

SUBJECT INDEX

INDUSTRIAL AND ENGINEERING CHEMISTRY

VOLUME 15—1923

ABSORPTION Apparatus, Some Factors Influencing the Design of. R. T. Haslam, W. P. Ryan, and H. C. Weber.....	1105
Absorption Bottle for Carbon Dioxide and Moisture. W. E. Morgan.....	266
ACCIDENTS:	
Bureau of Standards, Explosion at. Note.....	1081
Columbia University. Note.....	61
Prevention of—in Industry. Paris Letter.....	650
ACENAPHTHENE: Vapor Pressures of Some Substances Found in Coal Tar. F. S. Mortimer and R. V. Murphy.....	1140
ACETONE:	
Alcohol, and Acids, Production of—from Oat and Peanut Hulls. E. B. Fred, W. H. Peterson, and J. A. Anderson.....	126
Butanol, and Ethanol in Gas from the Butyric Fermentation of Corn. A. L. Davis.....	631
Solvent Properties of. R. F. Remler.....	717
Suitability of Various Solvents for Extracting Vanilla Beans—I. J. B. Wilson and J. W. Sale.....	782
Acetyl Value, Notes on the Determination of. J. R. Powell.....	622
ACID-ALKALI WASH. H. A. Neville.....	488
ACID AND ALKALI, Electrolytic Production of—from Sodium Sulfate Solutions. H. V. Atwell and Tyler Fuwa.....	617
ACID GASES, Chimneys Subjected to. T. S. Clark.....	227
ACIDIMETRY AND ALKALIMETRY, Electrometric—without the Use of Hydrogen. P. A. van der Meulen and Frank Wilcoxon.....	62
ACIDS, ACETONE, AND ALCOHOL, Production of—from Oat and Peanut Hulls. E. B. Fred, W. H. Peterson, and J. A. Anderson.....	126
ACIDS AND BASES, Titration Curves for Some Common—as Determined by the Hydrogen Electrode. C. E. Davis, E. T. Oakes, and H. M. Salisbury.....	182
Ackermann, R. H., Appointed Commercial Attaché at Santiago.....	973
ACROLEIN, New Test for—and Its Bearing on Rancidity in Fats. W. C. Powick.....	66
Advertising Abuses. C. R. Moulton.....	1285
Agitation, Effect of—on Rate of Solution of Crystals. E. V. Murphree.....	148
Agitator, Another. D. H. Killeffer.....	321
Agitators, Tools of the Chemical Engineer—I. D. H. Killeffer.....	144
Air Condenser, Efficient Reflux. G. T. Dougherty.....	338
ALCOHOL:	
Acetone,—and Acids from Oat and Peanut Hulls, Production of. E. B. Fred, W. H. Peterson, and J. A. Anderson.....	126
As a Fuel. Paris Letter.....	433
As a Motor Fuel Constituent. H. A. Gardner.....	483
Denaturant for. Paris Letter.....	540
Denatured—Production.....	1086
Higher Alcohols from Petroleum Olefins. W. W. Clough and C. O. Johns.....	1030
Industrial—Committee Appointed. Washington Notes.....	541
Industrial—Regulation. Washington Notes.....	978
Isopropyl: Suitability of Various Solvents for Extracting Vanilla Beans—I. J. B. Wilson and J. W. Sale.....	782
Methyl. See Methanol.	
ALCOHOL TRADES ADVISORY COMMITTEE:	
Alcohol, the Chemical. Editorial.....	1102
Issues Report. Washington Notes.....	1198
Meets. Washington Notes.....	866
ALKALI:	
Amalgams, Electro-Preparation of Solid—in Quantity. P. M. Giesy and J. R. Withrow.....	57
Disintegration of Concrete by. Canadian Letter.....	1289
Electrolytic Production of Acid and—from Sodium Sulfate Solutions. H. V. Atwell and Tyler Fuwa.....	617
Solution, Concentrated, Note on Dispensing Bottle for. W. J. Geldard.....	153
Allied Chemical and Dye Corporation. The American Chemical Prize. Editorial.....	992
ALLOYS:	
Cerium in Aluminium Alloys. H. W. Gillett and V. H. Schnee.....	709
Wrought Nonferrous—in 1922. W. H. Bassett.....	31
Aluminium Sulfate Solutions, Influence of Properties of—on Evaporation. W. L. Badger and J. S. France.....	364
Amalgams, Solid Alkali, Electro-Preparation of—in Quantity. P. M. Giesy and J. R. Withrow.....	57
"America First." H. W. Wiley, W. A. Noyes.....	427
AMERICAN ACADEMY OF ARTS AND SCIENCES: Makes Grant. Note.....	74
American and Greek Life. Parallels. Editorial.....	1214
AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE: Committee on Photosynthesis.....	620
AMERICAN ASSOCIATION OF CEREAL CHEMISTS: Meeting in Chicago, week of June 3, 1923.....	754
AMERICAN ASSOCIATION OF TEXTILE CHEMISTS AND COLORISTS: 2nd Annual Meeting, New York, December 2, 1922.....	97
AMERICAN BIOCHEMICAL SOCIETY: Officers for 1923.....	319
AMERICAN CERAMIC SOCIETY: 25th Anniversary Convention, Pittsburgh, Pa., February 12 to 16, 1923.....	320
American Chemical Prize. Editorial.....	992
AMERICAN CHEMICAL SOCIETY:	
Appeal for Opinions. Editorial.....	993
Classified Membership. Editorial.....	1212
Divisions. See Divisions and Sections.	
Exhibit at the Ninth National Exposition of Chemical Industries.....	1004
Journals Wanted in Austria. Note.....	940
Local Sections. See Local Sections.	
Meeting Programs. Editorial.....	3
Milwaukee Meeting. See Milwaukee Meeting.	
