COAL AGE

With Which Is Consolidated
The "Colliery Engineer" and "Mines and Minerals"

INDEX TO VOLUME XXXVIII

January to December, 1933

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles, or cuts standing by themselves are indicated by an asterisk (*). The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.
Following is a list of the pages included in each issue of the volume, together with date and number of the issue, for convenience of reference:

| | Pages |
|-----------|---------|
| January | 1-32 |
| February | 33-74 |
| March | 75-108 |
| April | 109-140 |
| May | 141-172 |
| June | 173-220 |
| July | 221-252 |
| August | 253-290 |
| September | 291-324 |
| October | 325-360 |
| November | 361-394 |
| December | 395-434 |

A

Accidents

| | |
|---|---|
| Explains why high voltage is not always fatal | 424 |
| Explosions kill 91 miners | 29 |
| Monthly fatality reports | 30, 72, 105, 138, 218, 250, 288, 321, 432 |
| Moweaqua blast caused by gas | 72 |
| Oakmont blast kills seven | 321 |
| Accounting. See Management. | |
| Agricultural use of coal. See Utilization. | |

Alabama Mining Institute

| | |
|--|-----|
| Officers elected | 29 |
| American Institute of Mining & Metallurgical Engineers | |
| Annual meeting discusses economic and technical problems | 94 |
| Coal Division and Ohio Section meet at Columbus | 374 |
| Officers nominated | 385 |

American Mining Congress

| | |
|---|-----|
| Annual convention, practical coal operating men at Pittsburgh | 196 |
| Coal Division personnel | 70 |
| National Exposition of Mining Equipment, Pittsburgh | 206 |
| Stabilization and mineral industry featured at meeting | 15 |

American Wholesale Coal Assn.

| | |
|-------------|-----|
| Reorganized | 321 |
|-------------|-----|

Anthracite

| | |
|---|--|
| Bigger than industry | 395 |
| Cost-cutting efforts in 1932, annual review | 41 |
| Equipment standards accepted by Bureau of Standards | 353 |
| Prices cut | 220 |
| Production, monthly | 69, 103, 168, 247, 278, 313, 352, 388, 425 |
| Skillful planning opens way to profitable operation. J. H. Pierce | 88, 87 |
| Takes dealer into partnership. I. A. Given | 82, 121 |
| Trenton boosts anthracite by sale of automatic equipment through central agency | 195 |
| Wage arbitration fails | 104 |
| Anthracite Club of New York—meeting | 71 |
| Anthracite gas machine | 28 |

Anthracite Institute

| | |
|---|-----|
| Equipment standards accepted by Bureau of Standards | 353 |
|---|-----|

B

Backfilling permits pillar recovery without disturbing surface. H. A. Dierke... 265

Belgium

| | |
|---|-----|
| Mining vertical seams by longwall. F. C. Cornet | 125 |
| Big Sandy-Elkhorn Coal Assn.—organized | 349 |

Blasting

| | |
|--|---|
| Angle short for blasting | 20 |
| Care in stemming (e) | 174 |
| Cartridges inclosed in tube prevents misfires | 213 |
| Detonator and leads arranged to reduce misfires | 213 |
| How blow out shots by reflected waves cause ignition of firedamp. D. B. Gawthrop | 414 |
| Safety detonator box | 102 |
| Safety shofiring device | 214 |
| Safety shofiring methods at Columbia Steel Co. | 422 |
| Safety shofiring system | 86 |
| Shofiring, position of primer | 101 |
| Tracing stray detonators | 181 |
| Book reviews | 22, 99, 129, 243, 273, 309, 345, 381, 421 |

Bureau of Mines

| | |
|----------------------------------|-------------------|
| Explosives approved | 315 |
| Granted funds for improvements | 429 |
| Oppose shift to other department | 105 |
| Permissible plates issued | 70, 104, 316, 431 |

C

Cable coiling, collapsible reel... 165

Canada

| | |
|---|-----|
| Novia Scotia operators would restrict imports | 104 |
| Use of coal for coke making purposes | 320 |

Central Pennsylvania Coal Producers' Assn.

| | |
|------------------|----|
| Officers elected | 71 |
|------------------|----|

Chesapeake & Ohio Ry. Co.

