COAL AGE

With Which Is Consolidated
The "Colliery Engineer" and "Mines and Minerals"

INDEX TO VOLUME XXXIX

January to December, 1934

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles, or cuts standing by themselves are indicated by an asterisk (*). The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

Following is a list of the pages included in each issue of the volume, for convenience of reference:

	Pages
January	1-38
February	39-86
March	87-118
April	119-156
May	157-208
June	209-256
July	257-296
August	297-334
September	335-370
October	371-408
November	409-446
December	447-510

A

Accidents	
Explosion at Derby, Va., mine	367
Monthly fatality reports, 36, 84, 206, 331, 406, 444	510
Welch disaster kills 270	402
Wrexham explosion (e)	372
Accounting. See Management.	
Alabama	
Safety revival planned	497
Alabama Mining Institute	
Election of officers	509
American Institute of Mining & Metallurgical Engineers	
Bituminous Research Committee	253
Coal Division meets at State College, Pa.	429
Institute discusses roof control, health, safety, coal classification and mining education	101
Ohio section discusses coal washing	431
Program for February meeting	31
American Mining Congress	
Appoints committee on Bureau of Mines	31
Cincinnati convention dominated by "new deal" problems	219
New Equipment at Cincinnati show	234
Square deal for Bureau of Mines asked	15
Technical program, Cincinnati convention	174
American Society of Testing Materials	
Committee busy on coal and coke	401
Anthracite	
Anthracite burner code	153
Drives for lower costs and higher quality in 1933	44
Exempted from duty	195
Hudson Coal Co. cuts refuse-disposal cost by belts and shuttle conveyors	6
Isoval and specific gravity map, anthracite region	106
Production, monthly	35, 79, 113
Research in anthracite seeks new markets. H. G. Turner	58
Anthracite Club of New York—meeting	205
Anthracite Institute	
Louis C. Madeira III elected head	288

B

Belgium	
Air-lock cages through ventilation shafts. F. C. Cornet	353
Gate for loading cars	29
Belleville Group Coal Assn.	
Election of officers	255
Bituminous Coal Research Inc.	
Directors appointed	509

Blasting

Drilling and blasting standards used at an Indiana mine	323
Face preparation opens new vistas for modernization	165
Pleaser for primers	110
Safe blasting practice at mine of Columbia Steel	76
Book reviews, 25, 109, 143, 189, 244, 283, 310, 357, 395, 435	493

Briquetting

Lehigh Briquetting adds to plant	497
Paris Purity building plant	497
Briquetting. See also Merchandising.	

Bureau of Mines

American Mining Congress asks square deal for Bureau of Mines	15
Appointment of John Finch as director (e)	335
John W. Finch appointed director	382
Orphaned? (e)	1
Permissible plates issued, 84, 153, 199, 324, 365, 402, 443	504
Political fight threatened	363
Safety work curtailed by reduction in funds	402
Transferred from Dept. of Commerce to Dept. of Interior	115
Work curtailed for reduced appropriations	288

C

Cable guide for mining machine	247
Cable, installing in borehole	112
Calorimetry tells only part (e)	40
Canal to connect Lake Erie with Ohio River opposed by coal operators	401
Cardox—Utah decision reaffirmed	505
Century of Progress	
Coal at the Fair	256
Classification	
Coal classification approaches conclusion at A.I.M.E. meeting	105
Tentative rank and grade classification offered for bituminous coal	329
Coal	
Chlorinating coal (e)	88
Coal Age sixth annual buying power survey	187
Mechanically loaded tonnage increases in 1933	250
Minerals found in heavy and medium gravity coal, A.I.M.E. meeting	108
No federal fuel relief	389
Coal Age—historical summary	31
Coal, Bituminous	
Production, monthly	35, 79, 113
Coal Mining Institute	
Safety and purification of mine water subjects at meeting	21
Coal River Mining Institute	
Holds safety meet	403
Codes	
Anthracite code held up	79
Anthracite code revised	33
Bituminous coal code conference	150
Bituminous coal code results analyzed by NRA	137
Bituminous Coal Labor Board personnel for Division I	32
Bituminous code conference postponed	32
Bituminous code proposed amendment	364
Bituminous industry reviews first year under code operation	380
Change in enforcement proposed	505
Coal price control still stands	440
Code Authority budget submitted	365
Code influences discussed at West Virginia meeting	9
Code operation lays new economic foundations for coal mining industry	69
Controversy over proposal for collection of data	364
Correlation of prices discussed at meeting	400
Correlation scheme for Evansville, Ind., market region	364
Darrow report attacking codes brings NRA retort	252
Divisional statistical set-up ordered	504
Dock code signed	151
Fuel problems to be studied by board under NRA	33
Willard E. Hotchkiss in charge of NRA research and wage differentials	327