New Haven Meeting. See New Haven Meeting.	
Officers for 1923. Editorial.....	2
Supplemental Meetings. Editorial.....	773
Washington Meeting. See Washington Meeting.	
AMERICAN CONTEMPORARIES: 88, 194, 314, 424, 531, 648, 752, 863, 974, 1088, 1194.....	1283
AMERICAN ELECTROCHEMICAL SOCIETY:	
43rd Meeting, New York, May 3 to 5, 1923.....	640
44th Meeting, Dayton, Ohio, September 27 to 29, 1923: Announcement.....	689
Report.....	1195
Suggestions for Research. Editorial.....	444
AMERICAN INSTITUTE OF CHEMICAL ENGINEERS: 15th Annual Meeting, Richmond, Va., December 6 to 9, 1922. Report.....	94
AMERICAN LEATHER CHEMISTS ASSOCIATION:	
Convention at White Sulphur Springs, W. Va., June 7 to 9, 1923: Announcement.....	432
Report.....	753
AMERICAN PHARMACEUTICAL ASSOCIATION: Grants for 1923—24. Note.....	1191
American Rolling Mill Company, Earning Power of Research as Demonstrated by the Experience of. D. M. Strickland.....	78
AMERICAN SOCIETY OF MECHANICAL ENGINEERS: Museum for Washington Notes.....	431
AMERICAN SOCIETY OF STEEL TREATING: Officers.....	1195
Ammonia Works, Government (French). Paris Letter.....	101
Analysis, Volumetric, New Method of. Paris Letter.....	1091
Animals, Reproduction of—on an Exclusive Diet of Bread. C. Hoffman.....	1225
ANTHRACENE:	
Catalytic Oxidation of—to Anthraquinone. C. E. Senseman and O. A. Nelson.....	521
Equations for Vapor Pressures and Latent Heats of Vaporization of Naphthalene,—Phenanthrene, and Anthraquinone. O. A. Nelson and C. E. Senseman.....	621
Vapor Pressures of Some Substances Found in Coal Tar. F. S. Mortimer and R. V. Murphy.....	1140
Anthraquinone, Equations for Vapor Pressures and Latent Heats of Vaporization of Naphthalene, Anthracene, Phenanthrene, and O. A. Nelson and C. E. Senseman.....	621
APPARATUS:	
Absorption, Some Factors Influencing the Design of. R. T. Haslam, W. P. Ryan, and H. C. Weber.....	1105
Conference on Scientific Instruments and.....	630
Machine-Made, Minimizing Human Error. Editorial.....	994
Supplies and. Questions and Answers.....	751
(See also name of piece)	
Architect of Lincoln Memorial Honored. Blow the Bugle. Editorial.....	553
ARSENIC:	
Expression of Quantity of Water-Soluble—Present in Commercial Lead Arsenates. C. A. Klein and W. Hulme.....	745
Phosphorus and Separation of—from Vanadium. H. A. Doerner.....	1014
Recent Developments in the Organic Chemistry of. W. L. Lewis.....	17
Arsphenamine Industry, Development of American. G. W. Raiziss.....	413
Artificial Silk. See Silk.	
Asbestos Fiber, Simple Device for the Rapid Preparation of. H. L. Johnson.....	632
Asphalt Grades, Reduction of Number. Note.....	1147
ASSOCIATION OF OFFICIAL AGRICULTURAL CHEMISTS: Meeting, Washington, D. C., November 19 to 21, 1923.....	1285
Atmospheric Pollution by Industrial Wastes. R. E. Swain.....	296
AUTHORS:	
Coöperation.....	224
Suggestions to.....	1069
Autoclave, Collapse of. W. P. Mason.....	735
Automotive Industry. Editorial.....	443
BABBITT Metal, Methods of Chemical Analysis of. Approved by A. E. S. C.....	64
Bacon, Henry, Awarded Medal. Blow the Bugle. Editorial.....	553
Bacteria and the Chemist. A. I. Kendall.....	1001
Baking Industry, Earning Power of Research as Exemplified in. I. K. Russell.....	645
Banting, F. G. Nobel Prize.....	1287
Barium Chloride, Action of—on Sulfate in Fused Salts. H. E. Batsford.....	1044
Barrel Linings, Control of the Gelling Point of Glue, with Specific Application to Drying—in Hot Weather. R. E. Wilson and W. B. Ross.....	367
Bases and Acids, Titration Curves for Some Common—as Determined by the Hydrogen Electrode. C. E. Davis, E. T. Oakes, and H. M. Salisbury.....	182
Beakers and Flasks, Dimensions of. Note.....	847
Benzene: Vapor Pressure of Volatile Solvents. R. E. Wilson and E. P. Wylde.....	801
BEVERAGES:	
Carbon Dioxide Content of. A Rapid Method for Determination of Carbon Dioxide in Lightly Carbonated Beverages. Joseph Cannizzaro.....	1074
Methyl Anthranilate in Grape—and Flavors. R. D. Scott.....	732
Bibliography of Bibliographies on Chemistry. Washington Notes.....	866
Bleach Requirement of Pulps, Investigation of the Hypobromite Method for Determining. T. M. Andrews and M. W. Bray.....	934
Boll Weevil, Department of Agriculture Fights. Washington Notes.....	867
Bone Black, Decolorizing Action of. P. M. Horton.....	519
BOOK REVIEWS. See end of this section.	
BOOKS, NEW: 106, 216, 326, 436, 546, 656, 766, 876, 986, 1095, 1204.....	1294
BOOKS: Popular—in Science. Editorial.....	332
Rare. Collection in Chemists' Club Library.....	74