| | |
|--|-----|
| Mechanical loading experience | 162 |
| Record system forestalls breakdowns and reduces maintenance cost | 276 |
| Welding for broken bumpers | 347 |
| Chlorine in coal (e) | 254 |
| Classification | 385 |
| Classification committee, new | 198 |

Coal

| | |
|--|-----|
| Coal and beer (e) | 110 |
| Consumption by public utilities in 1929. W. H. Young | 19 |

Coal Age

| | |
|---|----------|
| Historical summary | 29 |
| Twenty-second annual review and progress number | February |

Coal, bituminous

| | |
|---------------------|--|
| Production, monthly | 69, 103, 168, 247, 278, 313, 352, 388, 425 |
|---------------------|--|

Coal Club of Philadelphia—meeting... 71

Coal Mining Institute of America

| | |
|-------------------------------|-----|
| Safety below theme of meeting | 12 |
| Coal tar boosted for roads | 389 |

Codes

| | |
|---|-----|
| Activity in various fields in June | 247 |
| Anthracite code hearings featured by demand for equalization and higher wages | 426 |
| Anthracite code submitted | 386 |
| Anthracite code text | 386 |
| Anthracite coal text—extend date of scrip clause | 451 |
| Behind the scenes | 328 |
| Bituminous coal code adopted | 327 |
| Bituminous coal code text | 350 |
| Bituminous code organization completed; presidential appointees named | 425 |
| Bituminous coal organizes for code operation | 380 |
| Bituminous coal prepares for code hearings | 270 |
| Bituminous divisional and subdivisional code authority personnel | 390 |
| Code making (e) | 282 |
| Indiana files | 248 |
| Management freed by wage and price stabilization (e) | 325 |
| "Model" code adopted at Chicago | 234 |

| | |
|---|-----|
| National Recovery Administration organizes for the future | 301 |
| NRA code making for bituminous industry enters "final" stages | 203 |
| Retail code restricts scrip | 385 |
| Retail solid fuel code filed | 385 |
| Retailers, wholesalers and dock operators codes have hearings | 432 |
| Safety equipment code submitted | 354 |
| Summary of principal provisions in proposed codes of fair competition | 280 |
| Teeth | 696 |
| Under the blue eagle (e) | 325 |
| Union operators meet with United Mine Workers to draw up code | 247 |
| Wanted for entire bituminous industry (e) | 221 |

Coal Trade Assn of Indiana

| | |
|------------------|-----|
| Officers elected | 432 |
|------------------|-----|

Colorado & New Mexico Coal Operators' Assn.

| | |
|------------------|-----|
| Officers elected | 287 |
|------------------|-----|

Combustion

| | |
|---|-----|
| Heats by radiance (e) | 110 |
| Where the furnace heat goes (e) | 84 |
| Compressed air and compressors | |
| Loading coal with compressed air at Ehrenfeld. A. L. Hunt | 155 |

Conveyors

| | |
|---|-----|
| Compressed air for loading used at Ehrenfeld. A. L. Hunt | 155 |
| Five years proves value at Chauncey Colliery | 150 |
| Price-Pancoast colliery's conveyor mining. I. A. Given | 3 |
| Retarding device for conveyor chutes | 423 |
| Thin seams no obstacle to C.B.C.'s mechanization | 143 |
| Weak and heavy top makes conveyor longwall imperative. S. C. Miffen | 223 |
| Corrosion | |
| What metals to use in anthracite-breaker chutes. Keene & McFarland | 335 |
| Cutting machines | |
| Track mounted cutting machines at Peabody Coal Co. C. E. Lee | 157 |

D

Drainage

| | |
|--------------------|-----|
| Concrete water dam | 422 |
|--------------------|-----|

E

Economics

| | |
|--|-----|
| Appalachian Coals decision (e) | 109 |
| Audit of Progress (e) | 31 |
| Business cooperation discussed | 142 |
| Coal competition in 1950? (e) | 142 |
| Coal industry widens battle front in war against competition | 35 |
| Coal-mining industry (e) | 33 |
| Cost of production (e)—settle miners' families on West Virginia farm | 431 |
| Moratoriums and markets (e) | 263 |
| "New deal" in industry (e) | 173 |
| NIRA and purchases of new equipment (e) | 174 |
| Planned economy | 28 |
| Profits in coal industry up to Uncle Sam (e) | 361 |
| Relief Administration to buy 10,000,000 tons of coal | 425 |
| Torrence plan urged dictators to revise business | 135 |
| Wage and price rises, effect on industry (e) | 173 |
| What price slack? G. B. Gould | 184 |
| Who pays for low industrial coal prices (e) | 202 |

