With Which Is Consolidated  
The "Colliery Engineer" and "Mines and Minerals"

P. 375/30

## INDEX TO VOLUME XXXV

January to December, 1930

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles or cuts standing by themselves are indicated by an asterisk (\*). The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

Following is a list of the pages included in each issue of the volume, together with date and number of the issue, for convenience of reference:

	Pages
January	1-72
February	73-136
March	137-200
April	201-264
May	265-340
June	341-400
July	401-466
August	467-512
September	513-570
October	571-652
November	653-704
December	705-756

### A

	Page
<b>Accidents</b>	
Anthracite blasts kill seven	648
Canadian blast kills forty-five	500
Dangerous occurrences (e)	105
Deaths in 1929	127
Dorrance washery, E. Schweitzer	535
Fire traps three miners	692
Fatalities in coal mines, 72, 127, 184, 244, 250, 340, 397, 453, 507, 565, 652, 696	748
Gas explosions kill seven	176
Gas ignition kills seven	120
How to reduce them, M. E. Trammell	716
Oklahoma blast kills 59	67
Oklahoma blast kills thirty	692
Pennsylvania blast kills six	693
Reducing	77
Sunday Creek blast kills 70	690
Caused by broken trolley	744
Utah explosion kills fourteen	123
War against, W. W. Adams	26
West Virginia blast kills 8	124
What's wrong with water (c)	728
Accidents. See also Safety.	
Sealing old workings prevents acid formation and saves pipes and streams. Leitch & Yant	78
<b>Accounting</b>	
Budget control advocated	692
Daily accounting assures positive cost control at Indianola, A. F. Brosky	459
<b>Aerial tramway</b>	
New weight position gives tram rope longer life	680
<b>Alabama</b>	
Clings to brawn, H. S. Gelsmer	40
Footprints found in mine, W. B. Jones	62
Pneumatic picks cut down fines in long-face work in Alabama Mines, J. H. Edwards	75
Slope of jig screens influences results	94
<b>American Institute of Mining and Metallurgical Engineers</b>	
Annual meeting	119
Anthracite section reorganizes at Hazleton meeting	247
Bockus addresses engineering group	178
Coal division holds first meeting	150
Coal division meeting	649
Ground Movement and Subsidence Committee meeting	163
James Douglas medal awarded to J. V. Dorr	119
<b>American Mining Congress</b>	
Manufacturers' Division to have convention (e)	234
Mechanization again in spotlight at Cincinnati convention	201
Meeting	711
Plans convention	67
Program of Cincinnati convention	121
Among the manufacturers	113, 195, 261, 327, 385, 441, 493, 553
<b>Annealing</b>	
Best practice for tire turning	439
<b>Anthracite</b>	
Anthracite engineering, E. H. Suender	33
Blasting idea protects conveyor	54
Closer control of sand flotation system developed by hourly plant tests, J. F. McLaughlin	538
Correlate anthracite seams by their evidences of maceration, H. G. Turner	665
Experiments with research, R. V. Frost	12

	Page
German anthracite imported	693
In anthracite region, machines make low coal minable and water tunnels feasible, R. D. Hall	207
Loses ground in Massachusetts	502
Mercury-arc rectifier makes bow in anthracite field, C. R. Seem	359
Modernization and the Reading Coal Co.	218
Outside of Pennsylvania, O. E. Kiessling	29
Shipments	174, 452, 504, 644, 693
Submerged pumproom solves drainage problem, I. A. Given	713
Wage parity opens	448
Wage agreement signed	499, 559
<b>Anthracite Coal Service</b>	
Laboratory opened	503
<b>Ash</b>	
What shall be done with ash? (e)	541