BORDEAUX MIXTURES:	
Chemical, Physical, and Biological Properties of. O. Butler.....	1039
For Wine-Growers' Use. Paris Letter.....	759
Powdered. R. H. Robinson.....	941
Brady, William. Obituary. L. P. Chase.....	760
BREAD:	
Chemist Enters a New Industry. H. E. Barnard.....	449
March of Hydrogen-Ion Concentration in—Doughs. C. H. Bailey and R. C. Sherwood.....	624
Symposium. See Milwaukee Meeting.	
Value of Sweet Potato Flour in—Making. H. C. Gore.....	1238
Bricklayers and Chemists. D. Davidson, H. W. Jordan.....	428
Brown, Robert, and the Discovery of the Brownian Movement. L. C. Newell.....	1279
Browne, C. A., to Head Bureau of Chemistry. Washington Notes.....	866
Bubble Meters for Very Small Rates of Gas Flow. Tyler Fuwa and G. A. Shattuck.....	230
Building Materials, Protection of Concrete and Other—against Water and Noxious Fumes. Maximilian Toch.....	665
BUREAU OF CHEMISTRY:	
C. A. Browne to Head. Washington Notes.....	866
Color Laboratory, Work of. J. A. Ambler.....	970
Conference. Washington Notes.....	541
Testing of Chemicals in—from 1920 to 1923. G. C. Spencer.....	1281
BUREAU OF MINES:	
Lind, S. C., Becomes Chief Chemist.....	647
Rutgers College Station. Editorial, 554; Washington Notes.....	651
BUREAU OF STANDARDS:	
Explosion at. Note.....	1081
George K. Burgess Heads.....	616
Burner, Multiple Laboratory. F. C. Vilbrandt.....	72
Butanol, Acetone, and Ethanol in Gas from the Butyric Fermentation of Corn. A. L. Davis.....	631
Butter and Oleomargarine, Rapid Method for the Determination of Salt in. F. F. Flanders.....	181
BOOK REVIEWS: 103, 193, 203, 212, 305, 322, 434, 528, 542, 652, 761, 871, 981, 1093, 1202, 1292	
American Fuels, by Bacon and Hamor. W. H. Blauvelt.....	214
American Petroleum Refining, by Bell. C. K. Francis.....	983
Analysis of Rubber, by Tuttle. S. Collier.....	543
A. S. T. M. Tentative Standards, 1922.....	103
Atomic Structure and Spectral Lines, by Sommerfeld. Saul Dushman.....	1093
Betriebsverrechnung in der Chemischen Grossindustrie, by Hempelmann. J. R. Withrow.....	1203
Blanchiment, Teinture, Impression, Appretes, by Lederlin. M. R. Moffatt.....	763
Briquetting, by Stillman. O. P. Hood.....	528
Bureau of Mines, Its History, Activities, and Organization, by Powell.....	544
By-Product Coking, by Cooper. A. A. Kohr.....	982
Causes and Prevention of Corrosion, by Pollitt. R. E. Wilson.....	1292
Chemical Engineering Catalog, 7th Annual Edition.....	104
Chemical Engineering Catalog, 8th Annual Edition, edited by Turner.....	1203
Chemical Engineering Library, compiled by Benn Bros.....	104
Chemical Examination of Water, Sewage, and Foods, by Purvis and Hodgson. G. D. Beal and A. M. Buswell.....	212
Chemical Resistance of Engineering Materials, by Hamlin and Turner. F. W. Willard.....	1292
Chemical Technology and Analysis of Oils, Fats, and Waxes, Vol. III, by Lewkowitsch. G. Jamieson.....	762
Chemische-Technische Vorschriften. Handbuch der speziellen chemischen Technologie insbesondere für chemische Fabriken und verwandte technische Betriebe enthaltende Vorschriften aus allen Gebieten der chemischen Technologie mit umfassenden Literaturnachweisen. Band I—Metalle und Minerale, by Lange. C. J. West.....	982
Chemische Technologie des Steinkohlenteers, by Weissgerber. W. O. Emery.....	1203
Chemistry of Leather Manufacture, by Wilson. H. R. Procter.....	872
Coal and Allied Subjects. Being Bulletins 1 to 10 of the Lancashire and Cheshire Coal Research Association, 1918 to 1921, Inc., by Sinnatt and Associates.....	984
Comprehensive Treatise on Inorganic and Theoretical Chemistry. Vol. III—Copper, Silver, Gold, Strontium, Barium, by Mellor. Graham Edgar.....	764
Destructive Distillation of Wood, by Bunbury. C. J. West.....	763