Electricity

| | |
|--|-----|
| Auxiliary contactor stops arcing in starting rheostats | 132 |
| Correcting flashover troubles on rotary converter | 155 |
| Dual voltage switch | 87 |
| Electric eye opens Nemacon doors | 77 |
| Explains why high voltage is not always fatal | 424 |
| Feeder circuit breaker can be remotely controlled | 102 |
| Impregnating armatures | 245 |
| Indian Head anthracite operations | 387 |

| | |
|---|-----|
| Locomotive with mechanical controller | 24 |
| Midland Electric adopts modern distribution system at new stripping operation | 305 |
| Power factor improvement at Madeira Hill & Co. results in savings | 363 |
| Protecting electric cables | 68 |
| Protecting machine motors | 274 |
| Rheostat modification avoids heating injury | 347 |
| Sensitive ground recorder | 383 |
| Tools for setting brush holders | 311 |
| Transformer tower built from scrap rails | 348 |

F

| | |
|---|---------------|
| Financial reports, 1932 | 104, 130, 170 |
| First Aid and Mine Rescue | |
| Kentucky, Pennsylvania and West Virginia meets | 320 |
| Pennsylvania Coal & Coke Corp. meet | 278 |
| Spare oxygen cylinder aids in apparatus failure | 212 |
| Sprague wins New River meet | 249 |

| | |
|---|-----|
| First Annual Mineral Industrial Conference | |
| Report of meeting | 137 |

| | |
|--|-----|
| Flotation | |
| Methods and results of floating and filtering coal, pt. 2, E. W. Mayer | 375 |
| Why and when to use flotation process, E. W. Mayer, pt. 1 | 333 |
| Fly-ash problems (c) | 22 |

| | |
|---|----------|
| Freight Rates | |
| Alberta rate cut | 250 |
| Anthracite rates cut | 103, 278 |
| Carriers attack lake rates | 217 |
| Coke rates prescribed by I.C.C. | 287 |
| Freight rates on coal higher than mine prices for coal (c) | 221 |
| General investigation ordered by Commission | 133 |
| General rate reduction denied by I.C.C. | 287 |
| Hard coal rate cut approved | 249 |
| I.C.C. denies Pennsylvania, Maryland and West Virginia reductions | 320 |
| I.C.C. hearings on general reduction | 169 |
| I.C.C. petitioned for reduction in rates | 69 |
| Ohio rate cuts prohibited | 215 |
| Ohio rate cuts stand | 287 |
| Producers and consumers attack freight rates | 63 |
| Recognizing competition (c) | 34 |
| Transportation charges (c) | 33 |
| Fuel Oil | |
| Consumption by public utilities in 1929, W. H. Young | 19 |

G

| | |
|--|-----|
| Great Britain | |
| Motor fuel from coal aided by government | 285 |

H

| | |
|---|-----|
| Harlan County Coal Operators' Assn. | |
| Officers elected | 432 |
| Hazard Coal Operators' Exchange | |
| Officers elected | 71 |
| Hoists and Hoisting | |
| Emergency valve for steam hoists | 68 |
| Magnetic attachment added to hoisting engine stop | 312 |
| Office type elevator in Caples Mine | 115 |
| House of steel and asbestos uses anthracite | 70 |

I

| | |
|---|-----|
| Illinois | |
| First Annual Mineral Industries Conference discusses Illinois Coal Industry | 137 |
| Illinois Coal Operators' Assn.—officers elected | 385 |

| | |
|--|-----|
| Illinois Mining Institute | |
| Election of officers | 412 |
| "Kink box" includes wide range of operating ideas | 245 |
| Operation and economics discussed at annual meeting | 412 |
| Surveys operating safety and marketing problems on boat trip | 237 |

| | |
|--------------------------------------|----|
| Indiana Coal Mining Institute | |
| Officers elected | 29 |

| | |
|--------------------------------------|-----|
| Indiana Coal Operators' Assn. | |
| Officers elected | 431 |

| | |
|--|-----|
| Industrial relations | |
| Alabama Fuel and Iron Co. food raising plan | 28 |
| Industrial Safety Equipment Mfgs. Assn. Submits code | 354 |
| Insurance, compensation (c) | 76 |
| Iowa Coal Trade Assn.—organization | 385 |