### B

<b>Bearings. See Machinery</b>	
<b>Belts</b>	
Endless cord belt of new design	135
Metallic hinge pins for use with steel belt lacing	198
Repair to conveyor	114
Rollers on belt shifter stops wear	550
Static-proof	570
Used belting does well as trolley guard	115
Bit sharpener	255
<b>Blasting</b>	
Anthracite, idea protects conveyor	54
Approved list of permissible explosives reissued by U. S. Bureau of Mines	426
Borehole aids blasting and mucking in sinking airshaft through rock	438
Drilling and blasting expedited by special shot-firer cars	684
Explosives approved, 245, 392, 502, 502, "Gelignite" new explosive	400
Mechanism removes hazard in handling detonators	636
Book reviews	107, 169, 237, 375, 431, 543, 631, 731
<b>Bosses Talk It Over</b>	
Dangerous practices—should a man's family be informed?	632
Dirty coal—no work	190
Foreman training—theoretical or practical?	256
Idle-day work—can it be made to pay?	432
Job analysis—key to man training	376
Labor turnover—how can it be minimized?	318
Machine maintenance—who is responsible for it?	484
Out of a job at 45	50
Pillar rides—how do you prevent them?	680
Safety inspectors—where do they fit in?	732
Training haulage extras to stabilize tonnage	108
Wage payment—by day, ton or bonus?	544
Brake skid	540
British Columbia group meets	560

### C

<b>Cable</b>	
Safety lighting cable	754
<b>Cambria Exposition</b>	
450	
<b>Cars</b>	
All-purpose car stop	116
American Car & Foundry mine car	310
Automobile parts used to make electric car	736
Better and bigger cars needed in modern mines, G. A. Richardson	608
Bigger transportation units favored	300
Car turn as efficiency index (e)	676
High capacity claimed for mine car	704
Irwin mine car	309
Men can sit upright in this car	325
National Malleable & Steel Castings mine-car wheel	310
Star blocks made better and cheaper in lathe	639
Ten years' service proves cast-steel wheels	382
Watt "Blue Boy" mine car	309
Cement, chromite	108
Census of Manufactures	
Suggest having coal consumption figures broken down into counties (e)	234
<b>Chain drives</b>	
How to make chain drives last longer	401
<b>Chains</b>	
"Promal" conveyor chain has great strength	508
Chamber of Commerce	
What's ahead for American business	335
<b>Classification</b>	
Coal classification, shall use or quality control? R. D. Hall	151
<b>Cleaning. See Preparation.</b>	
<b>Coal industry, indicators of activity in</b>	
128, 170, 238, 328, 386, 442, 494, 554, 640, 698, 750	