El Arte de Los Metales, translated from the Spanish of Barba by Douglass and Mathewson. C. A. Browne.....	873
Engine-Room Chemistry, by Gill. D. K. French.....	544
Étude sur la Tannerie et les Industries connexes au Maroc, by Ziegler. Thomas Blackadder.....	1294
Examination of Hydrocarbon Oils and of Saponifiable Fats and Waxes, by Holde, translated by Muellers. A. H. Gill.....	213
Fabrikation von Leim und Gelatine, by Thiele. J. Alexander.....	434
Farberei- und Textilchemische Untersuchungen, by Heermann. F. S. Beattie.....	1293
Fire Losses—Locomotive Sparks, by Wallace.....	984
Flow of Gases in Furnaces, by Groume-Grjmailo, translated by Williams. R. E. Wilson.....	762
Forest Resources of the World, Vols. I and II, by Zon and Sparhawk. L. F. Hawley.....	1094
Gas Manufacture, by Davidson. R. S. McBride.....	1292
Gasworks Recorders, Their Construction and Uses, by Levy. A. C. Fieldner.....	654
Gelatin in Photography. Vol. I, by Sheppard. W. D. Bancroft.....	1293
Glue and Gelatin, by Alexander. S. E. Sheppard.....	542
Handbuch der Saccharin-Fabrikation (Benzoesäure Sulfinid), by Beyer. Jules Bebie.....	874
Heat Transmission through Walls, Concretes, and Plasters, by Griffiths. E. C. Raek.....	1094
Industrial Filtration, by Wright. D. R. Sperry.....	1202
Industrial Organic Chemistry, by Sadtler. J. F. Norris.....	543
Kent's Mechanical Engineers' Handbook. L. W. Wallace.....	1294
Liquid Fuel and Its Apparatus, by Booth. W. F. Faragher.....	103
Luftstickstoffindustrie, mit besonderer Berücksichtigung der Gewinnung von Ammoniak und Salpetersäure, by Waeser. A. B. Lamb.....	543
Manufacture of Acids and Alkalies, by Lunge. Vol I—Raw Materials for the Manufacture of Sulphuric Acid and Sulphur Dioxide, by Wyld. Vol. V.—The Manufacture of Hydrochloric Acid and Salt-Cake, by Cumming. A. E. Marshall.....	1093
Material Handling Cyclopedia, edited and compiled by Wright, Little, Augur, and seven others.....	1095
Metals and Metallic Compounds, by Evans. C. W. Balke.....	1202
Metals and Their Alloys, by Vickers. H. W. Gillett.....	762
Method for the Identification of Pure Organic Compounds, Vol. IV, by Mulliken. H. T. Clarke.....	212
Modern Gasworks Chemistry, by Weyman. A. C. Fieldner.....	434
Modern Industrialism, by McVey. W. S. Landis.....	654
Motor Fuels, Their Production and Technology, by Leslie. D. B. Keyes.....	872
Nitrogen Industry, by Partington. R. C. Tolman.....	544
Notes on Technical Ore Analysis, by Low. E. L. Mack.....	654
Official Directory of Members of the Association of British Chemical Manufacturers with Classified List of Their Manufactures.....	542
Öle und Fette in der Textilindustrie, by Herbig. F. S. Beattie.....	1292
Patents—Law and Practice, published by Richards & Geier, Patent Attorneys. D. B. Keyes.....	762
Petroleum and Allied Industries, by Kewley. R. F. Bacon.....	434
Phase Rule and Its Applications, by Findlay. G. W. Morey.....	983
Physical and Chemical Examination of Paints, Varnishes, and Colors, by Gardner. F. E. Ware.....	104
Plastics and Moulded Electrical Insulation, by Hemming. E. C. Bingham.....	653
Premier Rapport de la Commission Internationale des Elements Chimiques. Saul Dushman.....	873
Principles of Chemical Engineering, by Walker, Lewis, and McAdams. M. C. Whitaker.....	874
Production and Measurement of High Vacuum, by Dushman. John Johnston.....	761
Properties of Electrically Conducting Systems, by Kraus. P. E. Landolt.....	104
Reign of Rubber, by Geer. Theodore Whittlesey.....	305
Report of the Committee of the Privy Council for Scientific and Industrial Research. J. D. Thompson.....	1293
Reports of the Progress of Applied Chemistry, Issued by the Society of Chemical Industry, Vol. VII. R. L. Emerson.....	871