L

| | |
|--|----------|
| Labor | |
| "A good press" (c) | 292 |
| Alabama—strike affects ten mines | 389 |
| Anthracite code hearings featured by demand for equalization and higher wages | 426 |
| Anthracite insurgents extend strike | 356 |
| Anthracite insurgents organize, call strikes | 319 |
| Anthracite operators again ask wage cut | 169 |
| Anthracite strike ended by National Labor Board | 430 |
| Anthracite wage arbitration fails | 104 |
| Anthracite wage conference called off | 210 |
| Appalachian agreement—text and scale | 366 |
| Appalachian wage agreement signed | 364 |
| Eastern Ohio agreement signed | 387 |
| Factory methods bring attendance at Nellis mine under control, E. H. Shriver | 207 |
| Federal Government to settle miners' families on West Virginia farm | 431 |
| Formation of "Independent Miners' Union" causes trouble in Western Kentucky | 319 |
| Hours and wages (c) | 141 |
| Illinois insurgents approve wage agreement | 137 |
| Illinois invaded by insurgents | 169 |
| Illinois legislative committee reports on war between United Mine Workers and insurgents | 249 |
| Illinois—NRA proposes settlement of union controversy | 388 |
| Illinois wage agreement extended to 1935 | 29 |
| Indiana—military rule established in Sullivan County as result of strike | 388 |
| Indiana protest strike | 319 |
| Inter-union warfare (c) | 361 |
| Miners' vision (c) | 231 |
| National Guard ordered into Tennessee fields | 70 |
| National Recovery Administration organized board to halt industrial disputes | 279 |
| New Mexico strike stared by National Miners' Union | 319 |
| New Union scale in northern West Virginia | 286 |
| Northern Colorado agreement signed | 387 |
| NRA Mediation Boards (c) | 253 |
| NRA takes hand in Pennsylvania strike | 286 |
| Ohio suspension ends | 319 |
| Oklahoma deadlock continues | 29 |
| Southern Colorado-New Mexico agreement signed | 387 |
| Southern Ohio operators increase wages | 319 |
| True agreements adopted in settlement of Pennsylvania strikes | 286 |
| Two-man commission a failure in arbitration of anthracite wages (c) | 75 |
| Utah strike staged by National Miners' Union | 319 |
| Violence flares up in Oklahoma | 70 |
| Virginia strike ends | 355 |
| Virginia strike starts | 319 |
| Wage agreements—millstone or milestone? (c) | 326 |
| Wage increases announced | 219 |
| Wage increases spread in East | 249 |
| Wage rates proposed in codes for Eastern, Southwestern and Rocky Mountain-Pacific district | 284, 285 |
| Wage scales—Pennsylvania, Northern and Southern West Virginia | 355 |
| Wages—how high? (c) | 254 |
| Wages reduced by New River Operators | 70 |
| Washington discusses coal | 133 |
| Wayne and Appanoose County (Iowa) agreement signed wage scale | 387 |
| Western Kentucky in controversy with National Labor Board | 388 |
| Western Pennsylvania—President takes hand in stoppage | 387 |
| Western Pennsylvania—steel companies hold captive mine elections | 430 |
| Western Pennsylvania—steel companies sign agreement expected to end captive mine stoppage | 355 |
| Western Pennsylvania strike continues | 319 |
| Law and Legislation | |
| Appalachian Coals decision (c) | 109 |
| Appalachian decision upheld by Supreme Court | 134 |
| Davis-Kelly bill unconstitutional | 103 |
| Hours, wages and output control asked of Congress | 167 |
| Kelly reintroduces coal bill | 136 |
| National Industrial Bill offered; coal legislation plans sidetracked | 120 |
| Natural resource industries ask anti-trust law modification | 28 |
| Utah bill would regulate coal | 103 |
| Utah coal bill vetoed | 133 |
| Lubrication | |
| Union Pacific adopts code | 164 |