Inter-industry competition (e)	40
Interpretation of Section 7 (a) of NIRA (e)	87
Johnson points out features where attention is needed	114
Lynch law in Washington (e)	158
National Bituminous Coal Industrial Board First meeting—discusses code problems	80
Market practices under codes questioned	364
Must the bituminous code die? (e)	257
N.C.A. favors two-year extension of bituminous code control plan	415
NRA approves tonnage allocation scheme to end correlation squabbles	325
NRA issues revised order in wage and hour controversy	196
NRA moves for correlation of bituminous coal prices	291
National Recovery Review Board hears code complaints and adopts statistics plan	206
Price fixing (e)	88
Price fixing, bituminous code, upheld	505
Price difficulties eased	113
Protest—cash discounts in competitive bidding	505
Reports on bituminous coal operations should be carried on (e)	119
Retail coal authority breaks with NRA	400
Retail code authority announced	505
Retail code signed	114
Rocky Mt. meeting discusses problems of code administration	135
Rocky Mountain operators request 8-hour day and 6-day week, when necessary	505
Scrip committee in Alabama	331
Scrip committee named	154
Small units exempt from codes? (e)	1
West Virginia Institute discusses code influences on mining problems	9
Western Kentucky enjoins NRA wage order	254
Western Kentucky injunction argued	442
Coke and coking	
West Frankfort plant widens market by turning fines into domestic coke	421
Colorado	
Northern Colorado organizes agency	407
Report on accident reduction at Rocky Mt. meeting	132
Committee of Ten of Coal & Heating Industries	
Annual meeting and election of officers	508
To hold annual meeting	405
Compensation rates reduced by Virginia State Commission	293
Conveyors	
Conveyor mining in Southern fields	337
Cutting, drilling and blasting practices of the Hanna Coal Company	458
Cutting machines	
Factors influencing power requirements for cutting machines. I. H. Coen	74

D

Drainage	
Can draw off profits as well as water	183
Coal Mining Institute discusses safety and purification of mine waters at meeting	21
Fiber pipe protects against acid at new blowhole at Hanna Coal Co.	496
Hanna Coal Company's drainage work	485
Suffocating gob pyrite (e)	2

E

Economics	
Appalachian Coals proposes campaign to protect coal trade against hydro-electric power	398
Back to the mines (e)	39
Bituminous operators continue war on substitutes	149
Business taking stock of New Deal (e)	371
Capital-goods activity needed for recovery program (e)	120
Coal continues fight on competitive fuels	328
Coal industry of Alabama and ice companies fight against TVA program	363
Code operation lays new economic foundations for coal mining industry	69
Estimated variations in total cost, in cents per ton, on basis of present hourly rates from costs based on eight-hour day and five-day week	141

Fourth party to new social experiment (e)	157
Hydroelectric activity increases	507
Indirect allocation of tonnage (e)	297
Inter-industry competition (e)	40
Massed forces against hydro-electric projects (e)	371
Production costs, sales and administrative expenses and sales income per net ton, November, 1933	138
Production for winter supply of coal (e)	298
Socialization of coal at conference on "America's Public Ownership Program"	116
Scrip limitation proposed	508
Seasonal exemptions (e)	338
Shorter hours (e)	119
Subsistence homestead project for Iowa	154
TVA remembers (e)	39
Wide gains marked up by coal in fight for stabilization in 1933	41
"Yardsticks" (e)	120
Electric Furnace-Man Inc.	
Annual convention	328