Researches on Cellulose, IV, by Cross and Doree. S. A. Mahood.....	214
Riddle of the Rhine, by Lefebvre. G. A. Rankin.....	760
Romance of the Gas Industry, by Norman. J. B. Garner.....	305
Rothamsted Experimental Station. Reminiscences, Tales, and Anecdotes, by Grey. F. B. Power.....	212
Spectroscope and Its Uses in General Analytical Chemistry, by Baker. J. H. Mathews.....	983
Standard Methods of Chemical Analysis, edited by Scott. G. E. F. Lundell.....	213
Standard Specifications for Laboratory Apparatus Adopted by the Manufacturing Chemists' Association of the United States. Part I, Graduates and Thermometers. W. D. Collins.....	214
Surface Tension and Surface Energy and Their Influence on Chemical Phenomena, by Willows. E. W. Washburn.....	1202
Symbol of Safety, by Brearley. A. E. Marshall.....	1095
Synthetic Coloring Matters: Vat Colors, by Thorpe and Ingold. E. K. Bolton.....	652
Synthetic Resins, by Ellis. J. B. LaForge.....	763
Taschenbuch für die Farben und Lackindustrie, published by Wolff and Schlick.....	873
Technical Analysis of Steel and Steel-Works Materials, by Sisco. G. E. F. Lundell.....	652
Tested Method of Laboratory Organization, by Pile and Johnston. C. E. K. Mees.....	981
Tested Methods of Non-Ferrous Metallurgical Analysis, by Pile and Johnston.....	982
Textbook of Filtration, by Bryden and Dicky. D. R. Sperry.....	763
Thermodynamics and the Free Energy of Chemical Substances, by Lewis and Randall. A. A. Noyes.....	871
Trade Association Activities, published by the Department of Commerce.....	984
Trade-Marks—Trade Names, Unfair Competition, published by Richards & Geier, Patent Attorneys. D. B. Keyes.....	762
Twelve-Hour Shift in Industry, by the Committee on Work Periods in Continuous Industry of the Federated American Engineering Societies. H. W. Jordan.....	653
Van Nostrand's Chemical Annual, edited by Olsen. P. N. Leach.....	103
Wärmewirtschaftsfragen. Monographien zur Feuerungstechnik, Heft 5, by Litinsky. G. R. Greenslade.....	1204
Wave Length Tables for Spectrum Analysis, by Twyman. P. D. Foote.....	764
White Lightening, by Lewis. W. R. Smith.....	984
Wood Distillation, by Hawley. W. E. Lumms.....	981
Yearbook of the American Engineering Standards Committee.....	653
Yearbook of the American Pharmaceutical Association, 1921.....	874
CALCIUM Arsenate. Washington Notes.....	
Calcium Cyanamide, Preparation of Dicyanodiamide from. H. C. Hetherington and J. M. Braham.....	1060
Calcium Hydroxide, Total Available—in Hydrated Lime. A. S. Behrman and F. R. Porter.....	269
CALENDAR OF MEETINGS: 93, 210, 318, 370, 531, 649, 753, 865, 976, 1089, 1195, 1283	
CALFSKIN:	
Pancreatin as an Unhairing Agent. J. A. Wilson and A. F. Gallun, Jr.....	267
Points of Minimum Plumping of. J. A. Wilson and A. F. Gallun, Jr.....	71
Caliche, Efficient Recovery of Nitrates from. J. W. Turrentine.....	853
Camera for Photographing Maps, etc., at Department of Interior. Note.....	666
Campbell, W. G., Director of Regulatory Work, Department of Agriculture. Washington Notes.....	978
CANADA:	
Chemists in. Canadian Letter.....	1289
Meeting of Canadian Institute of Chemistry and Canadian Section of Society of Chemical Industry.....	758
New Patent Act in. C. L. Jenks.....	1192
Production of Chemicals during 1922. Canadian Letter.....	758
Pulp and Paper Industry.....	243
CANADIAN LETTER..... 43, 758, 979, 1289	
Cane Juices, Phosphoric Acid in. Herbert Walker.....	164
Canvas. See Cotton Duck.	
Caramel in Sugar Products, Estimation of. Criticism of Ehrlich Method. G. P. Meade.....	275
CARBAZOL:	
Vapor Pressure of—, Observed and Calculated. C. E. Senseman and O. A. Nelson.....	382