	Page
Coal Institute of St. Louis, formed	692
Coal Mining Institute meeting	70
Coal & Heating Industries	
Complete organization	446
<b>Colorado</b>	
Mechanization no mere word, C. M. Schloss	44
Western Colorado Coal Operators' Association formed	080
Colorado & New Mexico Coal Operators' Association adopts trade code	498
<b>Committee of Ten</b>	
Coal and Heating Committee outlines program	503
<b>Compressed Air and Compressors</b>	
Air-driven machines used in cutting in Pittsburgh seam mine, J. H. Edwards	475
Air pressure forces water to charging stalls	638
Anti-freeze system for air-tool use	454
Finds new applications (e)	541
New compressor units are self-contained	132
Pneumatic tools at Consolidation Coal Co.	503
Sand conveyed by air upgrade through 2-in. pipe	53
Single-stage compressor	107
<b>Conveyors</b>	
Ash conveyed by air	509
Backstop takes hold with slight reversal	322
Conveyor scale	755
Duckbill conveyors operate to advantage in drawslate, R. L. Ireland	227
Economic life of mine prolonged by conveyors in thin coal, J. H. Edwards	142
Machine loading at Consolidation Coal Co.	581
Motor designed for conveyors	508
Pinle conveyor chain pin	109
Roller conveyor at Valler Mine	468
Screw conveyor drives are standardized	264
When where, and how to use button conveyors, H. F. Geist	719
Cost accounting forms to be revised	336
<b>Couplings</b>	
Flexible coupling refined	107
Flexible coupling refined	136
<b>Cutting Machines</b>	
Air-driven machines used for cutting in Pittsburgh seam mine, J. H. Edwards	475
Bar machines better than chain cutters, L. C. Stevens	165
Belgium cuts her steep seams by machinery, F. C. Cornet	81
Face methods at Consolidation Coal Co.	570
Machines can cut uphill as fast as on level, N. D. Levin	165
Redesigned die on bit-sharpening machine adds efficiency to cutting	55
Sullivan continuous coal cutter	307
Track-mounted machine removes blue band in Illinois mine, A. F. Brosky	87
<b>Depletion by new income percentages should reduce taxation, M. W. Krieger</b>	725
<b>Doors</b>	
Designs timing relay for door supervision	437
Free-swinging double door	549
Prevent air reversal if motor fan stops	560
Window in mine door is safety precaution	325
<b>Drainage</b>	
Conquering water leakage in mine development, S. E. DeBerry	415
Consolidation Coal Co.—drainage	011
Sealing old workings prevents acid formation and saves pipes and streams, Leitch & Yant	78
Submerged pumproom at William Penn Colliery, Ivan A. Given	713
Wanted: more research on acid mine drainage, L. V. Carpenter	406
Drainage board formed in West Virginia	390
<b>Drills and Drilling</b>	
Back to the wedge; but this one is power-driven, F. W. Whiteside	387
Chuck takes augers without shanks	323
Drilling and blasting expedited by special shot firer cars	684
How should holes be drilled for blasting?	325
Mounted electric drill said to be lighter	264
One-man electric coal drill is flameproof	399
Precautions necessary in drilling wells through coal mine workings	80
U. S. heavy-duty drill	264
Drive, V-type combines belts and sheaves	702
<b>Duckbills. See Conveyors.</b>	
<b>Dumping</b>	
Automatic gate lifter speeds dumping	54
Bar along top holds car in rotary dump	252
Bar releases brakes by bumping handles	383
Hinged rails allow use of horn dump in series	737
Rotary dump and car feeder	436
Watt-Allen & Garcia car and dump	309