Electricity

Air cools motor generator set in Wick mine	321
Blowers have eliminated failures due to heat at Hanna Coal Company	495
Capacitor affords lightning protection to sub-station at Hanna Coal Co.	495
Capacitor investment proves profitable ..	144
Catenary suspension for trolley wires ..	249
Cincinnati exposition of new equipment ..	234
Control circuit protects substation equipment	284
Current value may increase in A.C. holding coils	396
D.C. equipment performance checked against tonnage	146
Eliminating hanger flashover	30
Factors influencing power requirements for cutting machines. I. H. Coen ..	74
Floating batteries cut demand and improve voltage. J. H. Edwards	344
Hanna Coal Company's electrification ..	472
How to charge mine storage batteries. J. E. Borland	228
How to check up on d.c. power losses in underground transportation	26
Insulating hitching	398
Light loads can be carried without transformer oil	359
Load dispatching slashes power cost at Appalachian mine. A. F. Brosky ..	95
Load factor and its determination	147
Oil transfer switches developed for 550-volt service at Summerlee mine	76
One-man test arrangement for armatures	323
Power cost economies revealed in thorough electrification survey	175
Reel switches in automatic signal system	190
Remote control of fan and borehole feeder uses single control wire	29
Sequence starting system for D.C. motors	110
Series operation of locomotives	359
Short rail bonds made standard at large mines	77
Spring field-coil supports improve old motors	359
Sun shading may increase transformer rating	359
Switch at hoist controls shaft gate locks	111
Trench cable preferred over pole line and borehole at Hanna Coal Co.	494
Wire requirements reduced by unusual hook-up	286
Wiring diagrams of bridging-type mine telephones	358
Electrification	
Connected loads indicated by lamps above panels	191
Tipple crossing signal built without relays	193
Explosions	
Chlorine in the air (e)	120

F

Federal Emergency Relief Administration	
Changes in handling orders	81
First Aid and Mine Rescue	
Kentucky safety meet held	443
West Virginia Coal & Coke Corp. hold safety meet	443
West Virginia safety day	443
West Virginia safety meets	403
Fly-ash—aspriated product (e)	2
Freight Rates	
Coal prepares to fight higher rate plea ..	309
Ohio decision to be appealed	81
Proposed increase in rates (e)	372
Railroad executives propose increase ..	331
Utah coal rates cut	34
Fuel	
Labor organizations continue war against substitute fuels	113
Fuel and Energy Planning Board	
Study of fuel problems planned by NRA ..	33

G

Ground movement and subsidence A.I.M.E.	
meeting	107
Grundy field and its development	302
Grundy field—Roseann mine leads in daily capacity	304

H

Harlan County Coal Operators Assn.:	
Officers elected	509
Hoists and Hoisting	
Air-lock cages through ventilation shafts. F. C. Cornet	353
Hoisting kinks	245
Locomotive made into stationary hoist ..	396

I

Illinois:	
To use cement made from state coal ..	508
Illinois Mining Institute	
Safety problems take lead at meeting ..	279
Underground operation, research safety and coal cleaning feature annual meeting	501
Elects officers	501
Illinois Coal Operators Assn.:	
Election of officers	509
Indiana Coal Mining Institute	
Face preparation and safety star at meeting	272

K

Kentucky	
State Department of Mines and Minerals expands	288

L

Labor	
Anthracite factions continue warfare ..	508
Anthracite insurgents rebuffed by United Mine Workers	442
Anthracite insurgents threaten general strike	35
Anthracite peace proposed by umpire ..	326
Anthracite strike fades	82
Anthracite strikers resume work	404
Appalachian agreement in full	200
Appalachian agreement sets 35-hour week with wage increases	152
Appalachian wage agreement conference ..	115
Average daily earnings under the code ..	137
Bituminous Coal Labor Board personnel for Division	132
Bituminous labor boards continue activity	326
Bituminous wage stabilization in 1933 ..	65
Board decides captive mine row	82
Bonus payments discussed at A.I.M.E. congress	101
Elections to determine who should speak for mines not parties to Appalachian agreement	289
Hanna Coal Company's employee relations Houde Engineering Corp. case decision (e)	487
Hourly rates for inside and outside labor included in Tennessee-Georgia, Southern Tennessee and western Kentucky agreements	104
Hours reduction and wage increases proposed at bituminous coal code conference	150
Labor board decisions in August	366
National Bituminous Coal Labor Board hands down decisions	508
National Labor Board busy with case ..	289
National Labor Board gets captive mine dispute	35
NRA issues revised order in wage and hour controversy	198
Progressive union tries to force referendums at operations under contract with United Workers	289
Scrip committee in Alabama	331
Scrip payments studied	195
Southwest deep mines win wage cuts ..	289
Stoppages mark adoption of shorter day ..	199
Subsistence homestead plan to include miners	81
Subsistence homestead project for Illinois ..	206
Subsistence homestead project for Iowa ..	154
Thirty-hour week demand ill-timed (e) ..	371
Tonnage, wage and deadwork scales included in union contracts for various bituminous fields (supplement in March number)	40
Union (e)	40
Union sway established in almost all bituminous fields	103
United Mine Workers president demands 30-hour week	403
U. S. Labor Department proposes work sharing during slack times	205
Wage rates treble but labor costs per ton decrease at Union Pacific. Eugene McAuliffe	259
Wages—day scales for mechanical loading established in union agreements for various districts	68