Vapor Pressures of Some Substances Found in Coal Tar. F. S. Mortimer and R. V. Murphy.....	1140	CHEMISTRY AND INDUSTRY: New Journal.....	22
Carbolic Acid, Crude, Determination of Phenols in Coal-Tar Oils and J. B. Hill.....	799	To Print Abstracts of Papers of Chemical Society. Significant Coöperation. Editorial.....	882
CARBON, ACTIVATED: Properties of—Which Determine Its Industrial Applications. N. K. Chaney, A. B. Ray, and Ancel St. John.....	1244	CHEMISTS: Agreements. London Letter.....	980
Use of—in the Determination of Light Oil in Coke-Oven Gas. A. L. Davis.....	689	Education. M. G. Korsunsky.....	186
Carbon Black, New—Regulations. Canadian Letter.....	1289	Individual Responsibility. Editorial.....	224
CARBON DIOXIDE: Content of Beverages. A Rapid Method for Determination of Carbon Dioxide in Lightly Carbonated Beverages. Joseph Cannizzaro.....	1074	Navy's Recognition of—Urged. Notes.....	49
Moisture and, New Absorption Bottle for. W. E. Morgan. (Correction, 429).....	266	CHEMISTS' CLUB: Gift to.....	640
CARBON MONOXIDE: Hydrogen and, Simultaneous Combustion of. R. T. Haslam.....	679	Library. Needs of.....	98
Removal of Small Amounts of—from Gases by Passage through Heated Granular Soda Lime. R. E. Wilson, C. A. Hasslacher, and E. Masterson.....	698	Rare Books.....	74
CARBON TETRACHLORIDE: Fire Extinguishers. Note.....	1053	Chimneys Subjected to Acid Gases. T. S. Clark.....	277
Suitability of Various Solvents for Extracting Vanilla Beans—I. J. B. Wilson and J. W. Sale.....	782	China Wood Oil. See Oils.....	
CARBONIZATION: Coal—and the World's Fuel. H. C. Porter.....	335	Chlorination Processes, Research on. German Letter.....	1092
Commission, Report of. Paris Letter.....	759	CHLORINE: Further Tests on—as a Preventive of Influenza. Harrison Hale.....	746
Low-Temperature. London Letter.....	869	Substitution and Addition of—to the Rubber Molecule. J. McGavack.....	961
Carbons, Decolorizing, Calculations for. Supplement to article on "Adsorption of Color from Sugar Solutions by Chars," 784. M. T. Sanders.....	785	Sulfuric and Hydrochloric Acids from Sulfurous Acid and. German Letter.....	1291
Carnegie Institute of Technology, Advisory Board. Note.....	937	Chlorine-Phenol Water Pollution. E. F. Kohman.....	518
Carnotite, Extraction and Recovery of Radium, Vanadium, and Uranium from. K. B. Thevs and F. J. Heinle.....	1159	Chloroanilines, Ortho- and Para-, Preparation and Separation of. H. C. Bashium and P. O. Powers.....	407
Cartoons of van't Hoff. R. H. McKee.....	192	Chloroarsines, Beta-Chlorovinyl. W. L. Lewis and G. A. Perkins.....	290
Cassina Beverages, Improved. Washington Notes.....	1090	Chlorobenzene and Beta-Naphthol, Catalytic Ammonolysis of—in the Vapor State. A. M. Howell and Alexander Lowy.....	397
Catalysis, Oxide Equilibria in. J. M. Weiss, C. R. Downs, and R. M. Burns.....	965	Chocolate, Detection of Fatty Matter in. Paris Letter.....	650
Catalytic Research, Potentialities of—in the Chemical Industry. H. S. Taylor.....	902	CHROMIC SOLUTIONS: Colloid Chemistry of. F. L. Seymour-Jones.....	75
Caustic Soda, Electrolytic Production of Acid and Alkali from Sodium Sulfate Solutions. H. V. Atwell and Tyler Fuwa.....	617	Electrophoresis of. F. L. Seymour-Jones.....	265
Cellophane Plant under Construction.....	1041	Chromium Plating. German Letter.....	1201
CELLULOSE: A Few High Spots in the Chemistry of. G. J. Esselen, Jr.....	306	Citric Acid, Effect of Dialysis on Direct Crystallization of—from Lemon Juice. H. D. Poore.....	775
Alpha-, Beta-, and Gamma-, An Improved Method for the Determination of. M. W. Bray and T. M. Andrews.....	377	Clarke, Frank Wigglesworth. American Contemporaries. C. E. Munroe.....	531
Bibliographies. G. J. Esselen, Jr.....	322	COAL: Available Hydrogen in—and a Direct Method for Its Estimation. J. D. Davis.....	594
Cotton, Preparation of Standard—and the Proposed Methods of Analysis. Report of the Committee of the Division of Cellulose Chemistry of the American Chemical Society.....	748	Carbonization and the World's Fuel. H. C. Porter.....	335
Gelatinization of Lignocellulose—I. Preliminary Paper. A. W. Schorger.....	812	Classification of. H. F. Bain.....	99
Institute of. Paris Letter.....	101	Powdered, Combustion of. Henry Kreisinger and John Blizard.....	249
Silk. W. O. Mitscherling.....	460	Powdered, Producer Gas from. R. T. Haslam and Louis Harris.....	355
Some of the Products Obtained in the Hydrolysis of White Spruce Wood with Dilute Sulfuric Acid under Steam Pressure. E. C. Sherrard and G. W. Blanco.....	611	COAL TAR: As a Source of Fuel for Internal Combustion Engines. W. J. Huff.....	485
White Spruce, Partial Hydrolysis of. Preliminary Report. E. C. Sherrard and G. W. Gauger.....	1166	Examination of Low-Temperature. J. J. Morgan and E. P. Soule. I, 587; II.....	693
Wood, Contributions to Chemistry of: II—Nature of Wood Cellulose. L. E. Wise.....	711	Oils. See Oils.....	
III—The Acetolysis Reaction Applied to Cellulose Isolated from Commercial Species of Wood. L. E. Wise and W. C. Russell.....	815	Vapor Pressures of Some Substances Found in. F. S. Mortimer and R. V. Murphy.....	1140
CEMENTS: Dental, Physical Properties of, II. Paul Poetschke.....	339	Coke-Oven Gas. See Gas.....	
Refractory—and Furnace Settings. F. J. Wakem.....	893	Coke Ovens, Modern Regenerator, Thermal Operation of. D. W. Wilson, H. O. Forrest, and C. H. Herty, Jr.....	251
Ceramic Industry, Application of Research to Plant Problems in. P. C. Kingsbury.....	898	Coke-Oven Tar, Some of the Constituents of. J. M. Weiss and C. R. Downs.....	1022