Berwind-White Coal Mining Co., Changes	67	Ebbw Vale, arcwall-type machine loading coal	465	Substation motor used on stand-by power unit	187
Correct draft gear design in mine haulage		Elk Horn Coal Corp., method of shaft sinking	438	Used belting does well as trolley guard	115
C. E. Watts	463	F		Water flushes spillage into sump conveyor	180
Sand is conveyed 200 ft. by air upgrade through 2-in. pipe	53	Fordson Coal Co., changes staff	122	New River Co., all-purpose car top	110
Black Diamond Coal Mining Co., plugging the leaks in supply costs	722	Frick Coke Corp., buys coal company	446	Extra relay provides light-load protection	381
Boone County Coal Corp., automobile engine serves as fan auxiliary	56	G		Interchangeable right and left frogs	380
Distant manual control used on substation	116	Gauley Mountain Coal Co., beehive ovens take up slack in business	354	Tires annealed before turning	439
Bromhill Collieries, portable turnout can be laid right or left	489	Conveyors in thin coal	142	New River & Export Coal Co., sold	60
Buckeye Coal Co., automatic coupling-pin for solid cars	490	Cut costs and increase safety	41	New River Smokeless Coal Co., properties sold	560
Management outlook	203	Expert opinion aids maintenance	156	Northwestern Improvement Co., automatic track switch	253
Butler Consolidated Coal Co., backstop	322	Machine for sharpening bits	255	Semi-automatic man hoist for slopes controlled from car	551
Chuck takes augers without shanks	323	Ten years' service proves cast-steel wheels	382	O	
Fan governor	322	Timing contactor	251	Old Ben Coal Corp., maintenance painting at plants	180
Jib cranes mounted above motor pit I-beams	324	General Coal Co., buys Crozier	65	Portable safety board	436
Long steel boxes simplify wiring to starters	324	Gilbert-Davis Coal Co., in receivership	334	P	
Open secondary lead	383	Properties sold	744	Peabody Coal Co., forced ventilation raises safe rating of mine hoists	149
Portable first-aid station	323	Glen Alden Coal Co., mercury-arc rectifier makes bow in anthracite field	359	Telephone typewriter centralizes control	727
Redesigned die on bit-sharpening machine adds efficiency to cutting	55	Seem		Track-mounted machine removes blue band in Illinois mine	87
Test receptacles on switch panels	324	Glogora Coal Co., unusual methods make a bad roof safe	57	Welding strengthens electric drill bits	189
Two-way signaling system	322	Green River Fuel Co., scrap rail can be used as timber legs	492	Peerless Coal & Coke Co., bar along top holds car in rotary dump	252
Why Wildwood?	207	U-bolt clip holds beam on wooden legs	115	Car shifting by battery locomotive	384
C		H		Pennsylvania Coal & Coke Corp., blowout coil polarity affects controller	118
C.C.B. Smokeless Coal Co., automobile parts utilized to make electric car	730	Hanna Coal Co., officers elected	337	Multiple shifts win favor	42
Canadian Coal & Iron Co., buys and reopens Morden mine	339	Hayden Bros. Coal Corp., company sold	338	Screen on pan conveyor aids coal cleaning	180
Carbon Fuel Co., timber treatment opens way to cuts in mine operating costs		Helvetia Coal Mining Co., sand unloaded mechanically by bucket elevator	740	Philadelphia & Reading Coal & Iron Co., modernization and the Reading coal company (Picture feature)	218
L. N. Thomas	343	Houston Collieries Co., Carswell modernization program	224	Sells power companies	690
Carnegie Coal Co., Bondholders to reorganize	176	Flexible mountings for "dustless" spray	383	Work begins on breaker at St. Nicholas	337
Holdings sold	744	Once generated power, now generates interest	188	Pittsburgh Coal Co., arcwall-type machines loading coal	465
Central Coal & Coke Co., preparation plant installed	744	Rotary dump and car feeder	436	Automatic gate lifter speeds dumping	54
Chicago, Wilmington & Franklin Coal Co., man training for mechanical loading at New Orient	220	Hudson Coal Co., closer control of sand flotation system developed by hourly plant tests	538	Fitting preparation to meet market demands	362
Clearfield Bituminous Coal Corp., after coal, what? "timber" and plants trees	669	Guarded footways	325	Pittsburg & Midway Coal Mining Co., engineering forethought features Kansas stripping	624
"Key men" dine	504	Hutchinson Coal Co., synchronous equipment cuts power cost	187	Pittsburgh Terminal Coal Corp., pump with acid-resisting properties	325
Colcord Coal Co., loading-machine pumps handle drain oil	118	I		Pitston Co. to take Pennsylvania Coal Co. and Hillside Coal & Iron Co.	121