Wages—hourly rates for inside and outside day labor included in union contracts for various bituminous fields, in cents per hour	66
Wages—union scales for strip mining, Indiana and Illinois	68
Wagner bill (e)	298
Western Kentucky enjoins NRA wage order	254

Law and Legislation

Kentucky mine law passed	154
Kentucky mine law signed	331
Labor bills pushed	153
Law and realities (e)	209
Lubrication	
Mine-car lubrication	437

M**Maintenance**

Adequate inspection is key to proper maintenance	78
Ball bearing maintenance practice	248
Ball bearings on motor having fitting indicating grease overflow	248
Broken shaker arms held by wooden roller	78
Electrical etcher used for dating ball bearings	240
Equipment parts should cost no more from manufacturer than from local dealer (e)	119; letter 243
Hanna Coal Company's maintenance work	477
Lengthening chain drive life	438
Light unit for aligning track	194
Locomotive has suspension bar attached to side frame	287
Locomotives change to improve axle lubrication	287
Motor temperature	361
New River & Winding Gulf Electrical & Mechanical Institute features maintenance hints	436
Opening flywheel case cools bearing ..	246
Pinion puller	145
Points way to lower costs per ton	178
Pump plungers welded at low cost	398
Rack for storing steel made from used rail	397
Sharpener for drill steel employs drill face	437
Sprocket puller	396
Staggering rollers lengthens their service ..	321
Tool facilitates turning crankpin	438
Truing of cylindro-conical drums	320
Wear of locomotive axles	361
Wiring diagrams of bridging-type mine telephones	358

Management

Accounting for fixed assets. J. C. McNeil ..	354
Challenged by demands of new deal	159
Efficiency report enables executives to plan production and cut costs	360
Foreman's responsibilities under NRA. J. J. Rutledge	317
Making cost sheet a byproduct of ledger postings. J. C. McNeil	432
Reports necessary to manager (e)	209
Routing of a report (e)	336
Scheduling (e)	158
McGraw-Hill Co.—anniversary month	292

Mechanization

Anthracite drives for lower costs and higher quality in 1933	44
Broaden mechanization concepts—American Mining Congress	220
Casualties reduced at Harry Taylor mine by mechanization methods. Charles Dorrance	419
Cincinnati exposition of new equipment ..	234
Coal saw average 229 tons per shift at Anjean. J. H. Edwards	388
Conveyor mining in Southern fields	337
Conveyors, scrapers and loaders discussed at Rocky Mountain meeting ..	125
Cost-cutting by mechanization	162
Mechanical loading at Wick mine of Ingle Coal Co.	207
Mechanical loading at the Hanna Coal Co.	462
New Monarch mine eliminates delays in mechanical loaders	12
Safety gains with increased mechanization—Rocky Mt. meeting	132
Union Pacific decreases labor costs but increases wages. Eugene McAuliffe ..	259
Working area of mines concentrated to a minimum (e)	297

Merchandising

Anthracite burner standards	153
Briquetting progress opens new market opportunities. E. J. Tournier	309
Campaign for dustless coal	79
Coal industry presses war against substitutes	79
Continue war on substitutes	250
Equitable Building, N. Y., returns to anthracite	293
Hanna Coal Company's merchandising policies	490
Illinois process for briquetting	365
Improving preparation with regard to consumer preferences—American Mining Congress	224
"New River" decision	115
Operator-wholesaler relations between Pennsylvania, New York and New England	32