M

| | |
|---|-----|
| Machinery & Allied Products Institute—organized | 278 |
| Maintenance | |
| Adequate seals mean longer bearing life of mine locomotives, C. A. Atwell | 339 |
| Boom attachment broadens portable crane use | 347 |
| Broken bumpers reclaimed by welding | 347 |
| C & O record system reduces maintenance cost | 276 |
| Cable installed to shed water | 101 |
| Changing drill to wrench | 165 |
| Changing locomotive tires reduces waste | 311 |
| Cleaning conveyor belts | 131 |
| Disk wheels stop breakage from heating | 214 |

| | |
|--|-----|
| Hand operated press | 106 |
| Hanna adopts shop practice for tool sharpening | 244 |
| Loading machine clutch removed by spot welding | 27 |
| Modification of rheostat avoids heating injury | 347 |
| Oil-container carrier | 384 |
| Overhauling cutter chains | 67 |
| Peep-hole light to examine equipment | 424 |
| Pinion puller | 102 |
| Puller or removing couplings without disturbing motor | 382 |
| Rack for welding rods | 430 |
| Removing dirt from motors | 382 |
| Revising locomotive parts saves wear | 274 |
| Special lifting device for armature | 384 |
| Steel jackets used to repair conveyor drive frames | 244 |
| Tool for removing hanger shells | 102 |
| Tool for removing pulleys | 276 |
| Tools for setting brush holders | 311 |
| Union Pacific adopts lubrication code | 164 |
| Wire rope inspection and maintenance rules adopted by Susquehanna Collieries | 100 |

Management

| | |
|---|--------|
| C & O record system forestalls breakdowns and reduces maintenance cost | 276 |
| Do you know how much equipment it is profitable to install (c) | 291 |
| Factory methods bring attendance at Nellis mine under control, E. H. Shriver | 207 |
| Freed by code wage and price stabilization (c) | 325 |
| Skillful planning opens way to profitable operation at anthracite mines, J. H. Pierce | 38, 87 |

Mechanization

| | |
|--|-----|
| C & O's experience with mechanical loading | 162 |
| Centralia mine changes from hand to mechanical loading without delay | 161 |
| Compressed air for loading used at Ehrenfeld, A. L. Hunt | 155 |
| Conveyor mining at Price-Panocoast colliery, I. A. Given | 3 |
| DeBardeleben Coal modernized and kept higher wages | 158 |
| Entry driving machines at New Orient, Foster & Brosky | 111 |
| Five ton cars increases loader efficiency at Fairpoint mine, P. B. Faulstick | 175 |
| Five years proves value of conveyors at Chauncey Colliery | 150 |
| Little Betty mine expands mechanical loading | 159 |
| Mechanically loaded tonnage declines in 1932 | 218 |
| New equipment pays for itself in one year at Island Creek mines | 151 |
| Old Orient mechanization helos produce high grade lump coal, A. F. Brosky | 329 |
| Pit car loading effects economies at Superior Coal Co. | 154 |
| Progress in 1932, annual review | 59 |
| Sheridan-Wyoming mines show record performance | 367 |
| Ten year record of mechanical loading at Union Pacific, Eugene McAuliffe | 146 |
| Thin seams no obstacle to C.B.C.'s mechanization | 143 |
| Weak and heavy top makes conveyor longwall imperative, S. C. Miffen | 223 |

Merchandising

| | |
|--|---------|
| Advantages and use of dedusted coal, H. F. Hebley | 263 |
| Anthracite takes dealer into partnership, I. A. Given | 32, 121 |
| Bituminous code brings new problems in describing coal quality, G. B. Gould | 331 |
| Bituminous future rests on merchandising and mergers, J. T. Hill | 369 |
| Buyer's profit (c) | 1 |
| Competitive relations with oil and gas | 696 |
| Cooperative advertising planned in Northwest | 69 |
| Cost, comfort, convenience and cleanliness | 696 |
| Covington Coal block plant converts fines into high priced fuel, R. L. Beard | 228 |
| Domestic coal economies (c) | 76 |
| Growing demand for fine coal, G. B. Gould | 184 |
| Illinois adopts new sales plan | 167 |
| Industrial uses of coal discussed at A.I.M.E. meeting | 374 |
| Louisville & Nashville R.R. imposes trucking curb | 133 |
| Model home burns anthracite | 217 |
| Modern preparation increases sales, Joseph Purslove, Jr. | 153 |
| New automatic heat plan proposed in Pennsylvania | 215 |
| Second battle of Trenton (c) | 222 |
| Trenton boosts anthracite by sale of automatic equipment through central agency | 195 |
| Trucking results in 1932 presented at 3rd Pennsylvania Mineral Industries Conference | 416 |