Steam-plant condensate makes better ice	188	Indiana & Illinois Coal Corp., utility semi-loader	413	Pocahontas Coal & Coke Co., more tonnage, smokeless slogan	43
Colorado Fuel & Iron Co., forms mine department	740	Inland Collieries Co., daily accounting assures positive cost control	459	Pond Creek Pocahontas Co., new mine No. 3 opened	514
Consolidated Coal Co., arcwall-type machine loading coal	465	International Mine, special car for man-trips in pitching seams	325	Portsmouth By-Product plant sold to Wheeling Steel	174
Consolidation Coal Co., air pressure forces water to charging stalls	638	Island Creek Coal Co., automatic stokers invade natural gas area and gain in coal mining fields	160	Price Hill Colliery Co., Diesel plant generates power for plant	554
Angle iron hinged to rail operates contactor	635	Clamping blocks facilitate turning of tires without annealing	185	S	
Bits hardened by passage through tank	638	Equips all mines with mounted machines and drills	403	Sheridan-Wyoming Coal Co., complete mechanization achieved	46
Car stop blocks	639	K		Sloss-Sheffield Steel & Iron Co., motor windings dried by hot compressed air	253
"Consol"—and the new tempo (e)	571	Keystone Mine, bar releases brakes by bumping handles	383	Smokeless Coal Co., hinged rails allow use of horn dumps in series	737
Drainage	611	Full-size coal face built on wall near office	491	South Penn Collieries Co., to file bill of foreclosure	170
Electrification	600	Knox Consolidated Coal Co., all-service chock block	381	Southern Coal & Coke Co., pneumatic picks cut down fines in long-face work in Alabama mines	75
Face methods	579	Koppers Coal Co., vibration recorder checks performance of gathering locomotive batteries	440	Spruce River Coal Co., confined heat injures battery cells	54
Fan operation shown by blinker	117	L		Motor does work of mule in handling slate	57
Hoist control interlocked with surface gates	737	Lehigh Coal & Navigation Co., sold	180	Repair to conveyor belt was worth while	114
Horizontal-shaft centrifugal pump	635	Stockholders approve segregation	126	Standard Coal Co., checkerboard system permits machine to load trips	85
Industrial relations	618	Lehigh Valley Coal Co., Dorrance washery	535	Strain Coal Co., truck serves as hoist in shaft sinking	688
Machine loading	580	E. Schweitzer		Susquehanna Collieries Co., submerged pumproom solves drainage problem	713
Magazine for detonators	630	Lillybrook Coal Co., forged clamp saves cost of new carriage	492	T	
Maintenance	615	Reel trouble corrected by ball bearings	437	Thompson Coal Mining Co., formed	690
Marking car clearance line	639	Little Betty Mining Co., arcwall-type machines loading coal	465	U	
Mechandising	625	Lorado Coal Mining Co., changes made	125	Union Pacific Coal Co., crossing a car parting under heavy cover	188
Mine layout	571	Loup Creek Colliery Co., need trained operatives on locomotives	84	Old timers at sixth annual meeting	449
Offers new sales plan	390	M		Southern Wyoming hits 50% A. W. Dickinson	42
Organization and management	572	McAlester-Edwards Coal Co., packaged coal offered Southwestern trade	504	United Pocahontas Coal Co., combination plant concentrates preparation for three mines	707
Pneumatic tools	593	McKeesport Coal & Coke Co., conquering water leakage in mine development		United States Fuel Co., Utah broadens mechanization	45
Poles cut by engine lathe	740	E. DeBerry	415		
Preparation	595	MacAlpin Coal Co., early adoption of improved methods keeps mine busy	86		
Refuse disposal	598	Marsh Fork Coal Co., tax decision			
Safety	604	Bailey	539		
Saw guard	639	Midland Electric Coal Co., stripping mines 33-in. coal under 25 ft. cover	477		
Stretcher posts removed when not in use	636	Bixby			
Switches safely blocked with tar product	189	Mt. Olive & Staunton Coal Co. trolley-wheel shunt	382		
Transportation	584				
Underground phone	592				
Valve eliminates sanding troubles	738				
Ventilation	607				
Wall lockers as oil dispensers	637				
Continental Coal Co., crushing coal to requirements	43				
Peak load limiters cut haulage cost	116				
Power cost reduced by dispatching	186				
Cosgrove-Meehan Gas Coal Co., hoisting peaks reduced; power cost cut	56				
Crescent Mining Co. formed	121				
D					
Davis Coal & Coke Co., high-carbon strips give satisfaction as welded tire-tread fillers	548				
Leak counteracted by barrel in pump discharge	688				
Pump has separate bearing and saw-tooth rotor	687				
Dering, J. K., Coal Co., 9 1/2 tons per man is Clinton's daily average	514				
Dominion Steel & Coal Corp., organized	338