No Question About It

Double crimping the warp and woof keeps the wires in place.

Normally good wire screen produces better and more fines than perforated metal, but "Perfect" Wire Cloth and Rek-Tang Screen produces fines free from oversize.

Furthermore none of the fines go into the regrind or tailings.

This saves both power and labor as well as wear and tear in grinding and screening equipment.

REK-TANG
SCREEN AND
"The Perfect"
Double-Crimped
Wire Cloth

Made by
The Ludlow-Saylor Wire Co.

Newstead Avenue and Wabash R. R.
ST. LOUIS, MO.

If Your Pipes were Glass—

—then you could *see* the foreign matter constantly passing through them. And seeing it, you would take immediate action to prevent it from clogging steam traps, valves, regulators, etc., by installing the

SARCO Strainer

The Sarco Strainer is an absolute necessity. It keeps valve seats and other delicate parts free from scale and sediment, eliminating the time loss entailed in cleaning, not to mention the money loss due to shut-downs.

Quickly couples up with any pipe line, in any position. Adapted to steam, water, oil, gas, etc. Cleaned automatically through blow-off valve. Flow of fluid uninterrupted. Simple, practical, low in cost.

*Strainer Booklet No. D-200
on request.*

WANTED—

Back Journals of the American Chemical Society

Address all packages to the American Chemical Society, 225 Church Street, Easton, Pa., and pay transportation charges. Be certain that your name and address appear on outside of package. Journals must be received in good condition. This offer is subject to withdrawal without notice.

Journal of the American Chemical Society

Will purchase complete volumes and single numbers 1876–1892, Volumes 1 and 2 of Proceedings and Volumes 1–14 of J. A. C. S., except Proceedings Volume 2 and J. A. C. S. Volume 5.

- Vol. 17, complete, at \$4.00.
- “ 18, No. 5, at \$1.00.
- “ 19, Nos. 1, 2, 3, and 4, at 75c each.
- “ 20, Nos. 3 and 8, at 75c each.
- “ 21, Nos. 3 and 6, at 25c each.
- “ 22, Nos. 3, 9, and 10, at 25c each.
- “ 25, Nos. 7 and 12, at 50c each.
- “ 26, No. 4, at 50c.
- “ 44, No. 11, at 25c.

Industrial and Engineering Chemistry

- Vol. 1, Nos. 4, 6, 10, and 12, at 25c each.
- “ 8, Nos. 1 and 8, at 25c each.
- “ 9, No. 9, at 25c.
- “ 14, Nos. 3, 6, 10, and 11, at 25c each.
- “ 15, Nos. 3, 4 and 6, at 25c.

Chemical Abstracts

- Vol. 1, complete, at \$6.50.
- “ 1, single numbers, at 25c each.
- “ 2, Nos. 1, 3, 4, 5, 8, 10, 11, 12, 13, 14, 15, 16, 17, 18, 20 and 21, at 25c each.

Foote Speed Reducer transmitting power from motor to head drive at Atlantic Elevator, Chicago.

**FOREMOST ENGINEERS APPROVE
FOOTE SPEED REDUCER
ENGINEERING and CONSTRUCTION**

When the engineers of such companies as Ford Motor Co., Snoqualmie Falls Lumber Co., Indiana Portland Cement, Atlantic Elevator, Republic Chemical Co., Durant Motors and innumerable others equally well known choose FOOTE SPEED REDUCERS is it a high recommendation? It assures you that when you make FOOTE SPEED REDUCERS your choice for reducing the speed of your motors and transmitting the power to your conveyors, mixers, elevator legs, etc., you are choosing wisely.

FOOTE SPEED REDUCERS replace belting, chains, open gearing, etc.—creating greater production efficiency and worth while economy.

Foote Engineering Service

Perhaps your plant can be put on a basis of greater efficiency and better economy. Our engineers will be pleased to determine whether this can be done—without obligation to you. Write us now.

**REDWOOD Structures
regulate flow from
Roosevelt Dam**

The Salt River Valley Water Users Association, operating Roosevelt Dam and Salt River Project, controls the flow of this mammoth and successful reclamation undertaking through many miles of Redwood-lined canals with Redwood gates at cut-off points.