Mine Inspectors Institute of America

| | |
|--|-----|
| Annual meeting studies economics of mine safety | 204 |
| Mine openings, abandoned, to be sealed by Civil Works Administration | 432 |

Mine timbers

| | |
|--|-----|
| Longwall, steel arches and posts in Nova Scotia mines, S. C. Miffen | 261 |
| Steel arches, R. D. Hall | 9 |
| Timber treatment effects economies at Carbon Fuel Co. | 160 |

Mining Methods

Backfilling permits pillar recovery without disturbing surface. H. A. Dierks. *255
 Conveyor mining at Price-Panocoast colliery. I. A. Given. *3
 DeBarleleben Coal Corp. mechanized mining. 158
 Holding back coal (c). 292
 Indian Head anthracite operations. *397
 Loading coal with compressed air at Ehrenfeld. A. L. Hunt. *155
 Longwall, steel arches and post in Nova Scotia mines. S. C. Mifflin. *261
 Nova Scotia Mining Society discusses. 260
 Operating practice at New Pond Creek Pocahontas mine. *116
 Scow mining at Poteau mine. Ople Carter. *259
 Skillful planning opens way to profitable operation at anthracite mines. J. H. Pierce. 38, 87
 Steel timbering in the U. S. R. D. Hall. *9
 Tunnel solves haulage problems of Kenilworth mine in Rocky Mts. *305
 Vertical seams mined by longwall in Belgium. F. C. Cornet. *125
 Weak and heavy top makes conveyor longwall imperative. S. C. Mifflin. *223

Modernization

Progress. 6395
 "Twice-told tales" (c). 141
 Montana Coal Operators' Assn.—officers elected. 432
 Muscle Shoals plan opposed by bituminous industry. 167

Museum of Science and Industry

Coal mine exhibit. 138
 "Man-made" mine opened for Chicago convention. *182

N

National Bituminous Coal Industrial Board

Personnel. 420

National Coal Association

Annual meeting takes up regional sales agencies, research, fuel distribution and credits. 231
 Committee named. 249
 Moves for gas tax. 432
 Technical Research Committee approves bituminous research laboratory. 60

National Safety Council

Mining Section discusses accident prevention. 349, 371
 Officers chosen for Mining section. 340, 372

Natural Gas

Companies active. 105
 Consumption by public utilities in 1929. W. H. Young. *19
 Drive for market in Chicago. 287
 Line from Douglas to Tucson and Phoenix, Ariz. 358
 Line from Texas to Twin Cities. 313

New Equipment

Bearings, ball. 32
 Bearings, roller. *31
 Bearing, synthetic resin. *74
 Belt, endless rubber. 74
 Belts, new V. 394
 Belt, non skid. *252
 Belt, transmission. 394
 Bit, detachable. *130, *290
 Blasting agent. 73
 Blasting cap, delay. 359
 Blasting device. *32
 Bolt, expansion. *322
 Brake handle, safety. *31
 Bucket, elevator. 289
 Carbon monoxide antidote. *74
 Chain, roller. *73
 Coal breaker, vertical pick. 359
 Coal treating compound. *393
 Compressor. 251
 Compressor, portable. 290
 Compressor, rotary air. *323
 Concreting by air. 171
 Conveyor belt. *434
 Conveyor, mine. *393
 Coupling, flexible. *108, *252, *322
 Coupling link, weldless. *322
 Coupling, multi duty. *323
 Couplings for air hose. *359
 Dipper, renewable lip. *172
 Drill, air driven core. *251
 Drill, one man diamond. *130
 Drilling machine. *323
 Dust arrester. *393
 Dust extraction system. *73, *107
 Electricity. 171
 Ammeter, testing. 290
 Cable, insulated with glyptal-treated cloth. 32
 Capacitors. *107
 Circuit breakers. *252
 Circuit breakers, small. manually and electrically operated. *324
 Gearmotor. *360
 Gearmotors, fractional horsepower. *171, *360
 Instruments, portable. *251
 Mercury switches. 289
 Meter, combination. *171
 Motor. 252
 Motor base, sound proofed. 171
 Motor control. *389
 Motor, inclosed. *251
 Motor protection. *130
 Motor, reducer. 359
 Motor, totally inclosed. 394
 Oil circuit breakers. *108
 Photo-electric control. 280
 Reclosing device. 30