Pennsylvania anthracite re-enters European market	288	Crusher, single roll	*368	Great Britain—Dust-wetting quality of water	188
Rocky Mt. meeting discusses problems of merchandising	135	Cutting machine	*85	Great Britain—Enlargements and con- tractions of airway	188
Sales of stokers in September break record	497	Drill, one man	*117	Great Britain—Experiments with sheath- ing materials for cartridges	282
Southern Illinois organizing to promote coal	250	Drill, rock	*207	Great Britain—Report on incombustible dusts for dusting	434
Stoker merchandising plan developed by Dickson & Eddy	403	Drill, wagon	*334	Great Britain—Danger from sparks	434
Stoker sales increase	403	Dust collector	*440	Great Britain—Socketing ropes	434
Stokers gain in Birmingham	*507	Electrical aids	208	Great Britain—Composition of coal	434
Utah and Wyoming coal men map mar- ket fight	367	Electricity		Great Britain—Clay as tamping material	394
West Frankfort plant widens market by turning fines into domestic coke	*421	Arc arrester	*37	Great Britain—De-ashing of coal	243
Merchandising. See also Sales Agencies.		Battery separator	*332	Great Britain—Hydraulic cartridge	243
Mine Inspectors Institute of America		Cables, mining	334	India—Sarang colliery—water transporta- tion of coal	*356
Safety at any cost is theme at meeting	231	Cap lamp	445	Russia—Hard bituminous coal in Siberia	108
Mine timbers		Coll winder	*155	Russia—Mine planned for underground gasification of coal	243
Longface and room workings at Salem Hill	*263	Drive bases	*155	Scotland—Fire protection at Wellesley colliery	394
Pillar drawing (e)	409	Gearmotors	*208	Vertical cutting machines sold in Ger- many and England	243
Mineral Planning Committee		Magnetic separator	*38	Wales—Proposed South Wales drainage tunnels	*394
Appointment by President	250	Magnetic starter	*156	Wales—Tests on strength of packwalls	*318
Mining		Motor, explosion proof	*208	Nystagmus (e)	410
Our mining language (e)	258	Motor, flanged-head	445		
Mining Methods		Motoreducers, vertical	370		
Anthracite strippings exemplify new technique in southern fields	*209	Motors and controls	*369		
Coal saw averages 229 tons per shift at Anjean. J. H. Edwards	*388	Polehead	*369		
Conveyor mining in Southern fields	*337	Portable measuring instruments	370		
Crapo mine sets goal for low cost and minimum degradation. I. A. Given	*411	Pressure governors	*37		
Directness (e)	158	Pushbutton	*207		
Face preparation opens new vistas for modernization	165	Relays	*118		
Face preparation stressed at Anchor Mines	*260	Starter, motor	*370, 407		
Face preparation discussed at Indiana Institute meeting	*272	Strain insulator fittings	*117		
Ground movement and subsidence report—A.I.M.E. meeting	107	Supervisory control	*295		
Hanna Coal Company's mining methods	*455	Switch, disconnecting	*445		
Longface and room workings at Salem Hill mine	*263	Switch, instrument	295		
Management challenged by demands of new deal	159	Switches, outdoor	334		
New Monarch mine has different methods of operating loaders	*12	Switch, safety	*368		
New wrinkles in face operation—Ameri- can Mining Congress	222	Switch, starting	*156		
Technique progressed in bituminous mines in 1933	*40	Switch, vacuum	*445		
		Switches	*85		
		Transformers, portable current	*207		
		Gage, vacuum	*369		
		Gas indicator	*85		
		Gas mask with speaking diaphragm	*117		
		Generator, acetylene	*369		
		Gun, graphite	*369		
		Hoist, chain	208		
		Hook and roller bar	*333		
		Hose, air	369		
		Joint, new cast	*38		
		Lead packing	*334		
		Loader	208		
		Loader, box-car	*337		
		Loader, gangway	*407		
		Loader, semi-portable	446		
		Locknut	*408		
		Locomotive, diesel	*86		
		Locomotive, diesel-electric-drive	*38		
		Locomotive, fireless	*333, 369		
		Locomotive, gasoline	*37		
		Methylene blue	*86		
		Motor, self-protected	*295		
		Paint, aluminum	295		
		Pipe tools	446		
		Puller, gear and pinion	*438		
		Puller, spike	*333		
		Pump, centrifugal	445		
		Pump, heavy duty	*156		
		Pump, portable	*118		
		Pump, rotary	*368		
		Rejection control	*117		
		Spray nozzle	*295		
		Stokers	*258		
		Strainer	*370		
		Surfacting, hard	*295		
		Thermostats, bearing	*86		
		Tools, light mining	370		
		Tractor	208		
		Tractor, diesel	*85		
		Truck, motor	*298		
		Valve, bronze	*155		
		Valve, control	*445		
		Valve, gate	*408		
		Valve, non-metallic disk	*88		
		Wall seal	*207		
		Welder, portable	370		
		Welding aids	*445		
		Welding bench	208		
		Welding electrode	156, 334, 445		
		Welding equipment	*85		
		Welding spectacles	*37		
		Welding and cutting aids	*37		
		Wire lubricator	*407		
		Wood preservative	208		
		New River & Winding Gulf Coal Mining Institute			
		Holds safety meet	403		
		New River & Winding Gulf Electrical & Mechanical Institute			
		Load factor and its determination	*147		
		Maintenance discussion at meeting	402		
		Meeting features maintenance hints	*436		
		West Virginia meeting	115		
		Notes From Across the Sea			
		Colloidal fuel manufacture abroad	492		
		Diesel-oil locomotives sold to conti- nental mines	243		
		Germany—coal dust for power	492		
		Germany—coal to be used in manufac- ture of colloidal fuel	492		
		Germany—gases from coal distillation available for motor fuel	492

