. O. E. DAVIS.</b> Electrically Heated Bomb for Ammonia Synthesis..... 287</p> <p><b>BUCHANAN, G. H. AND G. B. WINNER.</b> Solubility of Mono- and Diammonium Phosphate..... 448</p> <p><b>BURT, W. I., H. L. TRUMBULL, G. T. SOHL AND S. G. SEATON.</b> Control Experiments in Chloropicrin Manufacture. I—The Effect of Varying Quantities of Lime upon the Yield of Chloropicrin..... 1068</p> <p><b>BUSHNELL, L. S. AND H. S. CLARK.</b> Determination of Minute Quantities of Oil in Sulfur..... 485</p> <p><b>BUSHONG, F. W. AND L. L. KNIGHT.</b> Specific Heat of Petroleum at Different Temperatures..... 1197</p> <p><b>BUTT, C. A.</b> Rapid and Accurate Method for Determining Nitrogen in Nitrate of Soda by the Modified Devarda Method and the Use of the Davison Scrubber Bulb..... 352</p> <p><b>BUTTERMAN, S.</b> Influence of the Method of Manufacture on the Use of Casein in Glue Making..... 141</p> <p><b>BYALL, S., N. KOPELOFF AND L. KOPELOFF.</b> Effect of Concentration on the Deteriorative Activity of Mold Spores in Sugar..... 256</p> <p><b>CALDERWOOD, H. N., JR. AND L. F. HAWLEY.</b> Tar-Still Operation in Hardwood Distillation Plants..... 684</p> <p><b>CALDWELL, R. G. AND H. C. MOORE.</b> Some Results of the Determination of Potash by the Lindo-Gladding Method..... 1188</p> <p><b>CAMP, J. R. AND J. W. MARDEN.</b> Analysis of Molybdenum, Cobalt, and Chromium Alloys..... 998</p> <p><b>CAMPBELL, A.</b> Animal Fats and Oils, by Andés. (Book Review)..... 1223</p> <p><b>CAMPBELL, C. H.</b> Jelly..... 558</p> <p><b>CAMPBELL, E. D. AND G. F. SMITH.</b> Comparison of Accuracy in Analysis of Metallurgical Materials during the Past Twenty-Five Years..... 1020</p> <p><b>CANFIELD, R. E. AND H. K. BENSON.</b> Low Temperature Distillation of Sub-bituminous Coal..... 443</p> <p><b>CASWELL, W. W.</b> Value of Cost Accounting in Commercial Laboratories..... 79</p> <p><b>CHANDLER, C. F.</b> Address of Acceptance. Perkin Medal Award..... 189</p> <p>Presentation Address. Chandler Medal Award..... 607</p> <p><b>CHAPIN, E. S.</b> Report to Dye Advisory Committee of the State Department, September 29, 1920. (See Editorial, 1042)..... 1130</p> <p><b>CHAPIN, R. M.</b> Diazometric Determination of Phenol, and of Certain of Its Homologs..... 568</p> <p>New Method for the Determination of Phenol in the Presence of Certain Other Phenols..... 771</p> <p><b>CHASE, W. S.</b> Titration of Ammonium Acid Fluoride..... 567</p> <p><b>CHILLAS, R. B. AND J. B. HILL.</b> Electric Heater for the Coal-Tar Naphtha Distillation Test..... 280</p> <p><b>CHRISTIE, A. W. AND C. S. BISSON.</b> Rapid Method for the Determination of Sulfur in Petroleum Oils..... 171</p> <p>Note on the Solubility of Benzidine Sulfate in Water..... 485</p> <p><b>CHURCH, M. B.</b> Laboratory Experiments on the Manufacture of Chinese Ang-Khak in the U. S..... 45</p> <p><b>CLARK, C. M.</b> Effective Connecting Bulb..... 366</p> <p><b>CLARK, E. D. AND L. H. ALMY.</b> Chemical Study of Frozen Fish in Storage for Short and Long Periods..... 656</p> <p><b>CLARK, G. L. AND R. B. ISELEY.</b> Studies on the Corrosive Action of Chlorine-Treated Water. I—The Effects of Steel on the Equilibrium: Cl<sub>2</sub> + H<sub>2</sub>O ⇌ HCl + HClO, and of Products of the Equilibrium on Steel..... 1116</p> <p><b>CLARK, H. S. AND L. S. BUSHNELL.</b> Determination of Minute Quantities of Oil in Sulfur..... 485</p> <p><b>CLARK, W. M.</b> Studies on Technical Casein. I—Introduction..... 1162</p> <p>H. F. ZOLLER, A. O. DAHLBERG AND A. C. WEIMAR. Studies on Technical Casein. II—Grain-Curd Casein..... 1163</p> <p><b>CLARKE, W. F. AND W. D. COLLINS.</b> Use of Hydrogenated Oils in the Manufacture of Tin Plate..... 149</p> <p><b>CLEMENS, C. A.</b> Insoluble Solids in Jams, Preserves, and Marmalades..... 48</p> <p>New Type of Condenser for the Determination of Crude Fiber. (See Pickel, 611)..... 288</p>
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