Reducer, variable. *324
 Splashproof motor. *172

 Officers elected 29

MINE AND COMPANY INDEX

| | | | | | |
|---|-----|---|-----|---|-----|
| A | | G | | N | |
| Acme Coal Cleaning Co. Building central cleaner at Avella, Pa. | 215 | George F. Lee Coal Co. Five years proves value of conveyors at Chauncey Colliery | 150 | New Jellico Coal Co. Tool removes hanger shells | 102 |
| Alabama Fuel & Iron Co. Food raising for employees | 28 | Glen Alden Coal Co. Direct fire fighting quenches stubborn anthracite fire | 239 | New River & Pocahontas Consolidated Coal Co. Office type elevator at Caples mine | 115 |
| American Rolling Mills Co. Factory methods bring attendance at Nellis mine under control. E. H. Shriver | 207 | Great Kanawha Barge Lines. Reopens Crown Hill Mine | 247 | O | |
| B | | Great Valley Anthracite Corp. Property bought by Great Valley Morgan Coal Corp. | 320 | Octavia J. Coal Mining Co. Aerial tramway solves refuse disposal. J. H. | 123 |
| Baker-Dora Coal Co. Opens strip mine | 69 | Great Valley Morgan Coal Corp. Buys property of Great Valley Anthracite Corp. | 320 | O'Gara Coal Co. Sahara Coal Co. succeeds O'Gara | 250 |
| Bell & Zoller Coal & Mining Co. Centralia mine changes from hand to mechanical loading without delay | 161 | Gulf Smokeless Coal Co. Locomotive with mechanical controller | 24 | Osage Coal Co. Mine sold | 168 |
| Electric safety calendar | 246 | H | | P | |
| Loading machine clutch removed by spot welding | 27 | Haddock Mining Co. Salem Hill breaker designed with fading egg market in view | 92 | Pacific Coal & Coke Co. Equipping Wyoming property | 320 |
| Magnetic stop for hoisting engine | 312 | Hadley Anthracite Co. Opens old Hadley mine | 138 | Pardee Bros. & Co. Mines sold | 170 |
| Back for welding rods | 26 | Hanna Coal Co. Adopts shop practice for auger sharpening | 244 | Peabody Coal Co. Track machines make high records. C. E. Lee | 157 |
| Spare oxygen cylinder aids in apparatus failure | 212 | Loader efficiency at Fairpoint mine increased by big cars. P. R. Paulok | 175 | Pennsylvania Coal & Coke Corp. Airway design cuts resistance | 212 |
| Bertha Consumers Co. Mines purchased by Marshall Jones | 104 | Harlan Fuel Co. Installs new power plant | 167 | Angle short for blasting | 26 |
| Blair-Collins Co. Slack storage system at Prescott mine | 130 | Humphreys Coal & Coke Co. Coal dry cleaned and desulphurized | 163 | Compressed air for loading used at Ehrenfeld. A. L. Hunt | 155 |
| Blanco Coal Co. Mine sold | 168 | I | | Disk wheels stop breakage from heating | 214 |
| Blue Diamond Coal Co. Constant inspection cuts mine accidents | 348 | Independent Coal & Coke Co. 1 1/2 mile tunnel solves haulage problems of Rocky Mt. mine | 305 | Impregnating armatures | 246 |
| Buckeye Coal Co. Electric eye opens Nema-colin doors | 77 | Indian Head Anthracite, Inc. Flexibility the objective in design of plant at new collieries | 401 | Revising locomotive parts saves wear | 274 |
| River tipple has high loading rate | 226 | New plant fitted to present and future demands | 397 | Steel jackets used to repair conveyor drive frames | 244 |
| C | | Irwin Gas Coal Co. Sealing leak in borehole | 422 | Philadelphia & Reading Coal & Iron Co. Cleaning conveyor belts | 131 |
| C.C.B. Smokeless Coal Co. Glen White preparation plant. J. H. Edwards | 337 | Preparing coal for Western markets | 70 | Model home burns anthracite | 217 |
| Carbon Fuel Co. Timber treatment promotes operating economies | 160 | Island Creek Coal Co. New equipment pays for itself in year | 151 | Pittsburgh Coal Co. Sells Ohio coal lands. 285 | 285 |
| Carnegie Steel Co. Washing coal for coking purposes at Clairton byproduct coke works. H. W. Seyler | 187 | J | | Wins railroad fight | 349 |