Stonega Coke & Coal Co. Conveyor mining	*337	CC			
Sunrise Coal Co. Control circuit protects substation equipment	*284	DD			
Susquehanna Collieries Co. Fan modernization	*347	EE			
T					
Tennessee Products Inc. Sharpener for drill steel employs drill itself	*437	FF			
U					
Union Collieries Co. Aerial tramway installed at Renton	294	GG			
Union Colliery Co. Opening flywheel case cools bearings	*246	HH			
Safety savings contests—Illinois Institute meeting	280	II			
Union Pacific Coal Co. Developments in mechanization discussed at Rocky Mt. meeting	*125	JJ			
Old Timers' Association hold reunion	293	KK			
Safety trophies awarded	324	LL			
Wage rates treble but labor costs per ton decrease. Eugene McAuliffe	259	MM			
U. S. Coal & Coke Co. Conveyor mining	*337	NN			
United States Fuel Co. Holmes Association certificate award	289	OO			
Safety progress reviewed at Rocky Mt. meeting	132	PP			
V					
Virginia Lee Coal Corp. Grundy field development	*302	QQ			
W					
Wells Elkhorn Coal Co. Conveyor mining	*337	RR			
Wellston No. 2 Coal Co. Contracts for tippie equipment	36	SS			
West End Coal Co. Leases Mineral Springs colliery	364	TT			
West Point Marion Coal Co. Fire destroys tippie, dumping station and conveyor	252	UU			
Winding Gulf Collieries. Conveyor mining	*337	VV			
Wintired Collieries. Conveyor mining	*337	WW			

AUTHORS' INDEX

ANDREW, DAVID. No disagreement except	73	Scotia power plant cuts energy consumption 25%	*213	McNell, John C. Accounting for fixed assets	*354
Ashcraft, C. E. Power scraper speeds culm recovery and reduces cost	*217	Tippie modernization includes complete crushing facilities and triples loading points	*121	Monthly cost sheets as a byproduct of ledger postings	432
B					
BORLAND, J. E. How to charge mine storage batteries	228	M			
Brosky, Alphonse F. Load dispatching slashes power cost at Appalachian mine	*95	MAYER, ERWIN M. Flotation may be used to separate coals having specific industrial uses	*17	Miffen, Sydney C. Arching and bumps	242
C					
COEN, I. H. Factors influencing power requirements for cutting machines	*74	McAuliffe, Eugene. Wage rates treble but labor costs per ton decrease at Union Pacific Mines	259	P	
Cornet, F. C. Air lock cages through ventilation shafts	*353	McCall, T. L. Bumps at Springhill	242	PURSGLOVE, JOSEPH, JR. Central cleaning plant helps recover lost markets	*211
D					
DAVIS, GILBERT C. Ten-year safety campaign at Phelps Dodge pays	*123	R			
Dorrance, Charles. Casualties reduced by unusual mechanization methods at anthracite colliery	419	S			
E					
EDWARDS, J. H. Coal saw averages 229 tons per shift at Anjean	*388	T			
Floating batteries cut demand and improve voltage	*344	U