The *natural*, odorless preservative which permeates Redwood during growth and protects it against all forms of fungus rot and insect activity, makes Redwood particularly durable for all engineering and industrial uses where wood is in contact with soil moisture, wetness or weather.

Redwood tanks and vats for hot or cold water or chemical solutions give long and satisfactory service. Many have been in constant use for over half a century and are still free from defects and in sound condition.

To acquaint Engineers with the many uses for which Redwood is particularly well suited, we have compiled our "Engineering Digest" which we will gladly send on request.

SPERRY FILTER PRESSES

In Action No. 13

Additional Sperrys ordered as fast as Filter Presses are needed

The supervisor of the Filter Press department of the Archer-Daniels Linseed Co., is enthusiastic over Sperrys. He states "we've been using five Sperrys for the past fourteen years. Are results good? Well, we're still ordering additional Sperrys as fast as the need arises. I guess that's speaking fairly well of them."

And—the same is true wherever you see Sperry Presses.

Years of hard service tell the story, and the users can tell it better than we can.

Tell your filter press troubles to

Foxboro Recorders controlling operation of Badger Stills at the Cleveland Cliffs Iron Co., Cleveland, Ohio.

For Successful Still Control *You Need Dependable Temperature and Vacuum Records*

You can't know too much about the temperature and vacuum in your stills.

Improved quality, greater yield and saving in heat quickly repay the careful use of records.

Foxboro Recording Thermometers and Vacuum Gauges are the choice of still designers and users alike, because they produce records of unquestioned accuracy year after year.

The Foxboro Helical Tube Thermometer Movement is shaped and tempered by an exclusive process. *Foxboro tubes do not fatigue.* They are permanent in calibration.

The improved Diaphragm Tube Movement used in Foxboro Vacuum Recorders combines extreme sensitiveness with unusual strength.

Let us show you why the design and construction of Foxboro Recorders make them best fitted to help you maintain distillation efficiency.

WHY YOU SHOULD USE SHRIVER FILTER PRESSES

The many exclusive features incorporated in the make-up of Shriver Filter Presses save time, labor and money. These advantages should make them the logical filter presses to use in your plant.

Simple in construction, skillfully designed and always reliable, Shriver Presses once used are always used.

Send for catalogue, stating your filtration problem and we'll solve it for you.

T. SHRIVER & CO.
830 Hamilton St., Harrison, N. J.

The filter cloth used is just as important as the filter press. We are in a position to supply filter paper or filter cloth especially woven for filter press work, at very close prices. Ask us to quote on your filter cloth requirements.

INDEPENDENT PATENTED IMPROVED WOOD FILTER PRESSES

The large number of repeat orders from users of Independent Filter Presses have demonstrated the efficiency of this press. Write for descriptive literature.

Let us quote you on your filter cloth requirements.

Fused Pure Silica
Vitreosil

Cascade

Concentrators

Sulphuric acid is but one of many chemicals for the concentration of which vitreosil units are admirably adapted.

Phosphoric acid, exceptionally severe in its corrosive action on stoneware, porcelain and glass, is efficiently concentrated in vitreosil, ensuring a product of great purity, with the minimum depreciation of plant.

Zinc chloride and ferric chloride solutions and perchloric acid are also handled successfully in vitreosil concentrating apparatus. Barium and tin chlorides should be susceptible of similar treatment.

Vitreosil (fused pure silica) is protected by the following patents covering both product and process:—
812,399 Feb. 13, 1906

NUTTING PHOTOMETER

This instrument is essentially the form described by G. P. Nutting in the Bulletin of the Bureau of Standards, vol. 7, p. 239, 1911, but modified in a number of ways to make it more generally useful in spectrophotometry. The instrument is particularly designed for the study of absorbing solutions and materials but may be readily adapted to the study of reflection factors, illuminants, and other spectrophotometric problems.

The illustration shows the Nutting Photometer, and twin collimator.

Write for price and particulars, also on accessories, such as:

Absorption Tubes.

Adjustable Support for two Absorption Tubes.

Illuminating Sphere.

Eye Slit to fit standard spectroscopes.

This chimney, 350 feet high, 8 feet inside at top, built by the Custodis Co. in 1904, has handled successfully acid gases for eighteen years and is as good to-day as the day it was built.

HEUSSER

THE BALANCE SUPREME

Only One Repair In Twelve Years

This is the balance that has served 12 years with but one repair—and is still in daily use.

Here's what H. P. DePencier, General Manager of the Dome Mines Co., Ltd., of Ontario, says of the Heusser:

"We are pleased to advise that the Heusser gold balance which we bought from you in 1911 has given very satisfactory service.

"The only repairs that have been necessary since this balance was purchased were renewal of agate bearings.

"We find it keeps adjustment satisfactorily, and can recommend this balance for very fine work."

Twelve years' continuous and satisfactory service with but one repair is really worth-while balance service, isn't it? And that's the kind that's typical of the Heusser.

Bulletin 65 tells why. Better send for a copy.