| Carter Coal Co. Assumes control of Pocahontas operations | 135 | Jeddo-Highland Coal Co. Anthracite water tunnel | 70 | Pond Creek Pocahontas Co. Brake release lifts weight to lower bridle | 423 |
| Central Indiana Coal Co. Dehydrating and drilling. R. D. Hall | 7 | K | | Fireboss board made of glass slides and one lamp | 382 |
| Chicago, Wilmington & Franklin Coal Co. Entry driving machines at New Orient. Foster & Brosky | 111 | Kemmerer Coal Co. Pipe bridge made by welding | 132 | Mine car plus pump makes water car | 384 |
| Mechanical loading at Old Orient for production of lump coal. A. F. Brosky | 329 | Kingston Coal Co. Stripping outcrops | 113 | Quality and uniformity at new mine. J. H. Edwards | 116 |
| Clearfield Bituminous Coal Corp. Thin seams no obstacle to mechanization | 143 | Knox Consolidated Coal Co. Safety detonator box | 102 | Powhatan Mining Co. Modern preparation increases sales. Joseph Fursglove, Jr. | 153 |
| Columbia Steel Co. Safety shotfiring methods | 422 | Koppers Coal Co. Interests merge | 104 | Price-Pancoat Coal Co. Conveyor mining. I. A. Given | 3 |
| Colorado Fuel & Iron Co. In receivership. Connellsville By-Product Coal Co. Drops lease | 168 | L | | Princeton Mining Co. Building power plant | 103 |
| Consolidation Coal Co. Buys briquetting equipment | 29 | LeFlore-Poteau Coal Co. Scow methods bring coal to tipple without breakage or admixed impurity. Ople Carter | 259 | Puritan Coal & Coke Co. Chute retarders | 26 |
| Covington Coal Co. Block plant converts fines into high priced fuel. R. L. Beard | 228 | Lehigh Navigation Coal Co. Signal warns to "duck" | 312 | S | |
| D | | Lillybrook Coal Co. New power plant | 187 | Scranton Coal Co. Backfilling permits pillar recovery without disturbing surface. H. A. Dierks | 255 |
| DeBardeleben Coal Corp. Modern equipment keeps mines running despite wage differential | 158 | Little Betty Mining Corp. Expands mechanical loading operations | 159 | Sheridan-Wyoming Coal Co. Low accident rate, advanced practice in mechanization and low production cost | 367 |
| Delaware, Lackawanna & Western Coal Co. "Blue Coal" name not to be used by other firms | 320 | M | | Sherwood-Templeton Coal Co. Dehydrating and drilling. R. D. Hall | 7 |
| Dominion Steel & Coal Corp. Weak and heavy top makes conveyor longwall imperative. S. C. Miffen | 223 | Madeira, Hill & Co. Power factor improvement results in savings | 363 | Southern Ohio Coals, Inc. Organization increases sales. Joseph Fursglove, Jr. | 278 |
| Dunedin Coal Co. Changing drill to wrench. Welded pump guards | 165 | Safety work a paying proposition | 177 | Spring Canyon Coal Co. Derrail protects inside slope | 131 |
| E | | Maumee Collieries Co. Modern equipment and methods at new stripping | 294 | Safety shotfiring system | 102 |
| Enos Coal Mining Co. Strip-pit shooting costs out by horizontal drilling. R. D. Hall | 85 | Stripping under way | 137 | Superior Coal Co. Pit car loading effects economies | 154 |
| F | | Midland Electric Coal Corp. Develops new stripping operation | 405 | Susquehanna Collieries Co. Detonator and leads arranged to reduce misfires | 213 |
| Fordson Coal Co. Automatic tramway solves refuse disposal. J. H. Edwards | 271 | Preparation methods at new stripping operation | 408 | Feeder circuit breaker can be remotely controlled | 102 |
| Boom attachment broadens portable crane use | 347 | Milby & Dow Coal & Mining Co. Two mines sold | 168 | Tracing stray detonators | 131 |
| Special lifting device for armature | 384 | N | | Wire rope inspection and maintenance rules adopted | 100 |
| Four Seam Coal Corp. Sand dryer made of locomotive tires | 214 | O | | U | |
| Transformer tower built from scrap rails | 348 | P | | Union Pacific Coal Co. Adopts lubrication code | 164 |
